Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries and key readings – all in the same volume. The innovative and flexible 'two-dimensional' structure is built around four sections – Introduction, Development, Exploration and Extension – which offer self-contained stages for study. Revised and updated throughout, this fourth edition of *Practical English Phonetics and Phonology*: presents the essentials of the subject and their day-to-day applications in an engaging and accessible manner; covers all the core concepts of phonetics and phonology, such as the phoneme, syllable structure, production of speech, vowel and consonant possibilities, glottal settings, stress, rhythm, intonation and the surprises of connected speech; incorporates classic readings from key names in the discipline; outlines the sound systems of six key languages from around the world (Spanish, French, Italian, German, Polish and Japanese); is accompanied by a brand-new companion website which hosts a collection of samples provided by genuine speakers of 25 accent varieties from Britain, Ireland, the USA, Canada, Australia, New Zealand, South Africa, India, Singapore and West Africa, as well as transcriptions, further study questions, answer keys, links to further reading and numerous recordings to accompany activities in the book. This edition has been completely reorganised and new features include: updated descriptions of the sounds of modern English and the adoption of the term General British (GB); considerable expansion of the treatment of intonation, including new recordings; and two new readings by David Crystal and John Wells. Written by authors who are experienced teachers and researchers, this best-selling textbook will appeal to all students of English language and linguistics and those training for a certificate in TEFL.

A comprehensive, detailed, and well-illustrated undergraduate French language/linguistics textbook with CD-ROM. The book focuses on pronunciation of Modern Standard French, and incorporates regional and social variations, abbreviatory processes and 'word play'. It looks at historical phonological changes which continue through today. Perfect for readers and learners with little or no formal training in linguistics. The CD-ROM provides invaluable oral examples crucial to linguistic study.

This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be

particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

This detailed handbook provides a thorough account of lyric pronunciation that is recommended in the operatic and concert repertoire. IPA phonetic notation and musical examples are featured prominently, and exceptions to French pronunciation rules are included. The book also contains a comprehensive pronunciation guide to French spelling, (including obscure spellings and borrowed foreign words), as well as a pronunciation dictionary with 7000+ proper nouns found in the repertoire and associated with French art and culture.

The Complete French Pronunciation Course includes: - The Complete Pronunciation Course' book - 55 videos: available for free on YouTube - 105 recordings for listening practice(After purchase, simply send us an email with the proof of purchase and we will give you access to the recordings)This French pronunciation course goes over everything you need to know to understand how French pronunciation works and be able to speak French with confidence. What you will learn in the 55 lessons: - The alphabet, the accents and how to spell - What not to pronounce in French- When to link words in French- The nasal vowels - The vowels - The consonants - Unusual pronunciation in French - Put everything into practice with 3 French Reading Practices Pronunciation is closely linked with your ability to hear the sound. If you can't hear the sound, you can't pronounce it. The 105 recordings are made to focus on specific sounds alone and in words. Listening to them often will help you with your pronunciation and you will also be able to understand spoken French better. Everything you need to take your French to the next level!

Published in 1994 to worldwide acclaim, the first edition of Jancis Robinson's seminal volume immediately attained legendary status, winning every major wine book award including the Glenfiddich and Julia Child/IACP awards, as well as writer and woman of the year accolades for its editor on both sides of the Atlantic. Combining meticulously-researched fact with refreshing opinion and wit, The Oxford Companion to Wine presents almost 4,000 entries on every wine-related

topic imaginable, from regions and grape varieties to the owners, connoisseurs, growers, and tasters in wine through the ages; from viticulture and oenology to the history of wine, from its origins to the present day. The 187 esteemed contributors (including over 50 new to this edition) range from internationally renowned academics to some of the most famous wine writers and wine specialists in the world. Now exhaustively updated, this fourth edition incorporates the very latest international research to present over 350 new entries on topics ranging from additives and wine apps to WSET and Zelen. Over 60 per cent of all entries have been revised; and useful lists and statistics are appended, including a unique list of the world's controlled appellations and their permitted grape varieties, as well as vineyard area, wine production and consumption by country. Illustrated with almost 30 updated maps of every important wine region in the world, many useful charts and diagrams, and 16 stunning colour photographs, this Companion is unlike any other wine book, offering an understanding of wine in all of its wider contexts--notably historical, cultural, and scientific--and serving as a truly companionable point of reference into which any wine-lover can dip and browse. New to this edition

Comprehensively revised and updated throughout Over 350 brand-new entries Significant new updates on hundreds of topics such as China, screwcaps, and the origins of viniculture Impressive global coverage of wine regions, including new entries on Alaska, Lesotho, Norway, and Tahiti Includes brand-new colour photographs and black and white line drawings Maps of wine regions have been updated

An Introduction to French Pronunciation is a comprehensive and accessible guide to current French pronunciation. enables students to not only to hear the language, but to know what to listen for includes chapters on the general principles of French phonetics and regional variations in the pronunciation of French includes discussion of vowels, semi-consonants, consonants, rhythmic groups, the syllable, liaison and intonation written by a leading figure in the field, the author of A Comprehensive French Grammar (Blackwell, 2003)

The Oxford Guide to the Romance Languages is the most exhaustive treatment of the Romance languages available today. Leading international scholars adopt a variety of theoretical frameworks and approaches to offer a detailed structural examination of all the individual Romance varieties and Romance-speaking areas, including standard, non-standard, dialectal, and regional varieties of the Old and New Worlds. The book also offers a comprehensive comparative account of major topics, issues, and case studies across different areas of the grammar of the Romance languages. The volume is organized into 10 thematic parts: Parts 1 and 2 deal with the making of the Romance languages and their typology and classification, respectively; Part 3 is devoted to individual structural overviews of Romance languages, dialects, and linguistic areas, while Part 4 provides comparative overviews of Romance phonology, morphology, syntax, semantics and pragmatics, and sociolinguistics. Chapters in Parts 5-9 examine issues in Romance phonology,

morphology, syntax, syntax and semantics, and pragmatics and discourse, respectively, while the final part contains case studies of topics in the nominal group, verbal group, and the clause. The book will be an essential resource for both Romance specialists and everyone with an interest in Indo-European and comparative linguistics.

Providing a broad overview and packed with examples, *A COURSE IN PHONETICS*, 7e remains the ideal introduction to phonetics—no previous knowledge required! With its reader-friendly writing style, the book introduces concepts of speech production, describes speech in acoustic terms, and teaches practical phonetic skills, including IPA transcription. In addition, expanded sections on acoustic phonetics and speech motor control help readers use tools for digital inspection and manipulation of speech. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Master the words and phrases necessary for handling everyday situations *Practice Makes Perfect: French Vocabulary* helps you develop your vocabulary by providing practice in word-building and encouraging you to analyze new words for an ever-increasing vocabulary. Each chapter of this comprehensive book focuses on a theme, such as family or travel, so you can build your language skills in a systematic manner. As you lay the foundation for an increasing vocabulary, you are able to perfect your new words with plenty of exercises and gain the confidence to communicate well in French.

Practice Makes Perfect: French Vocabulary offers you: More than 120 exercises Concise grammatical explanations A new chapter on contemporary vocabulary An answer key to gauge your comprehension With help from this book, you can easily speak or write in French about: Different occupations and jobs * French holidays and traditions * Taking the train * Growing your own garden * Where it hurts on your body * Your house * Your family and friends * What you studied in school * Your favorite TV show * Your family's background . . . and much more!

This language program emphasizes the importance of pronouncing French words and phrases so that the speaker can be understood by the French and French Canadians. It presents exercises in sound discrimination and accurate sound creation—for example instructing in pronunciation of French vowel sounds and nasals such as *eu* and *oei*, which many English speakers find especially difficult to master. Words and sounds are put into a variety of conversational contexts for students of French to practice and perfect. It provides the added convenience of audio compact discs to replace the old tape cassettes. The book includes the IPA (International Phonetic Alphabet) as a pronunciation guide.

Speak a new language with confidence with this accessible guide to correct pronunciation! Fear of mispronunciation prevents many people from daring to speak a new language. Don't let that fear hold you back! The *Say It Right* series makes mastering correct pronunciation easy. This accessible series uses easy-to-read vowel symbols that, when combined with consonants, make pronunciation simple—even if you have no previous experience with the language. Say

Go to iSayItRight.com to learn more.

A Simple Approach to French Pronunciation is a simple yet accurate guide to the nuances and intricacies of pronunciation of the French language. Most so-called pronunciation guides are either overly complex or too short and inaccurate. With this guide, you will master the art of French pronunciation, regardless of your French-language ability. A Simple Approach to French Pronunciation contains:

- * Clear, concise, and easy-to-read tables outlining phonic and phonetic similarities between words and letters
- * Practice sentences with accompanying sound files to check your pronunciation
- * Explanations of how sounds change based on context

Author Loren E. Pedersen, Ph.D., has painstakingly compiled all the minutiae of French pronunciation in one all-encompassing guide aimed at anyone studying French as a second language. Show off your mastery of French sounds, and speak the language with pride and confidence!

The Way of The Linguist, A language learning odyssey. It is now a cliché that the world is a smaller place. We think nothing of jumping on a plane to travel to another country or continent. The most exotic locations are now destinations for mass tourism. Small business people are dealing across frontiers and language barriers like never before. The Internet brings different languages and cultures to our finger-tips. English, the hybrid language of an island at the western extremity of Europe seems to have an unrivalled position as an international medium of communication. But historically periods of cultural and economic domination have never lasted forever. Do we not lose something by relying on the wide spread use of English rather than discovering other languages and cultures? As citizens of this shrunken world, would we not be better off if we were able to speak a few languages other than our own? The answer is obviously yes. Certainly Steve Kaufmann thinks so, and in his busy life as a diplomat and businessman he managed to learn to speak nine languages fluently and observe first hand some of the dominant cultures of Europe and Asia. Why do not more people do the same? In his book The Way of The Linguist, A language learning odyssey, Steve offers some answers. Steve feels anyone can learn a language if they want to. He points out some of the obstacles that hold people back. Drawing on his adventures in Europe and Asia, as a student and businessman, he describes the rewards that come from knowing languages. He relates his evolution as a language learner, abroad and back in his native Canada and explains the

kind of attitude that will enable others to achieve second language fluency. Many people have taken on the challenge of language learning but have been frustrated by their lack of success. This book offers detailed advice on the kind of study practices that will achieve language breakthroughs. Steve has developed a language learning system available online at: www.thelinguist.com.

"From the Publisher: Need help learning French? Is grammar a problem? Thousands of students like you have found the solution in the clear, simple text of English Grammar for Students of French. This easy-to-use handbook is specifically designed to teach you the English grammar you need in order to learn French grammar more quickly and efficiently. Look at the features of what you'll find in a typical section: an explanation of a concept as it applies to English; a presentation of the same concept as it applies to French; the similarities and differences between the two languages, stressing common pitfalls for English speakers; step-by-step instructions on how to select the correct form; review exercises with answer key."--Google Books viewed July 29, 2021.

Excerpt from French Speech and Spelling: A First Guide to French Pronunciation A number of exercises have been added for purposes of revision and to stimulate the pupils to apply their knowledge. In recent years much progress has been made in the application of phonetics to modern language teaching, and there are now many classes in which the pupils acquire the foreign pronunciation by the aid of the symbols of the Association Phonétique Internationale. These were first used in England in 1898, in Dent's First French Book; at the present day they are to be found in almost every French course, and also in books for the teaching of English, German, Spanish, and Latin. The number of teachers who rely on imitation only is decreasing, and the results obtained are steadily becoming more satisfactory. It is with the conviction that Mr Richards' little book will be found a real help to this end that I recommend it to the notice of teachers. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its

most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

This textbook is designed to fill two basic needs. One is for a clear and straightforward presentation of the rudiments of articulatory phonetics which is geared specifically to the requirements of the (future) language teacher, and not exclusively to the student of linguistics, and in which the basic concepts and terminology are introduced via English as opposed to a variety of languages. An even greater need, perhaps, and one that has gone unfulfilled for too long, is for a simple but reasonably complete overview of the phonetic inventory of North American French.

Benny Lewis, who speaks over ten languages—all self-taught—runs the largest language-learning blog in the world, Fluent In 3 Months. Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. *Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World* is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.

Easy German Phrase Book is an excellent resource for both serious German language learners or for the casual traveler who's planning a visit to Germany. The book comes packed with 1500 commonly used phrases in German, English and a pronunciation guide to make sure you say the phrases correctly.

Have confidence: a fun games supplement helping you use your dictionary correctly.

An essential, comprehensive guide to the International Phonetic Alphabet, for phoneticians and others concerned with speech. British English Phonetic Transcription provides an accessible introduction to phonemic, phonetic and intonational transcription with a focus on British English. Featuring exercises, revision tasks and recordings to help students gain hands-on practice, the book takes a learning-by-doing approach and ensures students gain practice using each new symbol or concept introduced before moving on to the next. Consisting of three parts, the book covers: transcribing individual words, including consonants, vowels, primary stress, secondary stress, syllabic consonants and inflections; transcribing phrases and sentences, including liaison, weak forms, elision and assimilation; transcribing intonation, including the structure of English intonation and recognising pitch patterns. Ideally suited as a standalone workbook or for use alongside American English Phonetic Transcription, British English Phonetic Transcription is key reading for undergraduate students of linguistics as well as anyone teaching or learning English as a foreign language.
