The Red Threads of Fortune is one of a pair of unique, standalone introductions to JY Yang's Tensorate Series, which Kate Elliott calls "effortlessly fascinating." For more of the story you can read its twin novella *The Black Tides of Heaven*, available simultaneously. Fallen prophet, master of the elements, and daughter of the supreme Protector, Sanao Mokoya has abandoned the life that once bound her. Once her visions shaped the lives of citizens across the land, but no matter what tragedy Mokoya foresaw, she could never reshape the future. Broken by the loss of her young daughter, she now hunts deadly, sky-obscuring naga in the harsh outer reaches of the kingdom with packs of dinosaurs at her side, far from everything she used to love. On the trail of a massive naga that threatens the rebellious mining city of Bataanar, Mokoya meets the mysterious and alluring Rider. But all is not as it seems: the beast they both hunt harbors a secret that could ignite war throughout the Protectorate. As she is drawn into a conspiracy of magic and betrayal, Mokoya must come to terms with her extraordinary and dangerous gifts, or risk losing the little she has left to hold dear.

Fortune's Bastard is the story of how a bad man loses everything, and in the process becomes good. When Edward Miller, tabloid editor and reactionary alpha male, spontaneously seduces his temp, his many enemies make sure the news reaches his cold beautiful wife - who leaves and cuckolds him. Miller heads for a London media hangout, where he meets cocaine. By morning, his exploits are public, his career is over, and his house is on fire. Clearly, it's time to leave town. After a brief stint teaching English in Spain, Miller winds up in a Florida town full of dwarves, fat ladies, lizard women and a one-eyed albino man, all presided over by the Half Man, a criminal and sadist with no legs. Despite everything it seems that life among the freaks will unwittingly teach Miller what normal life never could - how to love, and how love is worth risking everything for.

William Rand Kenan, Jr. (1872-1965) is best remembered throughout his native North Carolina as a major benefactor of his alma mater, the University of North Carolina at Chapel Hill. But he was also a gifted scientist and business executive. In this first

About nineteen years ago, I was enjoying a short relaxation from the usual press of business in Chicago. I had only one or two really important cases on hand, and I was therefore preparing to take a much needed rest. At this time, my business was not nearly so extensive as it has since become, nor was my Agency so well known as it now is; hence, I was somewhat surprised and gratified to receive a letter from Atkinson, Mississippi, asking me to go to that town at once, to investigate a great crime recently perpetrated there. I had intended to visit my former home in Dundee, for a week or ten days, but, on receiving this letter, I postponed my vacation indefinitely. The letter was written by Mr. Thomas McGregor, cashier of the City Bank, of Atkinson, and my services were called for by all the officers of the bank. The circumstances of the case were, in brief, that the paying-teller had been brutally murdered in the bank about three or four months before, and over one hundred and thirty thousand dollars had been stolen. Mr. McGregor said that no expense should be spared to detect the criminals, even though the money was not recovered; that would be an important consideration, of course, but the first object sought was the capture of the murderers of poor George Gordon, the late paying-teller. Having already arranged my business for a brief absence, I was all ready for the journey, and by the next train, I was speeding southward, toward Atkinson. I arrived there early in the morning, on one of the most delightful days of early spring. I had exchanged the brown fields and bare trees of the raw and frosty North, for the balmy airs, blooming flowers, and waving foliage of the sunny South. The contrast was most agreeable to me in my then tired and overworked condition, and I felt that a few days in that climate would restore my strength more effectually than a stay of several weeks in the changeable and inclement weather of northern Illinois. For sanitary, as well as business reasons, therefore, I had no occasion to regret my Southern trip. My assumed character was that of a cotton speculator, and I was thus able to make many inquiries relative to the town and its inhabitants, without exciting suspicion. Of course, I should have considerable business at the bank, and thus, I could have frequent conferences with the bank officials, without betraying my real object in visiting them. I sent a note to Mr. McGregor, on my arrival, simply announcing myself under a fictitious name, and I soon received a reply requesting me to come to the bank at eight o'clock that evening. I then spent the day in walking about the town and gathering a general idea of the surroundings of the place. Atkinson was then a town of medium size, pleasantly situated near the northern boundary of the State. The surrounding country was well watered and wooded, consisting of alternate arable land and rolling hills. The inhabitants of the town were divided into two general classes: the shop-keepers, mechanics, and laborers, formed the bulk of the population; while

the capitalists, planters and professional men were the most influential. Most of these latter owned country residences, or plantations outside of the town, though they kept up their town establishments also. A small water-course, called Rocky Creek, skirted one side of the place, and many of the most handsome houses, were situated on, or near this beautiful rivulet. The whole appearance of Atkinson, and the surrounding country, indicated a thrifty, well-to-do population.

In mid-nineteenth-century Britain, there existed a dominant discourse on what it meant to be a man –denoted by the term 'manliness'. Based on the sociological work of R.W. Connell and others who argue that gender is performative, Robert Hogg asks how British men performed manliness on the colonial frontiers of Queensland and British Columbia.

A NATIONAL BESTSELLER * A NEW YORK TIMES BOOK REVIEW EDITORS' CHOICE "An invigorating work, deadly precise in its skewering of people, places and things . . . Stylish, despairing and very funny, Fake Accounts . . . adroitly maps the dwindling gap between the individual and the world." —Katie Kitamura, The New York Times Book Review A woman in a tailspin discovers that her boyfriend is an anonymous online conspiracy theorist in this “absolutely brilliant take on the bizarre and despicable ways the internet has warped our perception of reality” (Elle, One of the Most Anticipated Books of the Year). On the eve of Donald Trump's inauguration, a young woman snoops through her boyfriend's phone and makes a startling discovery: he's an anonymous internet conspiracy theorist, and a popular one at that. Actually, she's relieved--he was always a little distant--and she plots to end their floundering relationship while on a trip to the Women's March in DC. But this is only the first in a series of bizarre twists that expose a world whose truths are shaped by online lies. Suddenly left with no reason to stay in New York and increasingly alienated from her friends and colleagues, our unnamed narrator flees to Berlin, embarking on her own cycles of manipulation in the deceptive spaces of her daily life, from dating apps to expat meetups, open-plan offices to bureaucratic waiting rooms. She begins to think she can't trust anyone--shouldn't the feeling be mutual? Narrated with seductive confidence and subversive wit, Fake Accounts challenges the way current conversations about the self and community, delusions and gaslighting, and fiction and reality play out in the internet age.

Raouf Mama is widely beloved by children and adults alike for his books and especially for his African and multicultural storytelling, which incorporates poetry, song, music, and dance. In *Fortune's Favored Child*, the master storyteller tells his own story, beginning in the West African country of Benin. Through a harrowing experience with sickness, an encounter with a clairvoyant traditional healer, and astonishing twists of fortune, the protagonist struggles to uncover his real identity, to get an education, and to make his own way in the world. His journey takes him to the shores of the United States to attend graduate school at the University of Michigan and begin a new chapter in his life. .

Considered in its full poetic and philosophical dimensions, the *Romance of the Rose* thus acquires an altogether new significance in the history of literature: it appears as a work that incessantly explores its own capacity to be other than it is.
