The Dolch sight words in this book are for Grade 3 and above. These words are commonly encountered in any text and they set the foundation for future reading and writing skills. Sight words are taught by reading and writing in this workbook. A child sees the word on the page and says the word while pointing to the word. A child can also say the word and spells out the letters and then practise writing the word on the worksheets provided. By using these techniques they help to activate different parts of the brain. The exercises in this workbook combine repetitions of the word (seeing, hearing, speaking, spelling, and writing) with physical movements that focus the child's attention and reinforce each word into the child's long-term memory. Once, your children can recognise, read and write these words, they can read and spell more fluently to prepare them for school. This workbook contains 136 writing practice pages.

Effective financial planning for executives and entrepreneurs is complex, dense, and impossible to reduce to a single, easy-to-understand formula. Designed to emphasize the importance of effective, targeted financial planning, this book begins by telling a story about a fictional, but plausible, power couple and their family who (spoiler alert!) do pretty much everything wrong in securing their financial future. In most cases, they don't do the things needed because they don't know what they are. Using this story as a case study of executives and entrepreneurs, the book breaks down the case into chapters and offers practical discussions of all the key financial planning pillars—investment planning, tax planning, estate planning, philanthropic planning, risk management, and equity-based compensation to name a few—with the tools needed to tailor a plan for virtually every circumstance and need. While there is no single plan that works for everybody, this book will provide a guide with complicated, technical information alongside specific guidance on how to build an effective financial plan.

A strategy for changing attitudes about personal finances covers such topics as getting out of debt, the dangers of cash advances and keeping spending within income limits.

When Dave Ramsey was experiencing his own "total money makeover," he found that journaling was very helpful and effective in allowing him to see the big picture. Dave says, "Take this journal and record everything happening that seems like a big deal. Record the relationship issues, the debt, the emotions, the setbacks, the victories, and anything else that seems important at the time." "The immediate benefits of writing everything down are twofold. First, writing helps you process the problems and victories. The second immediate benefit of journaling is that you can reread your entry just days - even months - later and gain vital perspective on your progress." Now in a bullet journal format with prompts for recording victories and setbacks, The Total Money Makeover Journal will motivate those in The Total Money Makeover journey to find value in every day. "Write it down. You will be glad you did."

What does the Bible really say about money? About wealth? How much does God expect you to give to others? How does wealth affect your friendships, marriage, and children? How much is "enough"? There's a lot of bad information in our culture today about wealth and the wealthy. Worse, there's a growing backlash in America against our most successful citizens, but why? To many, wealth is seen as the natural result of hard work and wise money management. To others, wealth is viewed as the ultimate, inexcusable sin. This has left many godly men and women confused about what to do with the resources God's put in their care. They were able to build wealth using God's ways of handling money, but then they are left feeling guilty about it. Is this what God had in mind?

This supplemental workbook is designed to be used in conjunction with the book, "Teach Your Child to Fish."
