**Butterflies Belong Here** Deborah Hopkinson, 2020-08-04 Butterflies Belong Here is a powerful story of everyday activism and hope. In this moving story of community conservation, a girl finds a home in a new place and a way to help other small travelers. This book is about the real change children can make in conservation and advocacy—in this case, focusing on beautiful monarch butterflies. • From Deborah Hopkinson and Meilo So, the acclaimed team behind Follow the Moon Home • An empowering, classroom-ready read • The protagonist is a girl whose family has recently immigrated to the United States. I know what to look for: large black-and-orange wings with a border of small white specks, flitting from flower to flower, sipping nectar. But though I looked hard, I couldn't find even one. I wondered if monarch butterflies belonged here. I wondered if I did, too. Butterflies Belong Here is proof that even the smallest of us are capable of amazing transformations. • Equal parts educational and heartwarming, this makes a great book for parents and grandparents, as well as librarians, science teachers, and educators. • Those interested in beautiful butterflies and everyday activism will find this lovely book both motivating and inspiring. • Perfect for children ages 5 to 8 years old • You'll love this book if you love books

**Chase the Moon, Tiny Turtle** Kelly Jordan, 2021-03-02 Young readers will witness rare and extraordinary natural event as a baby loggerhead hatches from its shell. With nothing but the light of the moon to act as a guide, readers will follow the newborn turtles' harrowing attempts to outpace a series of predators on their march toward the glistening shore. After only narrowly avoiding hungry crabs, owls, and foxes, the turtle rides ocean waves to a calm clearing. Following a moment of peace in the still ocean water, the turtle joins the rest of its pack on a dive into the moonlit sea to continue the voyage home. Told with a beautiful, lyrical rhyming sequence, this book introduces readers to the birth cycle of a loggerhead sea turtle. Through the newborn turtle's eyes, both kids and adults will marvel at the majestic, and sometimes dangerous seaside landscape from a perspective rarely seen before.

**Manfish** Jennifer Berne, 2012-10-26 A colorfully illustrated biography of a little French boy who would become an internationally known oceanographer and champion of the seas. Once upon a time in France, a baby was born under the summer sun. His parents named him Jacques. As he grew, Jacques fell in love with the sea. He dreamed of breathing beneath the waves and swimming as gracefully as a fish. In fact, he longed to become a manfish. Jacques Cousteau grew up to become a champion of the seas and one of the best-known oceanographers in the world. In this lovely biography, poetic text and gorgeous paintings come together to create a portrait of Cousteau that is as magical as it is inspiring. Praise for *Manfish* "Berne offers a luminous picture-book biography about Jacques Cousteau . . . Puybaret's smooth-looking acrylic paintings extend the words' elegant simplicity and beautifully convey the sense of infinite, underwater space." —Booklist (starred review) "This moving tribute to the great nautical observer and filmmaker is shot through with an authentically childlike sense of adventure and the thrill of discovery . . . This poetic profile of a doer and a dreamer is certain to inspire fresh interest in discovering, and in caring for, our world's wonders." —Kirkus Reviews (starred review) "A new generation of

children is introduced to the pioneering oceanographer and filmmaker. Beginning with Cousteau's childhood in France where he marveled at the sea and dreamed of breathing underwater, Berne reveals the unique mix of curiosity, ingenuity, and passion that drove Cousteau to make underwater exploration possible." —School Library Journal

**A Small Blue Whale** Beth Ferry, Lisa Mundorff, 2017-10-24 From New York Times bestselling author Beth Ferry (Stick and Stone) and talented newcomer Lisa Mundorff comes a gorgeous and utterly charming picture book about a lonely blue whale who learns the meaning of friendship. A small blue whale sits in a silver sea . . . wishing, wanting, waiting for a friend. Waiting is hard, but he doesn't mind; he's sure a friend will be worth the wait. First, the whale meets a quiet pink cloud, and he thinks this might be the friend he's been waiting for. But when he finds himself in trouble, a group of penguins comes to his rescue and the small blue whale finally gets his wish. *The Astronaut Who Painted the Moon: The True Story of Alan Bean* Dean Robbins, 2019-05-28 Journey to the moon on the Apollo 12 mission with Alan Bean, the fourth astronaut to walk on the lunar surface and the only artist to paint its beauty firsthand! As a boy, Alan wanted to fly planes. As a young navy pilot, Alan wished he could paint the view from the cockpit. So he took an art class to learn patterns and forms. But no class could prepare him for the beauty of the lunar surface some 240,000 miles from Earth. In 1969, Alan became the fourth man and first artist on the moon. He took dozens of pictures, but none compared to what he saw through his artistic eyes. When he returned to Earth, he began to paint what he saw. Alan's paintings allowed humanity to experience what it truly felt like to walk on the moon. Journalist and storyteller Dean Robbins's tale of this extraordinary astronaut is masterful, and artist Sean Rubin's illustrations are whimsical and unexpected. With back matter that includes photos of the NASA mission, images of Alan's paintings, and a timeline of lunar space travel, this is one adventure readers won't want to miss!

**The Fantastic Undersea Life of Jacques Cousteau** Dan Yaccarino, 2012-05-08 Jacques Cousteau was the world's ambassador of the oceans. His popular TV series brought whales, otters, and dolphins right into people's living rooms. Now, in this exciting picturebook biography, Dan Yaccarino introduces young readers to the man behind the snorkel. From the first moment he got a glimpse of what lived under the ocean's waves, Cousteau was hooked. And so he set sail aboard the Calypso to see the sea. He and his team of scientists invented diving equipment and waterproof cameras. They made films and

television shows and wrote books so they could share what they learned. The oceans were a vast unexplored world, and Cousteau became our guide. And when he saw that pollution was taking its toll on the seas, Cousteau became our guide in how to protect the oceans as well.

**A Bandit's Tale: The Muddled Misadventures of a Pickpocket** Deborah Hopkinson, 2016-04-05 From an award-winning author of historical fiction comes a story of survival, crime, adventure, and horses in the streets of 19th century New York City. Eleven-year-old Rocco is an Italian immigrant who finds himself alone in New York City after he's sold to a padrone by his poverty-stricken parents. While working as a street musician, he meets the boys of the infamous Bandits' Roost, who teach him the art of pickpocketing. Rocco embraces his new life of crime—he's good at it, and it's more lucrative than banging a triangle on the street corner. But when he meets Meddlin' Mary, a strong-hearted Irish girl who's determined to help the horses of New York City, things begin to change. Rocco begins to reexamine his life—and take his future into his own hands.
