The critically acclaimed, award-winning, modern classic *Speak* is now a stunning graphic novel. "Speak up for yourself—we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless—an outcast—because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. Through her work on an art project, she is finally able to face what really happened that night: She was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. With powerful illustrations by Emily Carroll, Laurie Halse Anderson's *Speak: The Graphic Novel* comes alive for new audiences and fans of the classic novel. This title has Common Core connections.

This book is a state-of-the-art look at where toys have come from and where they are likely to go in the years ahead. The focus is on the interplay between traditional toys and play, and toys and play that are mediated by or combined with digital technology. As well as covering the technical aspects of computer mediated play activities, the authors consider how technologically enhanced toys are currently used in traditional play and how they are woven into childrens' lives. The authors contrast their findings about technologically enhanced toys with knowledge of traditional toys and play. They link their studies of toys to goals in education and to entertainment and information transfer. This book will appeal to students, researchers, teachers, child care workers and more broadly the entertainment industry. It is appropriate for courses that deal with the specialized subject of toys and games, media studies, education and teacher training, and child development.
