Sufism is a religion which emphasizes direct knowledge of the divine within each person, and meditation, music, song, and dance are seen as crucial spiritual strides toward attaining unity with God. Sufi paths of mysticism and devotion, motivated by Islamic ideals, are still chosen by men and women in countries from Morocco to China, and there are nearly one hundred orders around the world, eighty of which are present and thriving in the United States. The Chishti Sufi order has been the most widespread and popular of all Sufi traditions since the twelfth-century. Sufi Martyrs of Love offers a critical perspective on Western attitudes towards Islam and Sufism, clarifying its contemporary importance, both in the West and in traditional Sufi homelands. Finally, it provides access to the voices of Sufi authorities, through the translation of texts being offered in English for the first time.

In Gandhi and Leadership, Professor Dhiman explores the moral and spiritual philosophical foundations and context of Gandhi's approach to leadership. The book focuses on seven Gandhian values that are most relevant in the contemporary workplace.

NEW YORK TIMES BESTSELLER - Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. **NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH** The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means "dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life." The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to

achieve nothing less than a life of joy. Praise for Sadhguru and Inner Engineering "Contrarian and consistent, ancient and contemporary, Inner Engineering is a loving invitation to live our best lives and a profound reassurance of why and how we can."--Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* "I am inspired by Sadhguru's capacity for joy, his exuberance for life, and the depth and breadth of his curiosity and knowledge. His book is filled with moments of wonder, awe, and intellectual challenge. I highly recommend it for anyone interested in self-transformation."--Mark Hyman, M.D., director, Cleveland Clinic Center for Functional Medicine, and New York Times bestselling author "Inner Engineering is a fascinating read of Sadhguru's insights and his teachings. Akbarnama, or The History of Akbar, by Abu'l-Fazl (d. 1602), is one of the most important works of Indo-Persian history and a touchstone of prose artistry. Marking a high point in a long, rich tradition of Persian historical writing, it served as a model for historians across the Persianate world. The work is at once a biography of the Mughal emperor Akbar (r. 1556-1605) that includes descriptions of his political and martial feats and cultural achievements, and a chronicle of sixteenth-century India. The fifth volume details the bellicose seventeenth to twenty-second years of Akbar's reign, including accounts of the conquest of Gujarat, the capture of Rohtas fort from rebel Afghans, and the invasions of Patna and Bengal. The Persian text, presented in the Naskh script, is based on a careful reassessment of the primary sources. This is a thoroughly revised edition of the "Constructive Programme" which I first wrote in 1941. The items included in it have not been arranged in any order, certainly not in the order of their importance. When the reader discovers that a particular subject though important in itself in terms of Independence does not find place in the programme, he should know that the omission is not intentional. He should unhesitatingly add to my list and let me know. My list does not pretend to be exhaustive; it is merely illustrative. The reader will see several new and important additions.

Recounts the life and struggles of the Indian nationalist leader and discusses the origins of his philosophy of nonviolence, his campaigns for human rights, and his influence.

Explores citizenship, rights and belonging in post-Independence South Asia, examining the long-term impact of the 1947 Partition. "Mr. Townsend's fellow countrymen must feel themselves to be put under a beautiful obligation to him by his work entitled 'Kentucky in American Letters'. He has thus fenced off for the lovers of New World literature a well watered bluegrass pasture of prose and verse, which they may enter and range through according to their appetites for its peculiar green provender and their thirst for the limestone spring. This strip of pasture is a hundred years long; its breadth may not be politely questioned!"

-Introduction

Life and work of an Indian film actor and director.

This book covers the underexplored subject of 'fathering' in India. It delves into the shared aspirations of men in India to nurture their children in sensitively attuned ways within the culturally prescriptive context that governs men's roles as providers and caregivers. This work is based on over two decades of intensive research in India on how different groups construct and experience fatherhood and fathering under changing circumstances. It unmask the heterogeneity that exists within fathering in India through conversations with fathers across diverse contexts—in privileged economic situations and those in difficult home and family circumstances, having children with disability, single-parent fathers and fathers in the military. A separate section discusses fathering daughters and shared parenting. Images and role models in fathering are brought alive through analysis of Hindi films, the media, children's literature and classical literature. The conceptual analysis moves beyond the power and control dimensions commonly used to describe Indian men and fathers, to highlight their resilience, adaptability, positive involvement and developmental trajectories. This volume is for scholars, researchers and practitioners in developmental psychology, human development and family science, sociology, early childhood education and psychiatry, pediatrics, community medicine and allied fields.

A NEW YORK TIMES NOTABLE BOOK OF 2020 "An exemplary work of investigative journalism." —Parul Sehgal, The New York Times The murder of a Pakistani social media star exposes a culture divided between accelerating modernity and imposed traditional values—and the tragedy of those caught in the middle. In 2016, Pakistan's first social media celebrity, Qandeel Baloch, was murdered in a suspected honor killing. Her death quickly became a media sensation. It was both devastatingly routine and breathtakingly brutal, and in a new media landscape, it couldn't be ignored. Qandeel had courted attention and outrage with a talent for self-promotion that earned her comparisons to Kim Kardashian—and made her the constant victim of harassment and death threats. Social media and reality television exist uneasily alongside honor killings and forced marriages in a rapidly, if unevenly, modernizing Pakistan, and Qandeel Baloch's story became emblematic of the cultural divide. In this definitive and up-to-date account, Sanam Maher reconstructs the story of Qandeel's life and explores the depth and range of her legacy from her impoverished hometown rankled by her infamy, to the aspiring fashion models who follow her footsteps, to the Internet activists resisting the same vicious online misogyny she faced. Maher depicts a society at a crossroads, where women serve as an easy scapegoat for its anxieties and dislocations, and teases apart the intrigue and myth-making of the Qandeel Baloch story to restore the humanity of the woman at its center.

Reminiscences of the author, special assistant, 1946 to 1959, to Jawaharlal Nehru, 1889-1964, former Prime Minister of India.

The Life of Mahatma GandhiVintage

Dr Brown presents a political study of the first clearly defined period in Mahatma Gandhi's Indian career, from 1915 to 1922. The period began with Gandhi's return from South Africa as a stranger to Indian politics, witnessed his dramatic assertion of leadership in the Indian National Congress of 1920 and ended with his imprisonment by the British after the collapse of his all-India civil disobedience movement against the raj. Focusing on Gandhi, this book nevertheless investigates the changing nature of Indian politics. It aims to study precisely what Gandhi did, on whom he relied for support, how he interacted with other nationalist leaders and how he saw his own role in Indian public life. Unlike the usual interpretation of Gandhi's rise to power as based on a charismatic appeal to the Indian masses, this study argues that his influence depended on a capacity to generate a network of lesser leaders, or subcontractors, who would organise their constituencies for him, whether these were caste, communal or economic groups or whole areas.

The book contains 51 proverbs, reading which even a child might wonder that from where such proverbs actually originated. The interesting and entertaining stories of their origin are penned down in this book.

I don't write about my experiences with depression to defend the legitimacy of my pain. My pain is real; it does not come to me because of my lifestyle, and it is not taken away by my lifestyle. Unwittingly known as Alia Bhatt's older sister, screenwriter and fame-child Shaheen Bhatt has been a powerhouse of quiet restraint-until recently. In a sweeping act of courage, she now invites you into her head. Shaheen was diagnosed with depression at eighteen, after five years of already living with it. In this emotionally arresting memoir, she reveals both the daily experiences and big picture of one of the most debilitating and critically misinterpreted mental illnesses in the twenty-first century. Equal parts conundrum and enlightenment, Shaheen takes us through the personal pendulum of understanding and living with depression in her privileged circumstances. With honesty and a profound self-awareness, Shaheen lays claim to her sadness, while locating it in the universal fabric of the human condition. In this multi-dimensional, philosophical tell-all, Shaheen acknowledges, accepts and overcomes the peculiarities of living with depression. A topic of massive interest to anyone with mental health disorders, I've Never Been (Un)Happier stretches out its hand to gently provide solace and solidarity.
