prestigious Commonwealth Prize, Sia Figiel's debut marks the first time a novel by a Samoan woman has been published in the United States. Figiel uses the traditional Samoan storytelling form of su'ifefiloi to talk back to Western anthropological studies on Samoan women and culture. Told in a series of linked episodes, this powerful and highly original narrative follows thirteen-year-old Alofa Filiga as she navigates the mores and restrictions of her village and comes to terms with her own search for identity. A story of Samoan PUBERTY BLUES, in which Gauguin is dead but Elvis lives on -- Vogue Australia. A storytelling triumph -- Elle Australia. "Heavy metal's leading female rocker (Rolling Stone) bares all, opening up about the Runaways, the glory days of the punk and hard-rock scenes, and the highs and lows of her trailblazing career Wielding her signature black guitar, Lita Ford shredded stereotypes of female musicians throughout the 1970s and '80s. Then followed more than a decade of silence and darkness—until rock and roll repaid the debt it owed this pioneer, helped Lita reclaim her soul, and restored the Queen of Metal to her throne. In 1975, Lita Ford left home at age sixteen to join the world's first major all-female rock group, the Runaways—a "pioneering band" (New York Times) that became the subject of a Hollywood movie starring Kristen Stewart ad Dakota Fanning. Lita went on to become "heavy rock's first female guitar hero" (Washington Post), a platinum-selling solo star who shared the bill with the Ramones, Van Halen, Motley Crue, Bon Jovi, Def Leppard, Poison, and others and who gave Ozzy Osbourne his first Top 10

hit. She was a bare-ass, leather-clad babe whose hair was bigger and whose guitar licks were hotter than any of the guys'. Hailed by Elle as "one of the greatest female electric guitar players to ever pick up the instrument," Lita spurred the meteoric rise of Joan Jett, Cherie Currie, and the rest of the Runaways. Her phenomenal talent on the fret board also carried her to tremendous individual success after the group's 1979 disbandment, when she established herself as a "legendary metal icon" (*Guitar World*) and a fixture of the 1980s music scene who held her own after hours with Nikki Sixx, Jon Bon Jovi, Eddie Van Halen, Tommy Lee, Motorhead's Lemmy, Black Sabbath's Tony Iommi (to whom she was engaged), and others. Featuring a foreword by Dee Snider, *Living Like a Runaway* also provides never-before-told details of Lita's dramatic personal story. For Lita, life as a woman in the male-dominated rock scene was never easy, a constant battle with the music establishment. But then, at a low point in her career, came a tumultuous marriage that left her feeling trapped, isolated from the rock-and-roll scene for more than a decade, and—most tragically—alienated from her two sons. And yet, after a dramatic and emotional personal odyssey, Lita picked up her guitar and stormed back to the stage. As *Guitar Player* hailed in 2014 when they inducted her into their hall of fame of guitar greats: "She is as badass as ever." Fearless, revealing, and compulsively readable, Lita Ford's *Living Like a Runaway* is the long-awaited memoir from one of rock's greatest pioneers—and fiercest survivors.

Jacqueline Woodson is the 2018-2019 National Ambassador for Young People's Literature A President Obama "O" Book Club pick Raised in South Carolina and New York, Woodson always felt halfway home in each place. In vivid poems, she shares what it was like to grow up as an African American in the 1960s and 1970s, living with the remnants of Jim Crow and her growing awareness of the Civil Rights movement.

Touching and powerful, each poem is both accessible and emotionally charged, each line a glimpse into a child's soul as she searches for her place in the world.

Woodson's eloquent poetry also reflects the joy of finding her voice through writing stories, despite the fact that she struggled with reading as a child. The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. A very funny collection of 100 X-ray images showing foreign objects ingested or inserted into human bodies, accidentally or on purpose. The human imagination truly knows no limits. Without it, there would be no great art, no advances in science and technology, and no extreme sports. Without it, we'd also be deprived of the many insights into human nature that we get out of witnessing other people do shockingly imprudent things and then try to rationalize them. Stuck Up! capitalizes on this human capability of coming up with creative applications for everyday (and not-so everyday) items way beyond their designated uses, and features 100 X-ray images of foreign objects inserted into human bodies, accidentally or on purpose. "It was a million-to-one shot, Doc." "My hands were full." "I fell." These and many other ludicrous excuses are what emergency room doctors hear every day from patients who check in with various items inserted where the sun don't shine, stuck in various orifices, or ingested in other ways. How exactly did that cell phone end up there? Was it on vibrate? And is the rectum truly the best place to store your bronzed baby shoes? It is at least somewhat understandable to find a rectal thermometer in its intended place, but how about your six-year-old daughter's Barbie doll? Start browsing this hilarious collection of images – you'll be surprised at the patients' creativity and the medical information provided. And: Don't try this at home....

about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “Extraordinary . . . an act of courage and self-invention.”—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist •

Harlan Coben—with a dose of Big Little Lies or Stranger Things—an absorbing, addictive tale of psychological suspense from the author of the highly acclaimed stand-alone novel What Remains of Me and the USA Today bestselling and Shamus Award-winning Brenna Spector series, in which a seemingly open-and-shut police case with a clear-cut hero and villain turns out to be anything but simple. Late one night in the quiet Hudson Valley town of Havenkill, a distraught woman stumbles into the police station—and lives are changed forever. Aimee En, once a darling of the '80s pop music scene, claims that a teenage boy stole her car, then ran over another young man who'd rushed to help. As Liam Miller's life hangs in the balance, the events of that fateful night begin to come into focus. But is everything as it seems? The case quickly consumes social media, transforming Liam, a local high school football star, into a folk hero, and the suspect, a high school outcast named Wade Reed, into a depraved would-be killer. But is Wade really guilty? And if he isn't, why won't he talk? Told from a kaleidoscope of viewpoints—Wade's mother Jackie, his younger brother Connor, Aimee En and Pearl Maze, a young police officer with a tragic past, *If I Die Tonight* is a story of family ties and dark secrets—and the lengths we'll go to protect ourselves.

'*Angela's Ashes*' is the memoir of retired schoolteacher Frank McCourt. He grew up in New York in the 1930s and in Ireland in the 1940s, in a large family, with an alcoholic father. It is a story of courage and survival against apparently overwhelming odds.

privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can’t believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman’s ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.
