Sometimes no matter how hard we try, we cannot reach our goal. And, of course, it is much easier to claim our goal undesirable than to admit defeat. There is hardly a child who does not know the fox who called the grapes sour but Aesop's fables offer so much more... Aesop's fables feature animals, legendary creatures, plants, inanimate objects, or forces of nature that speak, solve problems, and generally have human characteristics. All the stories story lead to a particular moral lesson. Aesop (620–564 BCE) was a storyteller that was believed to have lived in Ancient Greece. He is celebrated for a number of fables now collectively known as Aesop's Fables. In the few scattered sources about his life, Aesop was described as a slave who by his cleverness acquires freedom and becomes an adviser to kings and city-states. Although Aesop's existence remains unclear, numerous tales credited to him were gathered across the centuries and in many languages in a storytelling tradition that continues to this day.

It is found among the old, old histories of the Tibetans that a female demon living among the mountains in Northern India mated with a monkey from the forests of Tibet, and from this union sprang the Tibetan race of people. The greater part of their literature is of a sacred nature, telling of their creation, of the formation of the world, of Buddha and his miraculous birth and death, of his reincarnations and the revisions of his teachings. A kind of almanac, a little astronomy, plans for casting a horoscope, and many books filled with religious teachings and superstitions, including the worship of devils and demons, are about all that can be found. The 49 little stories in this book are told as the people sit around their boiling tea made over a three stone camp-fire. They are handed down from father to son, from mother to daughter, and though often filled with their superstitious beliefs, through them all run a vein of humor and the teachings of a moral truth which is quite unexpected. These tales were gathered by Dr. A. L. Shelton on his trips among the Tibetans, around their camp-fires at night, and in their black tents high up in the mountains. Every country has its folk-lore tales that have always been a joy and pleasure to the

children, not only of their own land, but of other lands as well. May these stories add a little to this pleasure and enjoyment everywhere, in whatsoever tongue they may be translated or in whatever land they may be read. Flora Beal Shelton 1925

The fables of Aesop are full of wisdom garnered from life experiences: depend on yourself more than others, what goes around comes around, and always keep promises. But, learning from stories can sometimes be easier than just being told a lesson. Aesop's fables show people's strengths and weaknesses in action. Readers will see important character traits modeled for them in fables such as "The Lark and Her Young Ones" and "The Farmer and the Stork." Accompanied by lovely illustrations, each fable offers another opportunity for learning lessons that can be used every day.

Preface "Hey, hurry up!" said Tom the woodpecker flying by his friend Sally. "What? Where to?" asked Sally. "There's a race coming up. Most of our friends are already at the sunny meadow." Sally spread her wings and took off. It was an early summer day. She felt the warm breeze of the wind beneath her wings. She flew above the nearby lake and saw from afar that the Stork was cooking a stew. An appetizing smell was steaming up from the cooking pot. There was no time to stop and chat with the Stork, because she was already nearing the sunny meadow. She saw Tom sitting high up on an elm tree branch and flew down to join him. "I hope I'm not late," she said. "You're right on time. It's just about to start." Down below, the Tortoise and the Hare were already lining up. The meadow was full of curious little animal faces. Peeking through the clouds, the sun was no less curious than everyone else. The racers were ready and waiting for the start signal. It was a challenge like no other.
