

Fiocco Joseph Hector Allegro Violin And Piano Edited By Josef Gingold International

Expertly arranged sonata for two violins and piano (cello ad lib).

Like the two-part inventions, Bach's three-part inventions (also known as Sinfonias) were composed as instructional material for his son, Wilhelm Friedemann. In researching the sinfonias, Willard A. Palmer discovered that previous editors had misinterpreted an important note in Sinfonia No. 11. Such careful research is a hallmark of Palmer's Bach editions. (String Solo). On 18 January 1887 Antonin Dvorak (1841-1904) started composing his Romantic Pieces for violin and piano, opus 75 (B 150), completing that version on 25 January. They were performed for the first time in a private house two days later, with the composer writing to his publisher in Berlin: 'Played here yesterday and very well received.' For this edition reference has been made to a copy of the original manuscript and to the first edition. The small number of bow markings in the violin part of the piano score are original and have been left unaltered. These four contrasting movements are a welcome addition to the violin repertoire and a very effective alternative to Dvorak's large-scale violin works, the Concerto in A minor and Romance in F minor.

A collection of piano solos composed by Louis Köhler.

Dr. Suzuki questioned why all vocalists vocalize every day to improve their voices, but instrumentalists do not do so every day with their instruments. He believes that on any instrument, one needs to practice to make a more beautiful tone. First he talks about playing a beautiful resonant tone with the bow while plucking the string with a finger. When a pizzicato is played, the resonance goes on for a long time. Students should listen to that resonance and play the same kind of clear beautiful sound. He talks about how to make a difference in the tone by using a different bow speed, how to practice to find the resonance point, how to change the weight of the arm on the bow to produce a different kind of tone, and how to change tone color. This book includes all of Dr. Suzuki's basic ideas about tone.

Bow Exercises for the Expressive Violinist is a series of fundamental bow studies allowing the player to acquire agility in the right, an even tone in all parts of the bow, and an ability to play with ease and virtuosity. The study of these exercises gives the serious student an increased palette of colors, a nuanced amplitude of dynamics, and an increased speed with which new music can be played with beauty and expression. The regular practice of bow exercises makes the musician's palette richer thereby increasing their capacity to bring joy to others. This book series is intended as a precursor to the Sevcik Bowing Books.
