A Frequency Dictionary of French is an invaluable tool for all learners of French, providing a list of the 5000 most frequently used words in the language. Based on a 23-million-word corpus of French which includes written and spoken material both from France and overseas, this dictionary provides the user with detailed information for each of the 5000 entries, including English equivalents, a sample sentence, its English translation, usage statistics, and an indication of register variation. Users can access the top 5000 words either through the main frequency listing or through an alphabetical index. Throughout the frequency listing there are thematically-organized lists of the top words from a variety of key topics such as sports, weather, clothing, and family terms. An engaging and highly useful resource, the Frequency Dictionary of French will enable students of all levels to get the most out of their study of French vocabulary. Excerpt from French Verbs Simplified, Vol. 1 of 2: Rules for the Formation of Tenses, and Complete Tables for Reference, Showing at a Glance the Conjugation of Every Verb, Regular or Irregular This work forms one of "Hugo's Simplified Series." the chief object of which is to save the Student's time by giving no Rules but those actually necessary. In this case, however, as with "French Genders Simplified," the greater part of the book is for Reference only. The tables appended, which may be taken out and mounted, will be found specially convenient for reference, as they show at a glance every Number, Person, Mood, and Tense of every Verb, Regular or Irregular. Students should first learn the regular terminations (see page 6), referring

Access Free French Verbs List

to the Rules on the Formation of Tenses opposite. This is quickly done by taking one Tense at a time, the best order to follow being Present, Perfect, Future, Imperfect, Conditional, etc., as laid down in Hugo's "French Grammar Simplified." When the Regular Verbs have been thoroughly mastered, the Irregular Verbs present no difficulty. All that need be learnt is the irregularities of important Verbs, which are indicated by thick type. No English for the Subjunctive Mood should be learned. The translation usually given, - "that I may speak," or "might speak," is most misleading, and often absolutely wrong. The only safe way is to learn when to employ this Mood. We omit *que* before the French Subjunctive, as it is no part of this Mood, and neither always precedes it nor always governs it. It is advisable, however, to insert it in replies to examination questions. Fuller conjugations of the Compound Tenses, and of the Negative and Interrogative Forms, are omitted, as they require no learning whatever. The mere sight of these as given in most Grammars appals and disheartens the Student; and the formation is precisely the same throughout every Verb in the language. For the same reason, we give no list of the Verbs requiring "de" before a following Infinitive. There is no occasion to learn these Verbs, if it is borne in mind that all Verbs require "de" unless given in our Lists of those requiring "a," or no Preposition. We believe that this work will be found a great help to the beginner who has not yet mastered the Verbs, and an invaluable book of reference for the advanced Student. This study is based on the writings and teaching of Gustave Guillaume (1883-1960), one of the earliest proponents of what is today called Cognitive Linguistics. It offers (1) a much needed presentation in English of Guillaume's view of the French system, (2) the clarifications added by his successors, and (3) much empirical detail added by the author from his own extensive experience with the material. The word system in this work, as explained in the very first chapter, is intended in the Saussurian sense of a closed set of contrasts. The method is first briefly applied to English, in order to familiarize the reader with the methodological concepts and terminology, and comparisons are made with the general outline of the French system. The major sub-systems of the French verb are analysed in the four central chapters (4-7) entitled Aspect, Voice, Tense,

Mood, followed by a chapter on systemic comparison, and two final chapters of detailed analysis of the verbal morphology and its relevance to the cognitive system.
