Fox News legal analyst Gregg Jarrett reveals the real story behind Hillary Clinton's deep state collaborators in government and exposes their nefarious actions during and after the 2016 election. The Russia Hoax reveals how persons within the FBI and Barack Obama's Justice Department worked improperly to help elect Hillary Clinton and defeat Donald Trump in the 2016 presidential election. When this suspected effort failed, those same people appear to have pursued a contrived investigation of President Trump in an attempt to undo the election results and remove him as president. The evidence suggests that partisans within the FBI and the Department of Justice, driven by personal animus and a misplaced sense of political righteousness, surreptitiously acted to subvert electoral democracy in our country. The book will examine: How did Hillary Clinton manage to escape prosecution despite compelling evidence she violated the law? Did Peter Strzok, James Comey, Andrew McCabe, Loretta Lynch, and others obstruct justice by protecting Clinton? Why was there never a legitimate criminal investigation of Clinton in the Uranium One case? Are the text messages exchanged between Strzok and FBI lawyer Lisa Page evidence of a concerted effort to undermine the electoral process? Was there ever any real evidence of "collusion" between Trump and the Russians? Did Trump obstruct justice in the firing of Comey or was he legally exercising his constitutional authority? Did the FBI and DOJ improperly use a discredited "dossier" about Trump to obtain a FISA warrant to spy on Trump associates? Should Muller have disqualified himself under the special counsel law based on glaring conflicts of interest? Was fired National Security Adviser Michael Flynn unfairly charged with making a false statement? With insightful analysis and a fact-filled narrative, *The Russia Hoax* delves deeply into Democrat wrongdoing.

The theory of waves is generalized on cases of strongly nonlinear waves, multivalued waves, and particle-waves. The appearance of these waves in various continuous media and physical fields is explained by resonances and nonlinearity effects. Extreme waves emerging in different artificial and natural systems from atom scale to the Universe are explored. Vast amounts of experimental data and comparisons of them with the results of the developed theory are presented. The book was written for graduate students as well as for researchers and engineers in the fields of geophysics, nonlinear wave studies, cosmology, physical oceanography, and ocean and coastal engineering. It is designed as a professional reference for those working in the wave analysis and modeling fields.

Pengelolaan Keuangan Badan Layanan Umum merupakan bentuk baru pada pengelolaan keuangan publik di negeri ini. Istilah BLU mulai dikenal sejak tahun 2005 dengan diterbitkannya PP Nomor 23 Tahun 2005 tentang Pengelolaan Keuangan Badan Layanan Umum. Tata kelola BLU pada dasarnya adalah pemberian fleksibilitas berupa keleluasaan untuk menerapkan praktik-praktik bisnis yang sehat untuk meningkatkan pelayanan kepada masyarakat dalam rangka memajukan kesejahteraan umum dan mencerdaskan kehidupan bangsa.

Kumpulan Catatan, Pengaturan-Pengaturan, Serta Pelaksanaan Remunerasi Pada Badan Layanan Umum ini diterbitkan oleh Penerbit Deepublish dan tersedia juga dalam versi cetak.

Focuses on the public sector in developing countries. Provides tools of analysis for discovering equity in tax burdens as well as in public spending and judging government performance in its role in safeguarding the interests of the poor and disadvantaged. Outlines a framework for a rights-based approach to citizen empowerment - in other words, creating an institutional design with appropriate rules, restraints, and incentives to make the public sector responsive and accountable to an average voter.

Since they were issued in 1999, the OECD Principles of Corporate Governance have gained worldwide recognition as an international

benchmark for good corporate governance.

This Manual deals with concepts, definitions, and procedures for the compilation of statistics on government finance. It is intended as a reference tool for those who are called upon to prepare or evaluate such statistics. Focusing on financial transactions such as taxing, borrowing, spending, and lending, the Manual emphasizes the summarization and organization of statistics appropriate for analysis, planning, and policy determination.

It is 2015 and the Arab Spring has seen the continent of Europe facing a floodtide of mass immigration as refugees flee civil war and economic deprivation. A criminal conspiracy is exploiting this well of human misery with the intention of provoking a backlash that will destabilise democratic rule and advance the far-right. The soldiers of the caliphate are infiltrating jihadis amongst the immigrants and by blackmail, robbery and murder are spreading terror throughout the population of Italy. The combined intelligence services of the UK and Italian governments are struggling to uncover the conspiracy. They must try to secure the unlikely assistance of a Dominican monk who knows more than he is willing to divulge. But the net is tightening and the race is on to trace the whereabouts of a valuable art collection and to track down a rogue member of British Intelligence who has become a deadly killing machine for the caliphate. In a turbulent world as radical beliefs turn friends into foes, can anyone be sure who really is who?

Buku ini sangat diperuntukan semua kalangan, baik pengajar, mahasiswa, praktisi di Bisnis, pelayanan kesehatan, dsb. Agar organisasi tetap hidup dan mampu berkembang dalam era industri saat ini. Dengan penanganan yang baik, diharapkan terjadinya transformasi need and expectation SDM menjadi komitmen organisasi dan motivasi untuk menyelesaikan tugas sesuai tujuan organisasi. Perubahan positif terjadi bila internalisasi berbagai nilai, norma dan aturan informal menjadi budaya organisasi. Kebutuhan manusia adalah dorongan dan keinginan dasar manusia untuk bertahan hidup, sedangkan kemampuan manusia adalah kemampuan melakukan sesuatu atau potensinya untuk melakukan di masa depan.

This technical note presents a basic model of performance-based budgeting. It describes the characteristics of the model and explains how low-income countries should approach performance-based budgeting. The note emphasizes necessary preconditions for any move to performance-based budgeting—recognizing that performance-based budgeting, even in its basic form, should not be considered in countries with seriously dysfunctional public financial management and governance systems.

The note also outlines reasons why more complex performance-based budgeting models of performance-based budgeting may not be appropriate in many countries.

A boy and his mother bake two pumpkin pies and go to Grandma's house for a traditional Thanksgiving celebration. Includes a brief overview of the first Thanksgiving.

"This collection was presented to Hugh Taylor by his colleagues to acknowledge the impact he has had on archival writing and thought during a remarkable archival career. The book includes eleven essays, eclectic in subject and style, and reflecting a variety of interests."--Pub. desc.

Essays debate the pro and con sides of arguments about sexually transmitted diseases, including how to educate youths about them, whether or not they are a serious problem, and how the AIDS should be addressed globally.

This book looks at some of the different perspectives and views taken on human resources management, its antecedence and evolution as an area of management and some of the main factors that critically influence its development, variations and practices.

Characterization of Nanomaterials: Advances and Key Technologies discusses the latest advancements in the synthesis of various types of nanomaterials. The book's main objective is to provide a comprehensive review regarding the latest advances in synthesis protocols that includes up-to-date data records on the synthesis of all kinds of inorganic nanostructures using various physical and chemical methods. The synthesis of all important nanomaterials, such as carbon nanostructures, Core-shell Quantum dots, Metal and metal oxide nanostructures, Nanoferrites, polymer nanostructures, nanofibers, and smart nanomaterials are discussed, making this a one-stop reference resource on research accomplishments in this area. Leading researchers from industry, academia, government and private research institutions across the globe have contributed to the book. Academics, researchers, scientists, engineers and students working in the field of polymer nanocomposites will benefit from its solutions for material problems. Provides an up-to-date data record on the synthesis of all kinds of organic and inorganic nanostructures using various physical and chemical methods Presents the latest advances in synthesis protocols Presents latest techniques used in the physical and chemical characterization of nanomaterials Covers characterization of all the important materials groups such as: carbon nanostructures, core-shell quantumdots, metal and metal oxide nanostructures, nanoferrites, polymer nanostructures and nanofibers A broad range of applications is covered including the performance of batteries, solar cells, water filtration, catalysts, electronics, drug delivery, tissue engineering, food packaging, sensors and fuel cells Leading researchers from industry, academia, government and private research institutes have contributed to the books

Public sector innovation does not happen by itself: problems need to be identified, and ideas translated into projects that can be tested, implemented and shared. This report looks at how governments can create an environment that fosters innovation.

This Bill seeks to prohibit completely the hunting of deer with dogs and hare coursing; as well as to limit fox hunting with dogs to situations where the hunt is registered or exempt from this requirement for registration (involving situations such as the rescue or recapture of a wild animal). Under the Bill's provisions, registration will only be granted for hunts which satisfy tests of utility and least suffering, and all registered hunting will be subject to certain conditions including the conduct of the hunt. A Registrar will be established, appointed by the Secretary of State for the Environment, Food and Rural Affairs, which will determine applications for registration. An independent Hunting Tribunal will also

be created under the supervision of the Lord Chancellor to hear appeals regarding the Registrar's decisions. Prescribed animal welfare bodies may present evidence to the Registrar on any applications for registration and may also apply for hunts to be de-registered. These provisions apply to England and Wales only; a separate law banning hunting with dogs has already been introduced in Scotland.

"Learning My Salah" teaches you how to pray as Prophet Muhammad (peace and blessings be upon him) did. Indeed, his guidance is the most perfect. By following him, your prayers will be in the manner most pleasing to Allah, the Gracious.

Describes how decentralization and entrepreneurship can revitalize government and outlines ten principles guiding an entrepreneurial public organization

Pocket Posh Sudoku and Beyond 4 includes 100 original puzzles of Sudoku and its many variations, plus a fun variety of other logic-based puzzles. In Pocket Posh Sudoku and Beyond 4 we present a new 100-puzzle assortment of traditional Sudoku puzzles including Killer Sudoku, Futoshiki, and Kakuro, and exciting variations including Sujiko, Suko, Tatami, Stars, Noughts and Crosses, Shikaku, Hidoku, Katachi, Cell Block, and Suguru. Suko is similar to Killer Sudoku, placing digits 1 through 9 in cells in such a way that the sums in overlapping quadrants equal given numbers; in Tatami you fill the grid with the numbers one through four so that they appear twice in each row and column; with Stars you place two stars in each row, column, and outlined area; Noughts and Crosses, put a nought or cross to fill the grid; Suguru, each cell in an outlined block must contain the numbers equal to the number of cells and the same digit must not appear in neighboring cells. In Shikaku one has to divide the grid into blocks that are either square or rectangular. Each block must contain the same amount of cells as the number it frames. This portable package is part of a best-selling series featuring highly stylized, embellished covers and boasting 7 million copies in print. A free trial subscription to The Puzzle Society adds extra value.

This handbook is a compilation of the disbursement policies, guidelines, procedures, and practices of the Asian Development Bank (ADB).

This thesis lays the groundwork for producing a new class of ultracold molecule by associating an alkali-metal atom and a closed-shell alkaline-earth-like atom, specifically Cs and Yb. Such molecules exhibit both a magnetic dipole moment and an electric dipole moment in their ground state. This extra degree of freedom opens up new avenues of research including the study of exotic states of matter, the shielding of molecular collisions and the simulation of lattice spin models. In detail, the thesis reports the first and only ultracold mixture of Cs and Yb in the world, giving details of the methods used to cool such contrasting atomic species together. Using sensitive two-colour photoassociation measurements to measure the binding energies of the near-threshold CsYb molecular levels in the electronic ground state has allowed the previously unknown scattering lengths to be accurately determined for all the Cs–Yb isotopic combinations. As part of this work, the one-photon photoassociation of ultracold Cs*Yb is also studied, yielding useful information on the excited-state potential. Knowledge of the scattering lengths enables a strategy to be devised to cool both species to quantum degeneracy and, crucially, determines the positions of interspecies Feshbach resonances required for efficient association of ground-state CsYb molecules. With these results, the prospect of bringing a new molecule into the ultracold regime has become considerably closer.

The proceedings of International Conference on Science, Education, and Technology 2019 are the compilation of articles in the internationally refereed conference dedicated to promote acceleration of scientific and technological innovation and the utilization of technology in assisting pedagogical process.

The FASB Statements of Financial Accounting Concepts contains the full text of five of the six Statements of Financial Accounting Concepts issued to date. The existing concepts are intended to serve the public interest by setting the objectives, qualitative characteristics, and other

concepts that guide selection of economic events to be recognized and measured for financial reporting. Unlike a Statement of Financial Accounting Standards, a Statement of Financial Accounting Concepts does not establish generally accepted Accounting Principles.

This report describes recent trends in the international migration of doctors and nurses in OECD countries. Over the past decade, the number of doctors and nurses has increased in many OECD countries, and foreign-born and foreign-trained doctors and nurses have contributed to a significant extent. New in-depth analysis of the internationalisation of medical education shows that in some countries (e.g. Israel, Norway, Sweden and the United States) a large and growing number of foreign-trained doctors are people born in these countries who obtained their first medical degree abroad before coming back. The report includes four case studies on the internationalisation of medical education in Europe (France, Ireland, Poland and Romania) as well as a case study on the integration of foreign-trained doctors in Canada.

Increasingly, students worldwide are seeking post-secondary education to acquire new skill-sets and credentials. There is an explosion of community college models that provide educational opportunities and alternative pathways for students who do not fit the traditional higher educational profile. This book focuses on economic models to help local and national economies develop strong workforce training, humanitarian models to bring about social mobility and peace, transformative models to help institutions expand and keep up with societal needs, and newly created models that respond to the educational and training needs of a constantly changing world. These models seek to capture the imagination of those who are committed to learning about what works in higher education and in particular, the impact community college models are having on the changing nature of world social, political and economic landscapes. With contributors representing 30 countries, this book presents an international perspective.

Brimming with advice, resources and suggested planting choices, this friendly guide shows you step by step how to create the garden of your dreams. From basic cultivation to garden design, this book is just what you need to start playing in the dirt ? even if you've never picked up a garden trowel in your life.

This paper looks at the possible paths for policy and development in Indonesia under the leadership of the seventh president of Indonesia, Joko Widodo. The first part is a stocktake of the challenges that lie ahead. The stocktake assesses the state of play in five areas: the political system; economic challenges; government and administration; social issues; and foreign affairs. Then two possible scenarios of governance under the new administration are considered: an outward-looking reform path or an inward-looking resilience path. The country's seventh president, Joko Widodo, will need to decide whether to adopt one of these paths or select policies that combine elements from both the reform and the resilience paths.

After his grandfather's death, Lucas Brown discovers a journal written by him which reveals he was a time traveler in his youth. Received an Honorable Mention for giving the judges "All the Feels" in the 2020 Open Novella Contest on Wattpad.

Buku ini terdiri atas lima bagian. Bagian 1 membahas sistem dan pembiayaan kesehatan, Bagian 2 membahas supply side dalam sistem kesehatan. Pembahasan pada bagian Bagian 1 dan 2 mempunyai dasar kerja sebagai suatu sistem yang akan terpengaruh oleh kebijakan di salah satu komponennya. Dalam hal ini, kebijakan JKN yang merupakan kebijakan komponen pembiayaan, akan memengaruhi atau dipengaruhi oleh sistem kesehatan secara keseluruhan, termasuk supply side. Interaksi antara komponen pembiayaan dan komponen pelayanan dalam sistem kesehatan merupakan sebuah hal yang dinamis. Perubahan dinamis ini dibahas dalam Bagian 3 tentang pemantauan kebijakan JKN selama tahun 2014–2015. Selanjutnya, Bagian 4 membahas tantangan-tantangan pelaksanaan kebijakan JKN, sedangkan Bagian 5 membahas masa lalu dan masa depan kebijakan JKN. Pada penutup buku ini, para pembaca diharapkan melakukan refleksi untuk mengingat kembali perlunya konsep sistem dalam perbaikan kebijakan JKN pada masa mendatang. Buku ini menafsirkan rangkaian pengalaman selama empat tahun pelaksanaan kebijakan JKN sebagai sebuah fenomena fragmentasi yang tidak sengaja terjadi dalam sistem kesehatan. Kebijakan JKN melalui undang-undang SJSN dan undang-undang BPJS banyak membahas komponen pembiayaan dalam sistem jaminan sosial, tetapi terpisah dari berbagai kebijakan lainnya dalam sistem kesehatan. Dua sistem yang fragmented ini, yaitu sistem jaminan sosial dan sistem pelayanan kesehatan, perlu dijembatani, sehingga menjadi satu sistem kesehatan yang terpadu. Diharapkan buku ini dapat menjadi masukan untuk evaluasi kebijakan JKN di masa mendatang.
