About the book and author

God is real. And for the first time, experimental and observable science reveals his existence. Throughout history, many have argued the existence of God, yet discussions of the Divine have been limited to the realm of philosophy and religion. But what if nature could reveal its creator? And what if science could provide compelling evidences that we have never seen before? What if the identity of the creator behind the origin of our universe can be known for certain? What if... This is what The Ambassador of God, a ground breaking look at our cosmic origin, has

provided. In this probing book, difficult questions are answered. As renowned scientists and thinkers challenge the biblical narratives for our cosmic origin, The Ambassador of God uncovers the mysteries that have been hidden from human eyes. Using compelling evidences from astronomy to investigate the underpinnings of the Bible, The Ambassador of God provides a 'cosmic objective certainty' for the existence of a universal Creator. Additionally, it unveils a well of exhaustive insights that eliminates ambiguities in our understanding. How is it possible that God is one and three distinct persons, but not three Gods? Why is the earth and the human body mostly water? Who created the sun, moon and stars? What about aliens and the other solar planets? What is the mystery and purpose behind human existence and other life forms on our planet earth? Why are we here and how did we first arrive on this planet? How do we come to understand divinity in the current scheme of scientific reasoning? How do we make peace with the grand designer behind it all? Readers seeking answers to these questions (and other similar questions) will find them here. They will not find dogma. Instead, they will embark on a journey-an experimental voyage through the lens of science that reveals the mind of God. In a "show" rather than "tell" fashion and a template that's more coherent than any prevailing secular science view, we shall find who God is! Who

is the Author? Olumide Sanya is a contemporary poet and writer. Beside poetry and writing, Lumi, as he is affectionately known, helps others to achieve their dreams as a life coach. Unusually drawn to books between the ages of 4 - 9, Lumi neither enjoyed reading nor read books but spent his childhood years looking for abandoned tomes that he turned into a formidable collection. Despite being a non-reader, he realised the dream of becoming a writer in his tender years and for more than 12 years, he abandoned this dream. ...Until one day, God paid him a visit. But it didn't start there, it began with falling in love and writing poems about love and heartbreaks but that's another story for another year. "God has a sense of humor," says Lumi. "It's not hard to see that if you know my story-where I've been, where I'm at, and what God has planned for my tomorrow. What is most important to recognize is what God can do with a 'nobody' like me." The Ambassador of God, he notes, is not just about answers to large existential questions "It is also a road map that offers optimism and guidance in today's confused and increasingly complex modern world." You don't have to be a physics professor or a philosopher to understand Sanya's work. The Ambassador of God aims to open discussion and understanding at the broadest possible level. It is written for everyday people.

Nearly seventy years after the Civil War, Natchez, Mississippi, sold itself to Depression-era tourists as a place "Where the Old South Still Lives." Tourists flocked to view the town's decaying antebellum mansions, hoopskirted hostesses, and a pageant saturated in sentimental Lost Cause imagery. In Remembering Dixie: The Battle to Control Historical Memory in Natchez, Mississippi, 1865–1941, Susan T. Falck analyzes how the highly biased, white historical memories of what had been a wealthy southern hub originated from the experiences and hardships of the Civil War. These collective narratives eventually culminated in a heritage tourism enterprise still in business today.

Additionally, the book includes new research on the African American community's robust efforts to build historical tradition, most notably, the ways in which African Americans in Natchez worked to create a distinctive postemancipation identity that challenged the dominant white structure. Using a wide range of late nineteenth- and early twentieth-century

sources—many of which have never been fully mined before—Falck reveals the ways in which black and white Natchezians of all classes, male and female, embraced, reinterpreted, and contested Lost Cause ideology. These memory-making struggles resulted in emotional, internecine conflicts that shaped the cultural character of the community and impacted the national understanding of the Old South and the Confederacy as popular culture. Natchez remains relevant today as a microcosm for our nation’s modern-day struggles with Lost Cause ideology, Confederate monuments, racism, and white supremacy. Falck reveals how this remarkable story played out in one important southern community over several generations in vivid detail and richly illustrated analysis.

Few people have read as widely in the field of Canadiana as has John Robert Colombo. The curiosity of this Toronto writer, editor, and anthologist knows few if any bounds when it comes to the lore, literature, history, culture, and character of Canada. He has an inquiring mind and he seems able to find national and even international twists to subjects of interest or importance. Fascinating Canada, his latest book, is the product of over half a century of research, reading, writing, and thinking. Some years ago the author produced a trilogy of question-and-answer books 1,000 Questions about Canada, 999 Questions about Canada, 1,000 Questions about Canada. The first two were published by Doubleday Canada, the third one in 2001 by Dundurn Press. The same format is adapted to the material in the present book, but this time the majority of the questions are short whereas a good many of the answers are quite long discussions of the subjects at hand: concise questions followed by considered answers. Here is a book about the Canadian past, present, and future. The information in Fascinating Canada is organized under four headings (People, Places, Things,

“A charming portrait of an ancient and beautiful house in Kent [and] a poignant and amusing portrait of the English class system.” —Simon Winchester From lavish palace for Elizabethan nobles to dreary jailhouse for eighteenth-century prisoners of war, from well-manicured country house for a string of landed families to weed-choked ruin, Sissinghurst, in Kent, has become one of the most illustrious estates in England—and its future may prove to be just as intriguing as its past. In the 1930s, English poet Vita Sackville-West and her husband, Harold Nicolson, acquired land that had once been owned by Vita’s ancestors. Together they created elaborate gardens filled with roses, apple trees, vivid flowers, and scenic paths lined with hedges and pink brick walls. Vita, a gardening correspondent for the Observer and a close friend of Virginia Woolf, opened Sissinghurst to the public. But the thriving working farm began to change after her death. Her son Nigel instituted sweeping changes, including transferring ownership of the estate to Britain’s National Trust in 1967 to avoid extensive taxation. For author Adam Nicolson, the grandson of Harold and Vita, Sissinghurst was always more than a tourist attraction; it was his home. As a boy, Nicolson hiked the same trails that Roman conquerors walked centuries before. With wistful imagination, fascination with natural beauty, and connection to the land, Nicolson has returned home to restore Sissinghurst’s glory. His journey to recreate a sustainable and functioning farm, despite resistance from the National Trust, makes for a compelling

The stuffed animal then turns out to be more than she bargained for when the bear starts to grow a tail and red eyes.
