Galactic Alignment The Transformation Of Consciousness According To Mayan Egyptian And Vedic Traditions

The courageous story of how one American woman transcended normal. That is, she rediscovered the natural human state beneath the past trauma and conditioning of "life as we've always known it." Her transformational story is told through the inner, feminine view of a lifetime of Angel-ET visits, and numerous Kundalini-Koyopa episodes in the physical body. The nonhuman intelligence "spoke" in frequency, and informed her of humanity's evolutionary leap in consciousness at this definitive crossroads in time. She was shown that everyone is wired within to accept, integrate, and move forward with these shifts, but it is a choice. Through a unique practice of honesty and innocence, she was guided to tune into and translate the resonance which began "filling in" the bulk of what had been conditioned out of most of humanity - the feeling-knowing wisdom of the feminine. The more she adapted to her own signature frequency, the more she felt and understood the universal tones of nonhuman intelligence. It made for a challenging life of attempting to appear normal, even when each visit would wipe out her entire worldview. Ultimately, a critical fork-in-the-road decision needed to be made: Be true to herself and honest with her community about what she was experiencing and remembering; or squish back into the insane, tight masks and clothing of conditioning that we were taught to believe was "life." There is so much more. In the change of cycles, the Maya prophesied the Return of the Plumed Serpent. This

story points to a 26,000 year old alignment - in both the cosmos and the human body. The Author states that words and concepts don't really matter in these high-vibratory states - because when they occur, you cannot think. It's more about adapting to high frequencies in the body, healing and releasing the past, practicing present-moment attention, and embracing wave after wave of body-mind-spirit upgrades. Through her lifetime of experiences and the resonant practices given through this field of Love, the author provides a roadmap for you to navigate this revolutionary contact within. Should you choose to grow up and out of the old matrix, this book has plenty of inspiration, pragmatic guidance, and encouragement.

Solar-Induced Dark Age • Includes evidence from solar science, geology, oceanic circulation patterns, the Sphinx, the underground cities of Cappadocia, the Easter Island rongorongo glyphs, and the Göbekli Tepe complex in Turkey

In this newly revised and expanded edition, updated throughout with recent developments, geologist Robert Schoch builds upon his revolutionary theory that the origins of the Sphinx date back much further than 2500 BCE and examines scientific evidence of the catastrophe that destroyed early high culture nearly 12,000 years ago. Combining evidence from multiple scientific disciplines, Schoch makes the case that the abrupt end of the last ice age, circa 9700 BCE, was due to an agitated Sun. Solar outbursts unleashed electrical/plasma discharges upon Earth, triggering dramatic climate change as well as increased earthquake and volcanic activity, fires, high radiation levels, and massive floods. Schoch explains how these events impacted the civilizations of the time, set humanity back thousands of years, and led to six millennia of a Solar-Induced Dark Age (SIDA). Applying the SIDA framework to ancient history, he explores how many megalithic monuments, petroglyphs, indigenous traditions, and legends fall logically into place, including the underground cities of Cappadocia, the Easter Island rongorongo glyphs, and the Göbekli Tepe complex in Turkey. He also reveals that our Sun is a much more unstable star than previously believed, suggesting that history could repeat itself with a solar outburst powerful enough to devastate modern society. Weaving together a new view of the origins and antiquity of civilization and the dynamics of the planet we live on, Schoch maintains we must heed the megalithic warning of the past and collectively prepare for future events.

how it can guide us today • The first book to reveal the secrets of the Mayan Pleiades calendar: the Tzek'eb • Explains how the Maya used their astronomical knowledge to guide their lives on Earth The Mayan Calendar has taken on special prominence with the imminent arrival of 2012, a date that many claim is the end of that calendar. However, as Mayan elder and daykeeper Hunbatz Men shows, the cosmological understanding of his ancestors was so sophisticated that they had not one, but many calendars, each based on the cycles of different systems in the cosmos. In this book he reveals for the first time the Tzek'eb, or Pleiades, Calendar of 26,000 years, which charts the revolution of our solar system around Alcyone, the central star of the Pleiades system. He also discusses the K'uuk'ulcan Calendar of the 4 seasons of the solar year and the wheel of the K'altunes Calendar, which is composed of 13 cycles of 20 years each that form a calendar of 260 years. In traditional Mayan culture the computation of time was not determined by simple economic or social motives. The calendars served the higher purpose of synchronizing the lives of human beings and their societies to the great cosmic pulsation, to the rhythm of the annual seasons, and to the other cycles that dictate changes upon Earth. Mayan understanding of the cosmic cycles was so exact that this knowledge could be used to influence all stages of life--from planning when to conceive (parents could choose not only the sex of their child but its vocation and future destiny) to plotting out the course of the entire society. Pyramids played a crucial role in applying this wisdom because, as Hunbatz Men shows, they were able to produce and transform energy in accordance with the cosmic cycles charted by the calendars. This book reveals for the first time the wisdom of the multi-calendar Mayan system and how it can help guide our modern world.

21 December 2012 was believed to mark the end of the thirteenth B'ak'tun cycle in the Long Count of the Mayan calendar. Many people believed this date to mark the end of the world or, at the very least, a shift to a new form of global consciousness. Examining how much of the phenomenon is based on the historical record and how much is contemporary fiction, the book explores the landscape of the modern apocalyptic imagination, the economics of the spiritual marketplace, the commodification of countercultural values, and the cult of celebrity.

An illustrated, encyclopedic overview of the prophecies, calendars, and theories that indicate the year 2012 is a threshold of great change for humanity • Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 • Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar's Great Cycle will come to an end. Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed. What is certain, however, is that a rare galactic alignment will occur, one so unique that it is found at the core of many wisdom traditions from around the globe. Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982. Far from confining his research to the Maya, who provide the most prominent predictions indicating this date will herald significant changes for humanity, he has studied the prophetic traditions of other cultures--including the Tibetan, Chinese, Jewish, Ethiopian, and tribal cultures from around the globe--to show the kind of convergence of cosmic purposes happening along a number of parallel tracks. This book offers an extensive study of many modern theories, including Terence McKenna's timewave zero and Maurice

Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles. Sifting through all the scientific research and speculation that the year 2012 has inspired, Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date.

examines all the popular myths, prophecies, and predictions concerning 2012, including the Mayan teachings of time acceleration and global awakening on a consciousness level. It also takes an in-depth look at lesser-known predictions and prophecies, and at the more scientific and reality-based challenges we will face.

Integrating astrology, mythology and spirituality, this book is a reflection on the themes of the astrological ages across the past 13,000 years and is an exploration of what astrology has to tell us about the meaning of the changes happening globally and culturally in this time. We are currently on the cusp of the Age of Aquarius, at the end of a 26,000 year precessional cycle and, according to ancient prophecies, at the close of a world era. With the recent discovery of the planetoids Sedna and Eris, new forms of consciousness are entering our awareness. Through listening to the messages of the stars and planets, we find guidance for our lives in this intense time of change. We live in a sentient universe, which is calling us back into relationship with the cosmos and with the Earth. In remembering our source (the galactic center), reconnecting with the spirit in all of life and in becoming centered within

ourselves, we gain meaning and wisdom for who we are and who we are becoming and find a path for the healing and evolution of ourselves and our Earth. How the global mind drives the evolution of both consciousness and civilization • Explains how our brains receive consciousness from the global mind, which upgrades human consciousness according to a pre-set divine time frame • Reveals how the Mayan Calendar provides a blueprint for these consciousness downloads throughout history • Examines the mind shift in humans and the development of pyramids and civilization in ancient Egypt, Sumer, South America, and Asia beginning in 3115 BCE In each culture the origins of civilization can be tied to the arising of one concept in the human mind: straight lines. Straight and perpendicular lines are not found in nature, so where did they come from? What shift in consciousness occurred around the globe that triggered the start of rectangular building methods and linear organization as well as written language, pyramid construction, mathematics, and art? Offering a detailed answer to this question, Carl Calleman explores the quantum evolution of the global mind and its holographic resonance with the human mind. He examines how our brains are not thinking machines but individual receivers of consciousness from the global mind, which creates holographic downloads to adjust human consciousness to new cosmological

circumstances. He explains how the Mayan Calendar provides a blueprint for these downloads throughout history and how the global mind, rather than the individual, has the power to make civilizations rise and fall. He shows how, at the beginning of the Mayan 6th Wave (Long Count) in 3115 BCE, the global mind gave human beings the capacity to conceptualize spatial relations in terms of straight and perpendicular lines, initiating the building of pyramids and megaliths around the world and leading to the rise of modern civilization. He examines the symbolism within the Great Pyramid of Giza and the pyramid at Chichén Itzá and looks at the differences between humans of the 6th Wave in ancient Egypt, Sumer, South America, and Asia and the cave painters of the 5th Wave. He reveals how the global mind is always connected to the inner core of the Earth and discusses how the two halves of the brain parallel the civilizations of the East and West. Outlining the historical, psychological, geophysical, and neurological roots of the modern human mind, Calleman shows how studying early civilizations offers a means of understanding the evolution of consciousness.

Identifying the Mayan World Tree with the central axis of the cosmos, the author shows how evolution is not random • Shows how the evolution of the universe emanates from the cosmic Tree of Life • Explains the origin and evolution of biological life and consciousness and how this is directed Using recent findings within cosmology, coupled with his broad understanding of the Mayan Calendar, biologist Carl Johan Calleman offers a revolutionary and fully developed alternative to Darwin's theory of biological evolution--and the theory of randomness that holds sway over modern science. He shows how the recently discovered central axis of the universe correlates with the Tree of Life of the ancients. This provides an entirely new context for physics in general and especially for the origin and evolution of life and suggests that we look upon ourselves as parts of a hierarchy of systems that are

all interrelated and evolve in a synchronized way. Calleman's research demonstrates that life did not just accidentally "pop up" on our planet, but that Earth was a place specifically tagged for this. He demonstrates how the Mayan Calendar describes different quantum states of the Tree of Life and presents a new explanation for the origin and evolution of consciousness. Calleman uses his scientific background in biology and cosmology to show that the idea of the Purposeful Universe is real. He explains not only how DNA but also entire organisms have emerged in the image of the Tree of Life, a theory that has wide-ranging consequences not only for medicine but also for the origin of sacred geometry and the human soul. With this new theory of biological evolution the divide between science and religion disappears.

Homer is renowned as the finest of the storytellers who for countless generations passed down by word of mouth the myths and legends of Ancient Greece. Yet, for some 2500 years there have been persistent folk memories that his genius extended far beyond literature and that scientific knowledge was hidden in his stories of heroes and villains, gods and ghosts, monsters and witches. Research now reveals that at a time when the Greeks did not have a written script, Homer concealed an astonishing range of learning about calendar making and cycles of the sun, moon and planet Venus in the *Odyssey*, his epic of the Fall of Troy and the adventures of the warrior-king Odysseus.

challenge the scientific establishment to reexamine its underlying premises in understanding ancient civilizations and open up to the possibility of meaningful debate around alternative theories of humanity's true past. Each of the essays builds upon the work of the other contributors. Kenyon has carefully crafted his vision and selected writings in six areas: Darwinism Under Fire, Earth Changes--Sudden or Gradual, Civilization's Greater Antiquity, Ancestors from Space, Ancient High Tech, and The Search for Lost Origins. He explores the most current ideas in the Atlantis debate, the origins of the Pyramids, and many other controversial themes. The book serves as an excellent introduction to hitherto suppressed and alternative accounts of history as contributors raise questions about the origins of civilization and humanity, catastrophism, and ancient technology. The collection also includes several articles that introduce, compare, contrast, and complement the theories of other notable authors in these fields, such as Zecharia Sitchin, Paul LaViolette, John Michell, and John Anthony West.

A comprehensive study of the major occult writings on Atlantis • Fully examines the many occult teachings on Atlantis, including those from G. I. Many of the great minds of the occult and esoteric world wrote at length on their theories of Atlantis--about its high culture, its possible location, its ultimate demise, and their predictions of a return to Atlantean enlightenment or the downfall of modern society. Beginning with a review of the rationalist writings on

Atlantis--those that use geographic and geologic data to validate their theories--renowned scholar Joscelyn Godwin then analyzes and compares writings on Atlantis from many of the great occultists and esotericists of the 19th and 20th centuries, including Fabre d'Olivet, G. I. Gurdjieff, Guido von List, Julius Evola, Edgar Cayce, Dion Fortune, and René Guénon, whose writings often stem from deeper, metaphysical sources, such as sacred texts, prophecy, or paranormal communication. Seeking to unravel and explain the histories and interpretations of Atlantis and its kindred myths of Lemuria and Mu, the author shows how these different views go hand-in-hand with the concept of cyclical history, such as the Vedic system of the four Yugas, the Mayan calendar with its 2012 end-date, the theosophical system of root races, and the precession of the equinoxes. Venturing broader and deeper than any other book on Atlantis, this study also covers reincarnation, human evolution or devolution, the origins of race, and catastrophe theory. Reveals the Mayan calendar to be a spiritual device that describes the evolution of human consciousness from ancient times into the future • Shows the connection between cosmic evolution and actual human history • Provides a new science of time that explains why time not only seems to be speeding up in the modern world but is actually getting faster • Explains how the end of the Mayan calendar is not the end of the world, but a path toward enlightenment The prophetic Mayan calendar is not keyed to the movement of planetary bodies. Instead, it functions as a metaphysical map of the evolution of consciousness and records how spiritual time flows--providing a new science of time. The calendar is associated with nine creation cycles, which represent nine levels of consciousness or Underworlds on the Mayan cosmic pyramid. Through empirical research Calleman shows how this pyramidal structure of the development of consciousness

can explain things as disparate as the common origin of world religions and the modern complaint that time seems to be moving faster. Time, in fact, is speeding up as we transition from the materialist Planetary Underworld of time that governs us today to a new and higher frequency of consciousness--the Galactic Underworld--in preparation for the final Universal level of conscious enlightenment.

Calleman reveals how the Mayan calendar is a spiritual device that enables a greater understanding of the nature of conscious evolution throughout human history and the concrete steps we can take to align ourselves with this growth toward enlightenment.

December 21, 2012: will the world really change forever on this date, the end of a 5,125-year calendar last used over a thousand years ago? Certainly Hollywood would like you to think so. Indeed, a not-so-small industry has arisen around the date, hawking everything from t-shirts to teleseminars. Clearing a path between fantasy and reality, Alexandra Bruce surveys the entire 2012 landscape, asking questions such as: Is the Earth losing its Mojo? How did 2012 come to mean "The End of Time"? Did psychedelics facilitate the Maya "Cosmovision"? Should we worry about Earth Crustal Displacement? What the hell is "Planet X"? Uniquely amongst a vast array of 2012 literature, this book features interviews with the leading experts—including Graham Hancock, John Major Jenkins, Daniel Pinchbeck and many others—and insightful, detailed analysis of the broad spectrum of opinion, debate, research and myth regarding the most compelling "end times" prediction of the 21st century.

The spiritual world blesses the Earth at least 58 times a year--here's how you can join the party. Do you think folklore customs about solstices and equinoxes and other regular celebration days are quaint holdovers from the past? Not so.

Do you sometimes wish there were a way to include the entire planet in a meditation practice? There is, and it's called the geomantic year. At least 58 times a year the spiritual world-angels, archangels, Ascended Masters, Star-Angels, even the Supreme Being-tunes in to the Earth, blesses, and even heals it in real-time day-long events. Our planet is constantly receiving input from the cosmos and heavenly realms. It's all part of a rhythmic maintenance calendar in which the Earth is enlivened, and all of humanity is invited to participate. This book shows you how. What kinds of events? On Epiphany, January 6, the Christ focuses on the planet to birth his Light. On Bifrost Paints the Planet, April 10, the Great Bear constellation envelopes the Earth in 14 rays of light. On Michaelmas, September 29, the Archangel Michael cleanses the Earth's sacred sites and all their "plumbing." Other events in the geomantic year involve stars, Nature Spirits, holy mountains, River-gods, Pleiadians, Hollow Earth dwellers, Grail Kings, volcano spirits, the Great Mother, and much more. "The Geomantic Year" documents 58 festival dates that focus on the Earth through its sacred sites, and it provides 58 simple meditations to help you participate. And it offers 12 informative essays linking Earth energies with hot topics such as the Illuminati and world control, parallel universes, the world's gold supply, the Ghost Dance, the Fall of Man, Earth and climate changes, and the apocalyptic year 2012. Why not get out your appointment book and pencil in a few dates: the Earth's expecting you!

This book is a speck of fire from mans inherent quest to be at a perfect self-contented oneness with nature. Todays rat race towards technological development might have thrusted man to lack awareness of that quest. Infact, the human journey and conditioning itself has an inherent character of making him lack awareness

of his pristine aspects. This book is a humble effort in reminding man of his own quest, in facilitating him to get in touch with the truth long-suppressed and forgotten. The growing imbalance in the society is finding its expression not merely as the materialistic gap between haves and have-nots, but also in the form of Kundalini/Consciousness Awakening in more and more people. The spiritual deficit of the human collective is manifesting as spiritual burden on some. We know the many scientific laws of conservation, dont we? Among other things, the book propounds a possibility that our incapacity to comprehend God might be the limitation of human evolution, as of now! As much as the book talks about God, Spirituality and Mysticism, the book is more an effort in questioning the sufficiency of science for current needs of human evolution. Time has come for man to expand his horizons not through Technology but by regaining his roots of spiritual strength and in the process expand the horizons of science. No development can be linear and no one instrument can prove self-sufficient for human evolution. In that sense, Science has reached its threshold. Yet, Science with Heart is waiting to be discovered and explored through the reinstatement of Trinity and Balance in the world. This book might not contain any new spiritual talk or wisdom for the spiritually inclined. But it might make a very interesting read for those who are not spiritually inclined yet. And when we realize that the term spiritually inclined is a misnomer, for we are the spirit, the purpose behind this book would have been fulfilled.

channeling by Barbara Marciniak, Bringers of the Dawn imparts to us the wisdom of the Pleiadians, a group of enlightened beings who have come to Earth to help us discover how to reach a new stage of evolution. Master storytellers and humorists, they advise us to become media free, to work in teams, and to eliminate the words "should" and "try" from our vocabularies. We learn how to go beyond fear, how the original human was a magnificent being with twelve strands of DNA and twelve chakra centers, and who our "gods" are. Startling, intense, intelligent, and controversial, these teachings offer essential reading for anyone questioning their existence on this planet and the direction of our collective conscious--and unconscious. By remembering that we are Family of Light, that we share an ancient ancestry with the universe around us, we become "bringers of the dawn," consciously creating a new reality, a new Earth.

history from biblical times to the present and prophecies of the future from Nostradamus to Edgar Cayce and Jeane Dixon, Susan B. Martinez reveals that our current “time of troubles” is not the beginning of Rapture, the Apocalypse, or Armageddon, but of the embryonic stage of a Utopian Age--the “Quickening” of the human race. Reviving the lost science of prophecy, Martinez explains why so many “great prophecies” have failed and presents the 12,000-year-old Egyptian system of prediction so exact it can foretell every day of the year, a method based not on the planets, astrology, or intuition but on Earth’s magnetic rhythms. Using Earth science, historical research, religious texts, spiritualism, and patterns within the cycles of war and political milestones, she demonstrates that the past is the hidden key to the future and uncovers the prophetic numbers of Earth’s cycles--11, 33, 99, and 363--as set forth in the Egyptian Tables of Destiny, ancient texts brought to light by the 19th-century Oahspe Bible. Explaining how readers can use the Tables of Destiny to make their own predictions of the future, she presents her own forecasts of the risks and costs of technological progress, the destiny of America, the up-and-coming global religion, the truth behind climate change and the cause of earthquakes, and the true life expectancy of planet Earth as well as offering a preview of the Paradigm Shift and Golden Age ahead, a time of global unity and awakening of the soul of the world.

that drives the evolution of structures from small density seeds at early times to the galaxies we see today. The interactions among myriads of stars, or dark matter particles, in a gravitating structure produce a system with fascinating connotations to thermodynamics, with some analogies and some fundamental differences. Ignacio Ferreras presents a concise introduction to extragalactic astrophysics, with emphasis on stellar dynamics, and the growth of density fluctuations in an expanding Universe. Additional chapters are devoted to smaller systems (stellar clusters) and larger ones (galaxy clusters). *Fundamentals of Galaxy Dynamics, Formation and Evolution* is written for advanced undergraduates and beginning postgraduate students, providing a useful tool to get up to speed in a starting research career. Some of the derivations for the most important results are presented in detail to enable students appreciate the beauty of maths as a tool to understand the workings of galaxies. cutting-edge scientists, ancient wisdom keepers, laboratory-tested psychics, and other visionaries on their predictions for the near and far future. While the methods they use are significantly diverse, the similarities in their forecasts are striking. And, as Hieronimus reveals, one common theme resonates through them all: the power of human consciousness. Sharing insights from her discussions with Dr. Mehmet Oz, Raymond Moody, Larry Dossey, John Perkins, Michael Cremo, Gay Bradshaw, Ray Kurzweil, and many others, Hieronimus explores what these visionary thinkers foresee for humanity based on current trends in medicine, science, agriculture, Earth history, robotics, and spirituality. She examines natural, extraterrestrial, and man-made events that dramatically altered humanity's course in the past or might in the future, revealing a recurring cycle of catastrophic Earth changes and rebirths of civilization over billions of years. The author explains that, as part of the energetic expression of Divinity, we can influence the impact of Earth changes through our actions and intentions. She shows that the consciousness of humanity has the power to affect evolution, enact healing on personal and global levels, and alter even natural systems such as the weather. By studying predictions across a broad range of disciplines--from nano-technology to plant intelligence--from today's great minds and from ancient spiritual traditions, Hieronimus shows that we can significantly improve the long-term welfare of the Earth by unfolding our nonlocal consciousness, adopting a reverent attitude toward all life, and realizing how we do things is as vital as what we do.

This book includes full-color illustration, personality traits and descriptions of the genealogy races, it is the companion book to a Galactic Genealogy Chart, also included in the book. The Chart and booklet are designed to help you find out what your Galactic Genealogy origins are. I have listed them in alphabetical order. Since photographs are not taking of the Extraterrestrials, both the drawings from the experiencer's and the other illustrations are meant to be an example of the different races and beings that are in our Universe. Some of them have the ability to appear in your mind and memory as whatever they want, and this induced "image" has nothing to do with their real appearance. They may have you see and remember them as a human celebrity or family member. A ball of light, a gray, a dwarf or even animals such as deer, owl, dog, monkey, because they want you to remember that. Most of the time they may want you to completely forget anything about you're experience with them, so you think it's just a dream. So, we can never be sure that they really look the way we see them. I was asked in by my galactic family, in downloads and channeling to put this information together with full-color illustrations, descriptions of our family and special traits about ourselves. The illustrations and info have been accumulated from many people and sources. Dare to find out what you Galactic Genealogy is!

While researching the 2012 end-date of the Maya Calendar, John Major Jenkins decoded the Maya's galactic cosmology. The Maya discovered that the periodic alignment of the Sun with the center of the Milky

Way galaxy is the formative influence on human evolution. These alignments also define a series of World Ages. The fourth age ends on December 21, 2012, when an epoch chapter in human history will come to an end. Maya Cosmogenesis 2012 reveals the Maya's insight into the cyclic nature of time, and prepares us for our own cosmogenesis--the birth of a new world.

On December 21, 2012, the Mesoamerican Long Count calendar, a 5,125-year cycle calendar system pioneered by the Maya, will come to an end. At the same time, the earth, the sun, and the center of the galaxy will come together in an extremely rare cosmic alignment. More and more people believe that the world as we know it will experience a transformation in 2012, but few are aware of the complete history or significance of the date. John Major Jenkins, among the most authoritative voices of the 2012 movement, has written a definitive explanation of one of the most thought-provoking phenomena of our time. Drawing from his own groundbreaking research (including his involvement in the modern reconstruction of Mayan 2012 cosmology) and more than two decades of extensive study of Mayan culture, Jenkins has created the crucial guide to understanding the story of 2012—an essential overview of the history, theory, cultures, and personalities that have brought this extraordinary idea into modern awareness. Jenkins provides illuminating answers to some of the most-asked questions about 2012, including: - How did the early Maya devise the calendar that gives us the cycle ending in 2012, and how does it work? - How did the calendar come to be rediscovered and reconstructed in our era? - What

controversies and intrigues surround the topic, and what do scholars and researchers have to say about them? - How can we cut through all the noise about 2012 and gain true wisdom from the Mayan teachings about this moment?

Explores the central role played by the galaxy in both ancient and modern times in the transformation of the human spirit. • Extends Jenkins' groundbreaking research in *Maya Cosmogenesis 2012*. • Reveals how the coming Galactic Alignment of era-2012 promises a renewal of human consciousness. • Uncovers the galactic vision of Mayan, Egyptian, Greek, and Vedic cosmologies. The Galactic Alignment is a rare astronomical event that brings the solstice sun into alignment with the center of the Milky Way galaxy every 12,960 years. Building on the discoveries of his book *Maya Cosmogenesis 2012*, Jenkins demonstrates that the end-date of 2012 does not signal the end of time but rather the beginning of a new stage in the development of human consciousness. He recovers a striking common thread that connects the ancient cosmological insights of the Maya not only to Egyptian thought and Vedic philosophy but also to the diversity of humankind's metaphysical traditions ranging from Celtic sacred topography and Medieval alchemy to the Kabbalah and Islamic astrology. His work presents us with a groundbreaking synthesis of lost wisdom once common to ancient cosmologies that will help us understand the significance of this transformative cosmic milestone. meaning of the 20 day-signs of the Mayan calendar • Explains the many cycles of Mayan astrology, such as the 9-day cycle of the Night Lords and the 13-day trecena • Contains extensive tables of Mayan astrological data, allowing readers to cast their own Mayan horoscopes

How to Practice Mayan Astrology presents a contemporary guide to one of the most sophisticated astrological systems ever developed. Like other ancient peoples, the Maya looked to the cycles of the planets as markers of time and designators of order. The predictable cycles they observed became codified in the Mayan calendar and astrological system as a way of organizing the seeming chaos of human life. Mayan astrology is based on 20 named days that are cycled 13 times to create a 260-day calendar, the Tzolkin. The authors explain the symbolism, logic, and meaning of the 20 day-signs; how these signs reflect 260 possible personality types; and how they can be used for divination. They also explain the important role of the Four Directions and the planet Venus in one's personality matrix and life issues. Included are extensive, easy-to-use tables of Mayan astrological data, allowing readers to determine their day-signs, to see how these signs are also influenced by the cycle of the Night Lords and the 13-day trecena, and to cast their own horoscopes.

The sacred consciousness that prevailed in antiquity is the key to unlocking our future • Shows how scientific

consciousness, which gives primacy to the sense of sight, estranged us from the participatory spiritual consciousness of antiquity • Explores the vital importance of the imagination in reconnecting us to the spirit world The Future of the Ancient World sheds new light on the evolution of consciousness from antiquity to modern times. The twelve essays in this book examine developments in human consciousness over the past five thousand years that most history books do not touch. In ancient times, human beings were finely attuned to the invisible world of the gods, spirits, and ancestors. Today, by contrast, our modern scientific consciousness regards what is physically imperceptible as unreal. Our experience of the natural world has shifted from an awareness of the divine presence animating all things to the mere scientific analyses of physical attributes, a deadened mode of awareness that relies on our ability to believe only in what we can see. In these richly illustrated and wide-ranging essays that span the cultures of ancient Egypt, Mesopotamia, Greece, Rome, and the early Christian period, Jeremy Naydler shows how the consciousness that prevailed in ancient times may inspire us toward a future in which we once again reconnect with invisible realms. If the history of consciousness bears witness to the loss of visionary and participatory awareness, it also shows a new possibility--the possibility of developing a free and objective relationship to the spirit world. Naydler urges us not only to draw inspiration from the wisdom of the ancients but to carry this wisdom forward into the future in a renewed relationship to the spiritual that is based on

Tranceformers: Shamans of the 21st Century is the true story of this author's contact with a "dead" optics physicist colleague and the telepathic communication that sent him searching for scientific answers to his spiritual questions. Harper draws from this deep well of wisdom: astrology, biology, near-death experiences, paranormal psychology, quantum physics as well as Egyptian and Mayan cosmology overall. He does an excellent job of synthesizing massive amounts of information, making this shift of the ages comprehensible to the general reader. Clearly this is a necessary primer to understand the coming apocalypse of biblical proportions in consciousness, climate, culture, and civilization. However, the theme of this book is that by learning to use trance- the techniques employed by mystics, prophets, and shamans- one can unlock the mysteries of existence for themselves. Indeed this is the big idea behind the Eternal Return of the Sun of God in 2012: Self-Empowerment.

The first translation of a previously unknown Aztec codex and its initiatory teachings for 2012 • Discloses the potential for great spiritual awakening offered at the end of the Aztec calendar cycle • Presents the only existing English-language transcription of the Aztec codex, with line-by-line commentary • Contains the epic poetry and metaphysical insights of Beat poet Marty Matz (1934–2001 In 1961 an unknown Aztec codex was revealed to Beat poet and explorer Marty Matz by a Mazatec shaman in the mountains of Oaxaca, Mexico. presents a profound metaphysical teaching describing how the end of time will bring about a visionary ascent. At the behest of his Mazatec teacher, Matz transcribed this pictorial codex into a literary form that would preserve its initiatory teachings and reveal its secret meanings to a wider audience. Pyramid of Fire is an epic poem that provides a vehicle to transport the initiate into the higher realms of consciousness. It represents a barely surviving thread of teachings that have been passed down in secret since the time of the Spanish Conquest. Revealed are the techniques by which man is transported to the stellar realm after death via the solar energy within what the ancients called the “serpent of consciousness.” Line-by-line commentary by Matz and John Major Jenkins provides insights into the perennial philosophy contained in the codex and its relevance to our times.
