A biography of the revered Indian leader explores his early career in South Africa, the forging of his political activism, his influence, triumphs, and failures in India, and the development of his philosophy of nonviolence

Approaching Recent World History Through Film: Context, Analysis, and Research explores the relationships between twentieth-century world history and film by providing analysis of a diverse range of films organized by global history topics, including war and conflict, decolonization, political economy, and long-distance travel. This insightful text describes how to analyze films as original historical sources and how to carry out research projects using films. The text provides guidance on the types of world history films, their conventions, and how to analyze the historical arguments in movies. Scott C.M. Bailey incorporates in-depth discussions of the historical content and context of a wide range of international films connected with important twentieth-century global history topics. The book also offers many prompts for discussion, historical timelines, and suggestions for further reading and viewing, as well as instructions on how to construct research papers and projects which employ the use of films as historical sources. This book will be of interest to students in world history and film history courses.

This book looks at the changing image of the Indian Patriot's war for India's Independence and its reflection, which were shown during the Cold War period on the screens of commercial British films and TV. By using a variety of primary and secondary sources, as demonstrated by utilizing Gramsci's theory of Common Sense/Folklore, the author traces the evolution of the Indian Patriot from a 'villain' to a 'saint,' and the British Colonials from 'kind' to 'mediocre' and even 'evil' personalities.

This book is not just another biography of Gandhi. It is valuable because it offers us a French view--- and Jewish too perhaps---- of a man and times so familiar to us and yet which acquires another dimension as it is represented through another culture. There are eloquent accounts in this book of philosophers like Ramakrishna and Vivekananda who influenced Gandhi's thought and life. Rather than political events, Michaël de Saint-Chéron holds up the force and courage of a man who became a prophet in a blood-thirsty century. Interestingly, the author points out that it is only India and the Middle East which has given the world the two mother religions of Hinduism and Judaism. Neither China nor Europe, two major cultures, have produced a world religion. The book is further enriched by a discussion on Hindu mysticism and the concept of 'love' in Judaism. The author also looks at how Gandhi has played a major role on shaping French intellectuals such as Andre Malraux. At the end however, a central dilemma, and a painful one to the work, concerns Gandhi's silence on the Holocaust. This book will be of interest to scholars working on Gandhian studies, Indian philosophy and Judaism, and to readers of politics, ethics and history.

Understanding leadership is really about understanding life, and this starts with gaining an understanding of the self. Traditional management approaches, based on 'scientific' analysis, cannot contribute much towards understanding leadership. This book shows how leadership can be better understood by reading and interpreting masterpieces of world literature, and relating them to leadership issues. The book starts with Cervantes' masterpiece Don Quixote, whose main character asserts, 'I know who I am', and believes in himself. This is followed by other works to highlight important issues: ambition and purpose in Chinua Achebe's Things Fall Apart, faith vs. reason in Bertolt Brecht's The Life of Galileo, awakening the human spirit in Bernard Shaw's Saint Joan, authenticity in Girish Karnad's Tughlaq, and the old Sanskrit play Mudra Rakshasa by Visakhadatta, leaders and society in Arthur

Miller's *All My Sons*, the role of illusions in Ibsen's *The Wild Duck*, taking a stand in *A Dolls' House*, the epic *Mahabharata* for development of perspective, and Herman Hesse's *Siddhartha* for understanding the process of self-development and realisation of one's potential. Based on the experience of the authors teaching a course on leadership for the last 20 years at the Indian Institute of Management, Ahmedabad, this is an enlightening and illuminating read for both academicians and corporate leaders.

A quiz book on Mahatma Gandhi which not only asks and answers, but informs and entertains also with amusing facts and interesting anecdotes

This volume uniquely gathers scholarly articles dealing with very dissimilar and kaleidoscopic perspectives on India. It provides an informative overview of the country, which has wide-ranging influences reaching far from India itself, since it has criss-crossed connections with many countries around the world. If read as a collection, this volume is witness to an interlocking network of ideas, attitudes and ideologies that emerge from the contemporary social and political world. The book, thus, highlights a variety of issues and the chapters promise to treat them with adequate justice. These features mean that this book can be approached by any person interested in India, given that it offers a diverse range of interesting topics related to the country. The reader glancing through the book will find themes spanning from the analysis of postcolonial literature written in English by Indian women, to sociological reflections on several diasporic situations, and from crossed influences between Indian culture and that of other countries, to the latest discussion topics in ancient Indian history, to mention a few.

The little-known story of Gandhi's reluctance to challenge the caste system, and the man who fought fiercely for India's downtrodden. Democracy hasn't eradicated caste, argues bestselling author and Booker Prize-winner Arundhati Roy—it has entrenched and modernized it. To understand caste today in India, Roy insists we must examine the influence of Gandhi in shaping what India ultimately became: independent of British rule, globally powerful, and marked to this day by the caste system. Roy states that for more than a half century, Gandhi's pronouncements on the inherent qualities of black Africans, Dalit "untouchables," and the laboring classes remained consistently insulting, and he also refused to allow lower castes to create their own political organizations and elect their own representatives. But there was someone else who had a larger vision of justice—a founding father of the republic and the chief architect of its constitution. In *The Doctor and the Saint*, Roy introduces us to this contemporary of Gandhi, B.R. Ambedkar, who challenged the thinking of the time and fought to promote not merely formal democracy, but liberation from the oppression, shame, and poverty imposed on millions of Indians by an archaic caste system. This is a fascinating and surprising look at two men—one of whom has become a worldwide symbol and the other of whom remains unfamiliar to most outside his native country. Praise for Arundhati Roy "Arundhati Roy is incandescent in her brilliance and her fearlessness." —Junot Díaz "The fierceness with which Arundhati Roy loves humanity moves my heart." —Alice Walker

Noël Carroll is one of the most prolific, widely-cited and distinguished philosophers of art, but how, specifically, has cinema impacted his thought? This book, one of the first in the acclaimed 'Film Thinks' series, argues that Carroll's background in both cinema and philosophy has been crucial to his overall theory of aesthetics. Often a controversial figure within film studies, as

someone who has assertively contested the psychoanalytic, semiotic and Marxist cornerstones of the field, his allegiance to alternative philosophical traditions has similarly polarised his readership. Mario Sluga proposes that Carroll's defence of the notions of truth and objectivity provides a welcome antidote to 'anything goes' attitudes and postmodern scepticism towards art and popular culture, including film. Carroll's thinking has loosened the grip of continental philosophers on cinema studies - from Maurice Merleau-Ponty to Gilles Deleuze and Jacques Lacan - by turning to cognitive and analytical approaches. Sluga goes further to reveal that Carroll's methods of evaluation and interpretation in fact, usefully bridge gaps between these 'opposing' sides, to look at artworks anew. Throughout, Sluga revisits and enriches Carroll's definitions of popular art, mass art, horror, humour and other topics and concludes by tracing their origins to this important thinker's relationship with the medium of cinema. *Hybrid Heritage on Screen* provides a long overdue thorough analysis of the 1980s 'Raj Revival'. It examines imperial nostalgia and troubled ethnic, gender and class relations during the Thatcher Era as represented in cinema and television.

This book traces the historical roots of marginalization of Dalits, Adivasis, Muslims and Women in Indian Society and appraises the role of the State in combating the widespread discrimination faced by them in society, economy, politics and governance, and in their own struggles for dignity and social justice. Ved Mehta's brilliant Mahatma Gandhi and his Apostles provides an unparalleled portrait of the man who lead India out of its colonial past and into its modern form. Travelling all over India and the rest of the world, Mehta gives a nuanced and complex, yet vividly alive, portrait of Gandhi and of those men and women who were inspired by his actions.

A Globe and Mail Best Book It would take many lifetimes, it was said to me during my first visit, to see all of India. The desperation must have shown on my face to absorb and digest all I possibly could. This was not something I had articulated or resolved; and yet I recall an anxiety as I travelled the length and breadth of the country, senses raw to every new experience, that even in the distraction of a blink I might miss something profoundly significant. I was not born in India, nor were my parents; that might explain much in my expectation of that visit. Yet how many people go to the homeland of their grandparents with such a heartload of expectation and momentousness; such a desire to find themselves in everything they see? Is it only India that clings thus, to those who've forsaken it; is this why Indians in a

foreign land seem always so desperate to seek each other out? What was India to me? The inimitable M.G. Vassanji turns his eye to India, the homeland of his ancestors, in this powerfully moving tale of family and country. Part travelogue, part history, *A Place Within* is M.G. Vassanji's intelligent and beautifully written journey to explore where he belongs. What does it take to make a great motion picture? What do we even mean by cinematic greatness? What is more important: movie awards, critical acclaim, or box office success? Who has the biggest impact: the writer, the director, or the actors? Scientific research has provided some provocative answers. This review of cinematic creativity and aesthetics is confined to scientific studies carried out by a multidisciplinary group of researchers. Do great films receive both shiny trophies and five stars? Chapter 2 concentrates on movie awards, including the Oscars and Golden Globes, and how those awards relate to critical acclaim. How do the dramatic awards compare with the visual, technical, and music awards? Chapter 3 studies more closely how these awards cluster together and which of these clusters best predict cinematic success. How does box office compare with critical evaluations and movie awards? Chapter 4 adds a new consideration, namely the film's financial performance. The following four chapters focus on specific contributions to a film's impact: Chapter 5 covers the script (including writers), Chapter 6 the director (or "auteur"), Chapter 7 the actors (especially gender differences), and Chapter 8 the music (both scores and songs). Chapter 9 addresses the question of whether the same cinematic factors that make some films great also make other films bad: Are bombs the exact opposite of masterpieces? The book closes with an epilogue on future directions in scientific studies of cinematic creativity and aesthetics. What do researchers need to do if we want a complete understanding of what it takes to create a powerful cinematic experience? This volume will be invaluable to anyone interested in film, including any aficionado who is open to a scientific approach, and researchers in the areas of creativity, aesthetics, and cultural economics. The reported research comes from many disciplines, including psychology, sociology, economics, management, marketing, communications, journalism, broadcasting, history, musicology, and statistics.

'The Leader With Seven Faces' describes leadership with emphasis on what to practice to become a leader or to improve your own leadership skills. It maps, explores and develops the seven faces of any leader, what you say, where you go, what you build, what you care about, how you do it, what you are, and what you do.

When Margaret Sanger returned to Europe in 1920, World War I had altered the social landscape as dramatically as it had the map of Europe. Population concerns, sexuality, venereal disease, and contraceptive use had entered public discussion, and Sanger's birth control message found receptive audiences around the world. This volume focuses on Sanger from her groundbreaking overseas advocacy during the interwar years through her postwar role in creating the International Planned Parenthood Federation. The documents reconstruct Sanger's dramatic birth control advocacy tours

through early 1920s Germany, Japan, and China in the midst of significant government and religious opposition to her ideas. They also trace her tireless efforts to build a global movement through international conferences and tours. Letters, journal entries, writings, and other records reveal Sanger's contentious dealings with other activists, her correspondence with the likes of Albert Einstein and Eleanor Roosevelt, and Sanger's own dramatic evolution from gritty grassroots activist to postwar power broker and diplomat.

This collection of essays asks the question "What is history?" and considers how history is shaped in different socioeconomic contexts. The writers take a transdisciplinary approach, in the belief that everyone who deals with history—including professional historians, novelists, and poets—constructs narratives of the past to make sense of the present as well as to determine their future courses of action. With contributions from a variety of specialists in media studies, literature, history and anthropology, this book breaks new ground in adaptation studies.

"English successfully challenges the established educational community to rethink the current state of research on school leadership in the social sciences...The inclusion of theory, discourse, and stories of recognized leaders followed by chapter learning extensions that include key concepts, movie recommendations, and prompted reflective journaling makes this book a most valuable resource for the educational leadership community." —H.J. Bultinck, CHOICE "The Art of Educational Leadership provides one of the most complete examinations of leadership that I have encountered. I admire the way it urges students to think and reflect. The format allows individual learners to focus on those materials that best fit their learning style while the numerous presentations of a single topic through the different modalities strengthens the learning. This text is a fresh, new look at leadership..." —Louise L MacKay, East Tennessee State University "Fenwick W. English returns to themes of leadership he explored in more than 20 earlier books and dozens of presentation to educator audiences. He favors "re-centering educational leadership in the humanities," rather than acting on the recommendation of the business literature, and he emphasizes the use of films as a way to humanize leadership concepts." —THE SCHOOL ADMINISTRATOR "Excellent cogent analysis of key concepts of leadership are presented in a reader friendly style." —Saul B. Grossman, Temple University Moves beyond established notions of leadership to recognize that effective leading is about drama and performance—artistry! The Art of Educational Leadership: Balancing Performance and Accountability stresses the human side of leadership. No other text on this topic demonstrates so ably the importance of artistry in leadership in a field that has been lopsidedly dominated by concepts informed by science. Presenting the idea that leadership is an art, this book: Exemplifies a balance between the science and the art of educational leadership: The real improvement of practice is rooted in the art of application, which is about context and represents the key to leadership practice. Connects content material to self-discovery: Exercises at the end of each chapter include creating a personal, reflective journal to engage the reader in and reflect upon theories and practices presented in the book. Films are suggested for viewing to illustrate the interaction between context, culture, decisions, and outcomes. Portrays multicultural leadership in action: Biography boxes throughout the book share how multicultural educational and political leaders who have been recognized as "expert" practitioners learned the art of leadership in the public arena. This is the first book in educational leadership to sketch out a balance between the science and the art of the field. The text illustrates how performance and practice represent

the art, while the delineation of the skills and conceptual models represent the science.

Contains alphabetically arranged entries that identify and assess the biographical materials available on over five hundred notable historical figures, listing autobiography and primary sources, recommended biographies and juvenile biographies, other biographical studies, biographical novels, fictional portraits, and biographical films and theatrical adaptations.

"The Death and Afterlife of Mahatma Gandhi is an explosive and original analysis of the assassination of the 'Father of the Nation'. Who is responsible for the Mahatma's death? Just one determined zealot, the larger ideology that supported him, the Congress-led Government that failed to protect him, or a vast majority of Indians and their descendants who considered Gandhi irrelevant, and endorsed violence instead? Paranjape's meticulous study culminates in his reading of Gandhi's last six months in Delhi where, from the very edge of the grave, he wrought what was perhaps his greatest miracle – the saving of Delhi and thus of India itself from the internecine bloodshed of Partition. Paranjape, taking a cue from the Mahatma himself, also shows us a way to expiate our guilt and to heal the wounds of an ancient civilization torn into two. This is a brilliant, far-reaching and profound exploration of the meaning of the Mahatma's death."

Now in its 4th edition, this popular text offers practical, interesting, exciting ways to teach social studies and a multitude of instructional and professional resources for teachers. Theory, curriculum, methods, and assessment are woven into a comprehensive model for setting objectives; planning lessons, units, and courses; choosing classroom strategies; and constructing tests for some of the field's most popular and enduring programs. The reflective and integrative framework emphasizes building imagination, insight, and critical thinking into everyday classrooms; encourages problem-solving attitudes and behavior; and provokes analysis, reflection, and debate. The text includes separate chapters on teaching each of the major areas of the social studies curriculum. Throughout the text, all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic (factual), reflective (analytical), and affective (judgmental) components. These three components are seen as supporting one another, building the groundwork for taking stands on issues, past and present. At the center is the author's belief that the heart and soul of social studies instruction, perhaps all teaching, lies in stimulating the production of ideas; looking at knowledge from others' viewpoints; and formulating for oneself a set of goals, values, and beliefs that can be explained and justified in open discussion.
