A rigorous but nontechnical treatment of major topics in urban economics. Lectures on Urban Economics offers a rigorous but nontechnical treatment of major topics in urban economics. To make the book accessible to a broad range of readers, the analysis is diagrammatic rather than mathematical. Although nontechnical, the book relies on rigorous economic reasoning. In contrast to the cursory theoretical development often found in other textbooks, Lectures on Urban Economics offers thorough and exhaustive treatments of models relevant to each topic, with the goal of revealing the logic of economic reasoning while also teaching urban economics. Topics covered include reasons for the existence of cities, urban spatial structure, urban sprawl and land-use controls, freeway congestion, housing demand and tenure choice, housing policies, local public goods and services, pollution, crime, and quality of life. Footnotes throughout the book point to relevant exercises, which appear at the back of the book. These 22 extended exercises (containing 125 individual parts) develop numerical examples based on the models analyzed in the chapters. Lectures on Urban Economics is suitable for undergraduate use, as background reading for graduate students, or as

a professional reference for economists and scholars interested in the urban economics perspective.

A consideration of one of the Bible's most powerful stories from a leading Israeli writer In this fascinating reexamination of the story of Samson, David Grossman goes beyond the surface of the familiar tale to look into what the life of this extraordinary man must have been like. What it felt like to have been "chosen" to release his people from the yoke of the Philistines, and yet alienated from them by his very otherness; what moved him to his acts of wild vandalism and his self-destructive passions; why he chose to keep some things secret, but not the most significant secret of all. We are left with the troubling knowledge that Samson bore too heavy a burden even for a man of his supernatural strength to bear alone. "There are few other Bible stories with so much drama and action, narrative fireworks and raw emotion, as we find in the tale of Samson: the battle with the lion; the three hundred burning foxes; the women he bedded and the one woman that he loved; his betrayal by all the women in his life, from his mother to Delilah; and, in the end, his murderous suicide, when he brought the house down on himself and three thousand Philistines. Yet beyond the wild impulsiveness, the chaos, the din, we can make out a life story that is, at bottom, the tortured journey of a single, lonely and turbulent soul who never found, anywhere, a true home in the world, whose very

body was a harsh place of exile. For me, this discovery, this recognition, is the point at which the myth – for all its grand images, its larger-than-life adventures – slips silently into the day-to-day existence of each of us, into our most private moments, our buried secrets.” –from David
