Protect lives and property with state-of-the-art guidance on conducting safe, thorough, accurate inspections!

Expanded with updated facts and new chapters!

Completely revised and updated to reflect the latest procedures and code requirements, the Fire and Life Safety Inspection Manual is your step-by-step guide through the complete fire inspection process, with special emphasis on life safety considerations. Formerly the NFPA Inspection Manual, it covers the full range of hazards and gives you solid advice on identifying and correcting problems. Easy-to-follow checklists help you remember and record every important detail. Early chapters provide important background information, while the second half presents inspection guidelines for specific fire protection systems and occupancies that are based on the Life Safety Code(R). In addition to discussing fundamentals such as inspection procedures and report writing, this comprehensive manual now includes all-new chapters on Housekeeping and Building Procedures, Water Mist Systems, Day Care Occupancies, Ambulatory Health Care Facilities, and Semi-Conductor Manufacturing. With 150 illustrations,

All aspects of protecting property from fire damage in professional and industrial settings are encompassed in this manual. The author's unique approach to protection relies on three criteria: emergency response, inspection and maintenance. It demonstrates how to customize fire protection guidelines to fit any particular type of business, and provides more than 100 fire safety checklists that expedite implementation of safety measures. Safety professionals will minimize the effects of fire emergencies by learning how to consolidate resources for emergency response, maintain fire protection systems, and ensure proper fire protection inspections. They will also gain insights into how to work with various public authorities, property insurance engineers, and fire protection contractors. All techniques discussed are based on observations of actual field conditions in manufacturing plants, warehouses, hotels, restaurants, commercial buildings, and hospitals.
