

## Friendship According To Humphrey

Humphrey is back in his tenth adventure in the beloved middle-grade series! So many secrets are flying around Room 26 that Humphrey can barely keep track. Mrs. Brisbane knows a student is leaving, but Humphrey can't figure out which one. (Even more confusing, Mrs. Brisbane seems unshakably happy about it.) The class is studying the Ancient Egyptians, and some of the kids have made up secret clubs and secret codes. Even Aldo is holding back news from Humphrey. Humphrey's job as classroom pet is to help his humans solve their problems, but all these secrets are making it HARD-HARD-HARD!

Tyrannosaurus Tex, a dinosaur cowboy, helps Cookie and Pete put out a prairie fire and scare away some cattle rustlers. Presents a collection of puzzles, jokes, and brain teasers that star Humphrey, the classroom hamster from Room 26 at Longfellow School.

Humphrey the hamster is puzzled when unfamiliar students fill Mrs. Brisbane's classroom at summer's end, but he soon learns that his friends from last year are fine and that the new class needs his special help. Available in hardcover and paperback reprint.

Humphrey's eleventh adventure celebrates stories, writing, and the power of the imagination! Imaginations are running wild in Mrs. Brisbane's class, but Humphrey is stumped. His friends are writing about where they would go if they could fly, but Humphrey is HAPPY-HAPPY-HAPPY right where he is in Room 26. It's pawsitively easy for Humphrey to picture exciting adventures with dragons and knights in the story Mrs. Brisbane is reading aloud. He has no trouble coming up with Plans to help his friends and tricks to entertain them. His imagination even goes a little too far when he wonders if Carlos's imaginary friend might be a ghost. If only his imagination wouldn't disappear when he tries to write. Luckily, Humphrey likes a challenge, and Mrs. Brisbane has lots of writing tips that do the trick.

The first book in the series about everyone's favorite classroom pet! You can learn a lot about life by observing another species. That's what Humphrey was told when he was first brought to Room 26. And boy, is it true! In addition to having FUN-FUN-FUN in class, each weekend this amazing hamster gets to sleep over with a different student, like Lower-Your-Voice-A.J. and Speak-Up-Sayeh. Soon Humphrey learns to read, write, and even shoot rubber bands (only in self-defense, of course). With lots of friends to help, adventures to enjoy, and a cage with a lock-that-doesn't- lock, Humphrey's life is almost perfect. If only the teacher, Mrs. Brisbane, wasn't out to get him! Boys and girls can't help falling in love with Humphrey! Kids will be eager to get their paws on all 12 books in the series!

Humphrey, Longfellow School's first-grade hamster, worries that the new tadpoles brought to class will usurp his position as the class pet.

Master of the Senate, Book Three of The Years of Lyndon Johnson, carries Johnson's story through one of its most remarkable periods: his twelve years, from 1949 to 1960, in the United States Senate. At the heart of the book is its unprecedented revelation of how legislative power works in America, how the Senate works, and how Johnson, in his ascent to the presidency, mastered the Senate as no political leader before him had ever done. It was during these years that all Johnson's experience—from his Texas Hill Country boyhood to his passionate representation in Congress of his hardscrabble constituents to his tireless construction of a political machine—came to fruition. Caro introduces the story with a dramatic account of the Senate itself: how Daniel Webster, Henry Clay, and John C. Calhoun had made it the center of governmental energy, the forum in which the great issues of the country were thrashed out. And how, by the time Johnson arrived, it had dwindled into a body that merely responded to executive initiatives, all but impervious to the forces of change. Caro anatomizes the genius for political strategy and tactics by which, in an institution that had made the seniority system all-powerful for a century and more, Johnson became Majority Leader after only a single term—the youngest and greatest Senate Leader in our history; how he manipulated the Senate's hallowed rules and customs and the weaknesses and strengths of his colleagues to change the “unchangeable” Senate from a loose confederation of sovereign senators to a whirring legislative machine under his own iron-fisted control. Caro demonstrates how Johnson's political genius enabled him to reconcile the unreconcilable: to retain the support of the southerners who controlled the Senate while earning the trust—or at least the cooperation—of the liberals, led by Paul Douglas and Hubert Humphrey, without whom he could not achieve his goal of winning the presidency. He shows the dark side of Johnson's ambition: how he proved his loyalty to the great oil barons who had financed his rise to power by ruthlessly destroying the career of the New Dealer who was in charge of regulating them, Federal Power Commission Chairman Leland Olds. And we watch him achieve the impossible: convincing southerners that although he was firmly in their camp as the anointed successor to their leader, Richard Russell, it was essential that they allow him to make some progress toward civil rights. In a breathtaking tour de force, Caro details Johnson's amazing triumph in maneuvering to passage the first civil rights legislation since 1875. Master of the Senate, told with an abundance of rich detail that could only have come from Caro's peerless research, is both a galvanizing portrait of the man himself—the titan of Capital Hill, volcanic, mesmerizing—and a definitive and revelatory study of the workings and personal and legislative power.

In 1969 Vine Deloria, Jr., in his controversial book *Custer Died for Your Sins*, criticized the anthropological community for its impersonal dissection of living Native American cultures. Twenty-five years later, anthropologists have become more sensitive to Native American concerns, and Indian people have become more active in fighting for accurate representations of their cultures. In this collection of essays, Indian and non-Indian scholars examine how the relationship between anthropology and Indians has changed over that quarter-century and show how controversial this issue remains. Practitioners of cultural anthropology, archaeology, education, and history provide multiple lenses through which to view how Deloria's message has been interpreted or misinterpreted. Among the contributions are comments on Deloria's criticisms, thoughts on the reburial issue, and views on the ethnographic study of specific peoples. A final contribution by Deloria himself puts the issue of anthropologist/Indian interaction in the context of the century's end.
