Jan H\_mal\_ (1844-1915) was an influential Czech violinist and teacher, associated with Moscow Conservatory for 46 years. These are his progressive scale studies in 10 sections.

Nearly a century after its initial publication, Carl Flesch's Scale System remains one of the foremost scale books for violin. This comprehensive collection of exercises features the 24 major and minor scales, with emphasis on both double-stops and arpeggios. With Flesch's exercises, the intermediate player will progressively master intonation, shifting, rhythm, string crossing, bow speed and pressure, and tone production. Initially published as a supplement to Book 1 of The Art of Violin Playing, Flesch's Scale System has become the principal scale study for serious violinists. Carl Flesch (1873-1944) was born in Hungary and began playing the violin at age seven. He was a famous chamber musician, instructor, and solo performer, who mastered repertoire ranging from Baroque to contemporary works.

Until comparatively recent times very little had been written for the viola as a solo instrument. Our contemporary composers have done a great deal to remedy this situation. Bax, Beresowsky, Bliss, Bloch, Delius, Hindemith, Honegger, Milhaud, Vaughan Williams, Walton and many others have contributed important sonatas, suites and concertos for the viola. Many new works are constantly being added. This new literature has placed new demands upon the violist, who in the past found a place only as an orchestra or chamber music player. Higher standards of technical perfection are required. It therefore occurred to me that the "Scalesystem" published by the eminent pedagogue and violinist Carl Flesch, regarded as a standard work by violinists the world over, would be equally valuable to violists if translated into their medium. I have undertaken this task with the encouragement of Professor Carl Flesch. The publishers and I hope that it will be found useful by performers and teachers of the viola. Charlotte Karman New York October 1941 This new edition contains all the scales and arpeggios required for ABRSM's Grade 8 Violin exam. Includes all Grade 8 scales and arpeggios for the revised syllabus from 2012, with bowing patterns and suggested fingering, along with a helpful introduction including advice on preparing for the exam.

A collection of exercises, for Violin, composed by Henry Schradieck.

Drawing from his highly praised French work, Une simple flute, distinguished flutist and teacher Michel Debost has compiled a useful and imaginative introduction to playing the flute. This alphabetically arranged compendium of advice and insight covers essential topics such as breathing, articulation, and tone, but also explores "jawboning," "finger phrasing," "the little devils," and other quirky and vexing aspects of flute playing. Full of practical advice on technique and axioms that lend moral support during tough practice sessions, The Simple Flute will be a welcome addition to any serious or novice flutist's library. In addition, the book includes original exercises such as "Debost's Scale Game," making it an excellent resource for flute teachers.

Debost concludes each essay with "In a nutshell" and "Please refer to" boxes that make the book easy to browse, dog-ear, and return to again and again. Offering concise, common-sense solutions for flutists of all levels, this book is an ideal reference guide on flute performance.

In his book on left-hand violin technique, Maestro Ruggiero Ricci addresses common problems in shifting by advocating the study of the glissando technique. He asserts that re-incorporating this technique will not only aid violinists in developing a better-trained ear, but also provide them with "shortcuts" to playing some of Paganini's most difficult passages. Ricci introduces and compares old and new systems of playing to provide a context for the glissando system. He outlines a series of glissando scales that provides the student with a blueprint for developing additional glissando scales in other keys. He offers exercises designed to increase flexibility, ear training, coordination, and crawling technique and has included a DVD in which he demonstrates various bowing techniques.

Louis R. Feuillard (1872–1941) has become known chiefly as the teacher of Paul Tortelier who called him a man with an extraordinary educational instinct. His 'Daily Exercises' take up the most important aspects of the cello technique, such as exercises in neck and thumb positions, double stops and bowing exercises. It is particularly because of the logical structure of the exercises that they have been among the standard works of violoncello study literature since their publication in 1919.

These etudes must be used along with the Suzuki Violin School to learn and master different positions. Dr. Suzuki recommends that first position etudes be started when the student is working on Volume 2. The student should always be careful that fingers are placed before the bow moves. Dr. Suzuki repeatedly says, "One, fingers -- two, bow -- three, start." Since this is the first time the student plays an etude, the teacher needs to explain its purpose.
