The answers are found at the end of the text. New! HM e-Study Student CD-ROM is carefully tailored to supplement and enhance the content of the text, including ACE self-tests, selected videos, chapter outlines, company web links, a glossary, flashcards, learning objectives, ready notes, self-assessment exercises, and chapter summaries. Focus on students as investment managers, giving them information they can act on instead of concentrating on theories and research without the proper context. 2. Offer strong, consistent pedagogy, including a balanced, unified treatment of the main types of financial investments as mirrored in the investment world. 3. Organize topics in a way that makes them easy to apply--whether to a portfolio simulation or to real life--and support these topics with hands-on activities. The approach of this text reflects two central ideas. First, there is a consistent focus on the student as an individual investor or investments manager. Second, a consistent, unified treatment of the four basic types of financial instruments--stocks, bonds, options, and futures--focusing on their characteristics and features, their risks and returns, and the markets in which they trade.
