Fracs General Surgery Viva Topics And Revision Notes Masterpass By Brennan Stephen 2011 Paperback

Cracking the Intercollegiate General Surgery FRCS Viva: A Revision Guide 2e provides the framework and knowledge to pass the non-subspecialty sections of the FRCS (General Surgery) viva and clinical examination. This comprehensive and up to date revision text covers all essential topics in critical care, emergency and general surgery as well as critical appraisal of research papers, basic statistics and data manipulation for the academic section. This essential revision guide provides you with the vital points for each topic, presented in a concise, structured manner and referenced where appropriate. It is essential reading for anyone preparing for the FRCS General Surgery exam.

This book has been written specifically for candidates sitting the oral part of the FRCS (Tr & Orth) examination. It presents a selection of questions arising from common clinical scenarios along with detailed model answers. The emphasis is on current concepts, evidence-based medicine and major exam topics. Edited by the team behind the successful Candidate's Guide to the FRCS (Tr & Orth) Examination, the book is structured according to the four major sections of the examination; adult elective orthopaedics, trauma, children's/hands and upper limb and applied basic science. An introductory section gives general exam guidance and end section covers common diagrams that you may be asked to draw out. Each chapter is written by a recent (successful) examination candidate and the style of each reflects the author's experience and their opinions on the best tactics for first-time success. If you are facing the FRCS (Tr & Orth) you

need this book.

Postgraduates studying dermatology can face a lack of appropriate revision aids: reference books are often too exhaustive or out-of-date, while undergraduate and introductory texts lack the necessary detail and depth. This book is specifically designed for postgraduate examinations, and is the perfect accompaniment for the diploma in dermatology.

Demonstrates how to prepare for their surgical clinical examination, And how to examine and take a history from a patient. This title has cases to work through that they encounter on the wards and in the exam. It includes lists of frequently asked questions with clear answers.

Vivas for the Oral and Maxillofacial Surgery FRCS provides candidates with 100 high-quality viva topics and expert guidance to prepare for this difficult exit oral exam. Written and edited by consultant oral and maxillofacial surgeons who have succeeded in the exam, this book provides comprehensive coverage of theory and practice. Split into 15 chapters of key sub-specialties, all 100 questions are mapped to the surgical curriculum preparing you for the FRCS oral examination. Each topic contains a visual aid, such as an x-ray or photograph, to replicate exam conditions. All answers have a full explanation and further reading to ensure high-quality self-assessment and quick recognition of areas that require further study. Providing a thorough assessment of the reader's oral and maxillofacial surgery knowledge, this is an essential revision book for any candidate facing the Oral and Maxillofacial Surgery FRCS oral examination.

This new edition of the Care of the Critically Ill Surgical Patient (CCrISP) course manual has been fully updated and revised by a multidisciplinary team of surgeons and anaesthetists. It remains true to the original aims of the course: to encourage trainees to take responsibility for

Bookmark File PDF Fracs General Surgery Viva Topics And Revision Notes Masterpass By Brennan Stephen 2011 Paperback

critically ill patients, to predict and prevent problems that patients might encounter while in hospital, to function well within the surgical team and communicate effectively with colleagues from other disciplines. CCrISP is a valuable adjunct to traditional ward training and continues to provide young surgeons with the structure and confidence they require to safely and effectively care for their patients on the ward and in theatre. Designed to develop skills that are necessary in the management of critically ill patients, CCrISP integrates knowledge, practical skills, communication and leadership.

The range of topics which you may be questioned on during a final ENT Viva exam can be very varied. Viva Training in ENT ensures you can answer any question confidently and comprehensively, this book provides you with over 430 examples, mirroring exactly the format of the examination questions and covering all the relevant areas of the curriculum. Dedicated chapters on topics such as rhinology, head and neck, otology and paediatrics take you through the types of scenarios that you are likely to face, often presenting you with a clinical example and asking you a range of questions to test not only your diagnostic skills, but also your supporting knowledge. Three further chapters cover the clinical section of the exam involving patients, and the operative surgery and communication skills stations. These chapters provide both example scenarios and general advice on how to impress the examiners, giving you a thorough grounding in how best to communicate your knowledge and complete tasks calmly and methodically. For each question, detailed model answers and explanatory notes are provided, along with links to relevant websites and key journal articles for further reference. Questions are supplemented with over 85 illustrations and photographs, allowing you to review real examples of the conditions about which you will be

questioned. For any candidate wishing to complete the FRCS (ORL-HNS) or the DOHNS Viva with professionalism and a real depth of knowledge, this book's detail and variety of information will be invaluable. Its clear layout and topical structure also make it ideal for surgeons wishing to refresh their clinical knowledge.

FRCS General Surgery Section 1: 500 SBAs and EMIs, Second Edition has been thoroughly revised to ensure the content remains completely up to date and accurate. With 50 new questions, FRCS General Surgery Section 1: 500 SBAs and EMIs offers the most relevant and comprehensive set of practice questions for trainees preparing for the exam. Chapters are mapped to the syllabus to deliver structured revision in all the key topics tested in the exam. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of success. 500 SBA and EMI scenario based questions reflecting the formats encountered in the exam
Answers feature concise, case-based descriptions to consolidate knowledge
Extensive evidence-based referencing to relate theory to clinical practice
Visually-enhanced answers to improve understanding of key concepts

There is a need for a concise revision guide for the FRCS General Surgery Intercollegiate exam, and this is such a book, serving as a companion for the trainee throughout the course of their six-year training rotation. It reflects the exact framework of the exam syllabus issued by the Joint Committee on Higher Surgical Training (JCHST), and contains the most recently amended guidelines. The question and answer style used is a popular and effective method which lends itself perfectly to studying either alone or as a group, wherein one acts as examiner and the other as candidate. Further, the

exam is very clinically orientated, with vivas based on a clinical scenario, using patients and images as method of initiating clinical discussion. This book will act as supplementary reading for any course relating to the FRCS exit examination in general surgery. Both the authors and main contributors have passed the FRCS exam in general surgery and have many years experience in postgraduate medical education.

This superb, full-colour, visual revision aid has been designed specifically to candidates of the Member of the Royal College of Surgeons (MRCS) examination. It is also an invaluable diagnostic aid for all medical students and trainees, especially those on surgical rotations.

Based on the highly successful Oxford revision course, this book helps candidates prepare for the viva section of the FRCS Trauma and Orthopaedics exam. Drawn from questions asked in the Oxford revision course, this title provides a tried and tested revision tool, ideal for this high-pressure examination.

Clinical Scenarios in Surgery: Decision Making and Operative Technique presents 125 cases in all areas of general surgery: GI, breast, hepatobiliary, colorectal, cardiothoracic, endocrine, vascular, trauma, pediatric, critical care, and transplant. Each full-color case begins with a patient presentation and proceeds through differential diagnosis, diagnosis and treatment, surgical procedures, postoperative management, and a case conclusion. Each case includes key technical steps, potential pitfalls, take-home points, and suggested readings. The patient stories in these clinical scenarios provide context to facilitate learning the principles of safe

surgical care. This book will be particularly useful for senior surgical residents and recent graduates as they prepare for the American Board of Surgery oral examination.

A concise and highly visual guide to postgraduate physical examination for the MRCS exam, from an expert panel of surgeons.

Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical undergraduate examinations as gaps in core knowledge are quickly revealed. Further, this text is a good guide for students to identify those subject areas requiring more focused study, especially when time is short.' - From the Foreword by Samir Soma

The syllabus for the FRCS (ORL-HNS) is vast and sound preparation for the exams has traditionally involved assimilating knowledge from a wide range of sources. This book provides a focussed guide for exam

Bookmark File PDF FrCs General Surgery Viva Topics And Revision Notes Masterpass By Brennan Stephen 2011 Paperback

candidates. More than a question and answer book, this book is a coaching manual. Each section features a combination of model answers, pearls of wisdom, checklists and pointers for further reading. Detailed advice is provided for both Part 1 and Part 2 of the examination. Viva topics that have featured in the exam in recent years have been included, and have then been supplemented by invaluable editorial contributions from leaders in each of the subspecialties. Trainees frequently comment that exam preparation is an enlightening process and the knowledge gained would have served them well during their time as an ENT registrar or Otorhinolaryngology resident. This book will also serve as a valuable learning tool for trainees as early as ST3 and facilitate their development of effective and safe clinical practice.

Unique aid for candidates preparing for Part One of the FRCS general surgery exit examination. Also useful for MRCS examination candidates.

A sound knowledge of basic sciences is vital for any doctor with an interest in ophthalmology, and is a significant part of all postgraduate examinations in the subject. Featuring 640 multiple choice questions, this is a comprehensive revision guide for candidates taking the basic sciences component of the FRCOphth and ICO examinations. It is highl
Operative Orthopaedics is a definitive and comprehensive guide to elective orthopaedic surgery for trainees preparing for FRCS and surgeons at MRCS level. With the emphasis on techniques

employed and the reasoning behind them, this book is both a practical instruction manual and a revision tool. Based on the authoritative 'Stanmore course' run by the Royal National Orthopaedic Hospital Operative Orthopaedics covers all aspects of elective orthopaedic surgery as assessed by the FRCS Higher Specialty exams. Surgery of the upper limb, lower limb and spine is explained from preoperative planning through technique and potential complications. Specialist areas such as tumour surgery, paediatric surgery and limb reconstruction are also included. Each chapter concludes with key references and sample viva voce questions and answers to extend and reinforce learning.

An indispensable study guide to help surgical trainees prepare and perform for their fellowship exam. Examination Surgery offers invaluable insight into the format and content of the Fellowship Examination in General Surgery. This study guide addresses the most frequently encountered topics from the last 10 years of examinations. It helps surgical trainees organise their studies and optimise their performance in what is reputedly one of the most rigorous postgraduate exams. The general surgery fellowship tests clinical wisdom, judgement, insight and safe practice, and Examination Surgery's preparation material accurately reflects what you will encounter in the exam. Arranged to

mirror the exam's individual components, Examination Surgery is divided into the following sections: The written papers Clinical viva voces Surgical anatomy viva voce Operative surgery viva voce Pathophysiology and critical care and clinical reasoning viva voce This Elsevier study guide is aimed at candidates preparing for the Fellowship Examination in General Surgery of the Royal Australasian College of Surgeons. It is, however, also relevant for candidates in the UK, Ireland, Canada, South Africa and Hong Kong, plus all general surgeons, surgical residents and medical students. How to approach each exam Most frequently encountered topics Common questions and scenarios with 'model answers' Fellowship examination format and recommended technique Proven study strategies

The clinical examination of common surgical conditions has been paramount in accurate diagnosis and management. This book provides a framework for candidates preparing for the short case clinical component of the surgical examination. It can be used as a companion to other surgical textbooks and a guide for medical students and surgical residents in preparation for clinical work. It includes detailed description of clinical examination steps and techniques, proper presentation of cases, as well as tips and lessons gained from past surgical examinations. The questions and answers in this

book are designed according to the Objective Structured Clinical Examination (OSCE) format. They are divided into simple and advanced questions according to difficulty intended at the undergraduate, post-graduate and exit level. The book will be helpful in developing a structure to prepare for the surgical clinical examinations, viva and the OSCE. The illustrations and algorithms included will help the reader grasp concepts of the surgical topic easily and aid the candidate in passing the surgical examinations with confidence.

This is the first revision book to be published specifically for candidates sitting the FRCS(Urol) examination. It presents a selection of questions arising from common clinical scenarios along with detailed model answers. The emphasis is on current concepts and topics asked in the exam. Each chapter has been written by senior urology trainees who have recently passed the examination, in conjunction with experienced consultant urological surgeons. In addition to FRCS(Urol) examination candidates, this book will also be relevant to those sitting the FEBU or MSc urology examination, or to established consultants seeking a useful refresher text in areas outside their subspecialist interest. 'The British Association of Urological Surgeons (BAUS) is a charity whose mission is to promote the highest standard in the practice of Urology. As President of BAUS, it is therefore a great privilege and pleasure

to introduce this excellent book.' - from the Foreword by Derek Fawcett 'No Urology trainee should be without this important and valuable contribution to the training of future consultants.' - from the Foreword by Hashim U Ahmed

What do you need to do before sitting the written component of the FRCS (Tr and Orth) examination? Practice, practice, practice. Sadly the MCQs and EMQs in the actual examination are not this straightforward. This book will help the orthopaedic surgeon preparing for the written part of the examination to be ready to face the task ahead. The MCQs and EMQs appear in the same format as the examination and cover the syllabus topics. Divided into subspecialty chapters, including trauma and basic science, this book is ideal for use alongside a revision plan. The questions have detailed answers and selected references, arming readers with the knowledge they need to approach the topic correctly. Written by recent, successful examination candidates, this question-and-answer-based revision guide is ideal preparation for the FRCS (Tr and Orth) examination as well as being helpful for other postgraduate orthopaedic exams.

The viva component of the MRCS examination is traditionally the most feared and elusive part of the whole exam. Contained within the syllabus of core and system modules there are favourite examination topics which are more commonly asked than others.

Bookmark File PDF Fracs General Surgery Viva Topics And Revision Notes Masterpass By Brennan Stephen 2011 Paperback

This new book covers all these popular subjects and illustrates them with sample viva-style questions.

The answers give the candidate guidance on how to respond to these effectively and on what is required to pass the exam. This new book has been written to aid any candidate in preparing to sit a surgical viva, and will be of value to MRCS candidates as well as students for undergraduate surgical finals and surgical registrars prior to the exit examination.

Covers the six major subject areas of the MRCS viva exam: applied surgical anatomy, operative surgery, clinical pathology, principles of surgery, applied physiology, and critical care. Includes coverage of the new communication skills section, designed to test the candidate's ability to communicate with patients and supply information to colleagues.

Provides over 160 viva topics with subsidiary questions in the style of the exam. Targets the hardest part of the exam which has the lowest pass rate.

This is a fully updated edition of the hugely successful OSCEs for the MRCS Part B: A Bailey and Love Revision Guide. The content has been revised in line with recent changes to the examination, such as the introduction of microbiology and applied surgical sciences and changes from patient safety to clinical and procedural skills. Popular with trainee surgeons preparing for the oral element of the MRCS (the

students and trainees with long cases in general surgery Includes more than 270 full colour images and illustrations Previous edition published in 2008 This title is directed primarily towards health care professionals outside of the United States. It is a concise revision guide to the core basic sciences for all surgical trainees preparing for the MRCS examination. Covering anatomy, physiology and pathology it concentrates on the recurring themes of these topics in the examination and emphasises the essential knowledge require by the candidate. It is designed for rapid revision prior to sitting the examination, written in an accessible style and indicating the clinical relevance of the topics. The MRCPCH clinical examination assesses whether candidates have reached the standard in clinical skills expected of a newly appointed specialist registrar, while the DCH recognises the competence of GPs and other health professionals in caring for children. Success in communication skills is vital to achieve overall success in these examinations. This revised and expanded Second Edition includes over a dozen new scenarios for both examinations, a new chapter on the general approach to effective communication, an expanded clinical exam mark sheet, anchor statements and exam circuit diagrams. Although written to aid candidates for the clinical MRCPCH and DCH examinations, this book will also be useful to

paediatric trainees in their day-to-day clinical encounters.

This book has been designed for undergraduates preparing for the final year MBBS examination in surgery. The book begins with a detailed classification of instruments according to their use, followed by the points for identification. It, then provides an elaborate description of different operative procedures used as well as sterilization methods of instruments. Finally, a separate chapter X-rays Commonly Asked during Examination , has also been added to help students face viva-voce. The question-answer format of the book including the frequently asked questions would greatly help students in preparing for their exams. About the Author : - MM Kapur, Professor (formerly) of Surgery, AIIMS, New Delhi, obtained his MBBS and FRCS degrees from Calcutta University and Royal College of Surgeons, London in 1955 and 1961, respectively. From 1964 to 1986, he imparted teaching and training to undergraduate and postgraduate students at the All India Institute of Medical Sciences, New Delhi. Due to his distinguished service to the speciality of surgery he was conferred Commonwealth Fellowship in 1968-69 and was awarded WHO Visiting Scientist Award in 1978. For a brief period (1989-92), he was Regional Advisor, Medical Research, WHO South East Asia Regional Office, New Delhi.

The FRCS examination is the last hurdle on the road to independent practice as a consultant surgeon in the United Kingdom and Ireland. The voce viva portion of the exam can be particularly challenging for candidates who must demonstrate not only their knowledge of various surgical topics, but also their reasoning and decision-making abilities. Cracking the Intercollegiate General Surgery FRCS Viva: A Revision Guide provides the framework and knowledge to pass the non-subspecialty sections of the FRCS (General Surgery) viva and clinical examination. This comprehensive revision text covers all essential topics in critical care, emergency and general surgery as well as critical appraisal of research papers, basic statistics and data manipulation for the academic section. Highlights: Layout: A unique approach recreates the structure and content of each individual viva Past questions: Actual viva questions pooled from successful FRCS candidates are included so you know what worked Contributors: Insight from experienced clinicians who have trained in the UK higher surgical training system This essential revision guide provides you with the vital points for each topic, presented in a concise, structured manner and referenced where appropriate. It is essential reading for anyone preparing for the FRCS General Surgery exam. Cracking the MRCS Viva is an outstanding guide to the MRCS Viva examination. Its unique approach

Bookmark File PDF Fracs General Surgery Viva Topics And Revision Notes Masterpass By Brennan Stephen 2011 Paperback

recreates the structure and content of each individual viva, allowing the reader to self-test, or two students to recreate mock viva sessions for themselves. Divided into six sections to mirror the exam - applied surgical anatomy, operative surgery, applied surgical pathology, principles of surgery, applied surgical physiology, and critical care - each section covers a range of topics, listed alphabetically, and contains all the information required to pass the exam using concise, bullet-point text, helpful tables and easy to reproduce diagrams. Written by registrars who have all recently passed the MRCS, plus an MRCS examiner, this comprehensive and user-friendly revision guide also contains considerable input from other senior specialists.

A comprehensive selection of multiple-choice questions for the 'Part 1' of the Membership of the Royal College of Surgeons (England) examination and its Scottish equivalent the AFRCS. Questions have been chosen to reflect the structure of the examination and include many that are similar to those that were asked over the last few years. Both the Core Module and the System Module of the examination are covered. Detailed answers are provided. Kefah Mokbel has written a number of books for the surgical examinations as well as for other professional examinations and is also the principal lecturer on the MasterPass MRCS course. This book reflects his considerable experience of the MRCS examination and will be invaluable to candidates preparing for this examination.

The FRCS Oral and Maxillofacial Surgery (OMFS) exam is split into three parts: written, viva and mock clinical consultations with an examiner and an actor in the role of a patient. These consultations fall into two formats: 'short case', where the examiner poses questions specific to the patient's case, and 'long case' where the candidate must diagnose the patient's presenting problem and suggest an appropriate course of treatment. FRCS (Oral & Maxillofacial Surgery) Part 2: 100 Clinical Cases focuses on the clinical component of the exam and is structured according to the FRCS OMFS syllabus. Each chapter starts with cases devoted to examination of the patient, history taking and investigations. Subsequent cases feature 'short case' clinical scenarios commonly encountered in the exam. Where relevant to exam practice, a 'long case' is included at the end of each chapter. The 'short cases' feature mock questions, while the 'long cases' also include an examiner's mark sheet listing the answers and actions candidates must perform to achieve full marks. First book to cater specifically for the clinical component of the FRCS OMFS exam Ideal for practising scenarios with colleagues and taking turns to play role of either candidate or examiner

What are the indications for necrosectomy? How you perform an EUA for acute peri-anal sepsis? What do you understand by the term Early Goal-Directed Therapy (EGDT)?

Remember: this is a consultant's exam, and giving a range of options is not good enough. You must tell the examiner what you as a consultant are going to do. The FRCS is a uniquely challenging prospect; highly detailed, wide-ranging and encompassing both theory and practice. Preparation for this exam can be very difficult, and resources tailored to it are scarce. As the consolidated notes of a recent successful candidate, this book is an essential resource when preparing

Bookmark File PDF Frcs General Surgery Viva Topics And Revision Notes Masterpass By Brennan Stephen 2011 Paperback

for the viva. The wide variety of questions require you to define, diagnose or choose between treatment options, while MCQs and SBAs help you to objectively evaluate your progress - a unique supplement to your study plan. Answers provided are comprised of an invaluable combination of detailed written answers and lists that will remind you of key points and help you structure your preparation.

Gives candidates a means of practising some common questions that they will be asked in their viva examinations.
