This classic book provides an overview of the methods, equipment, and materials used in the construction of large commercial buildings. It makes an excellent source of general information—complete with diagrams, details, photographs, and worked examples of typical construction calculations such as earth moving calculation, formwork calculations, concrete pressures, and insulation values for building components. Revised content in this new 8th edition includes additional examples and homework problems for a complete review, superior illustrations, added video clips to the ancillary materials, and much, much more!

This unique and popular publication is written for apprentices, journeymen ironworkers, and inspectors. A definitive resource for preparing provisions in project specifications. Eighteen heavily illustrated chapters cover topics including types of materials, handling of bars at the jobsite, general principles for bar placing, splicing, and tying, bar placement in footings, walls, columns, floors, roofs, pavement and transportation structures. Also includes a chapter on epoxy-coated and other coated reinforcement.

In Florida, the Construction Industry Licensing Board (CILB) administers the various contractor examinations. For this exam, candidates are required to focus their attentions on these topic areas: - Establishing the Contracting Business - Managing Administrative Duties - Managing Trade operations - Conducting Accounting Functions - Managing Human Resources - Complying with Federal Laws and Regulations The Business and Finance exam covers a wide range of fundamental topics related to the building and construction profession. There is no way you can pass the exam without having solid real world experience. Our notes give you knowledge, principles and concepts. To master the topics, you must be "in the field" - you need to go through the

real world plans, the various contract documents and the various administrative paperworks all by yourself. And you need to know how the experts get things done. To succeed in the exam, you also need to read as many reference books as possible. There is no single book that can cover everything! An OPEN BOOK exam needs not be easy. If you do not know the concepts and facts, you will have a hard time searching for the right information. And if you need to browse through pages to look for an answer every time a new question is encountered, you will run out of time pretty fast. To succeed, you must learn enough so you can handle most questions on the spot. In case you have no choice but to search through the books you should make yourself capable of finding the needed information as quick as possible. This ExamFOCUS book focuses on the more difficult topics that will likely make a difference in exam results. The book is NOT intended to guide you through every single official topic. You should therefore use this book together with other reference books for the best possible preparation outcome.

The first monograph of MASS Design Group, the internationally lauded firm creating some of the most powerful and humane works of architecture today. Founded in 2008, MASS Design Group collaborated with Partners In Health and the Rwanda Ministry of Health to design and build the Butaro District Hospital in Rwanda, a masterwork of architecture that also uniquely serves a community in need. Since then, MASS has grown into a dynamic collaborative of architects, planners, engineers, filmmakers, researchers, and public health professionals working in more than a dozen countries in the fields of design, research, policy, education, and strategic planning. Amid ongoing recognition (the 2018 American Academy of Arts and Letters Award in Architecture, the 2017 Cooper Hewitt National Design Award in Architecture), MASS's most recent project, the National Memorial for Peace and Justice in Montgomery, Alabama, has been featured in more than 400 publications, including the New York Times, the New Yorker, and the Washington Post. Mark Lamster of Dallas Morning News called the memorial "the single greatest work of American architecture of the twenty-first century." Justice Is Beauty highlights MASS's first decade of designing, researching, and advocating for an architecture of justice and human dignity. With more than thirty projects built or under construction and some 200,000 people served, MASS has pioneered an immersive approach in the practice of architecture that provides the infrastructure, buildings, and physical systems necessary for growth, dignity, and well-being, while always engaging local communities with attention to the specifics of cultural context and social needs.

This incisive, practical guide provides a thorough breakdown of the ins and outs everyone needs to know when turning contracting skills into a business. From summoning the motivation to start your own business to the intricacies of being your own boss, Claudiu Fatu artfully turns his personal experiences and those of other successful contractors into advice on every aspect of building a business. The chapters focus on: Developing a business structure, including bank accounts, tax registration, insurance, and branding Handling legal and accounting hurdles Managing employees and dealing with clients Using marketing systems to find and book work Estimating and bidding on jobs Writing contracts Creating invoices and a billing system Controlling costs, keeping records, and understanding profit margin Planning retirement and other benefits for the self-employed By teaching contractors to anticipate problems that can arise when dealing with clients, and to build a business plan that can support a contractor's talents in the best way possible, Starting Your Career as a Contractor is the ultimate manual to getting the job done right! Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

How you can make your construction company more profitable. A 'must read' before you price your next project. Many construction companies fail despite the hard work and knowledge of their managers and owners. Some companies even start well, earning good profits, building successful projects, and the company grows - only for it all to come crashing down, often leaving a mountain of debts behind. So why do construction companies fail? Is it due to bad luck? This book explores important aspects of managing a construction company that impact its success and profitability. Obviously managers should have an understanding of running a business as well as the appropriate technical skills. But, it's usually more than this. The chapters in this book focus on the importance of selecting the right project, how to find projects, tendering correctly, winning the project, delivering the project, avoiding unnecessary costs, increasing revenue, financial and contractual controls, managing the company, the importance of good people, growing the company and ensuring the company has a good reputation. The chapters are set out in an easy to read format, filled with practical tips, which provide a step-by-step guide to growing profits, remaining profitable and running a successful construction company.

With an emphasis on uniformity and accountability, the 2007 Florida Building Code ?
