A time to reflect on my seventy years of life. Maybe some folks will be interested in my life and the folks I have met, or maybe not. This is a non-traditional memoir, filled with alphabetical vignettes not chronological ones. I have made a foray into fiction with an asterisk: in those cases where I have marked the vignette as fictional, it might be 100 percent not true, but in many cases I knew of, was part of, or heard from others about the story itself. At any rate, the entire book is my recollection of things past, and as in all recollections, the more distant the memory the clearer the details.

The stories in this anthology hold an element of surprise for Western readers who expect an Indian narrative technique and an Indian fabric of life. Olives have long been a part of human social tradition, and they have been cultivated in gardens since time immemorial. It was believed that olives could not flourish in lands, which were 35 miles away from the sea, because they needed a special type of climate. But that is not really true, because you can grow an olive tree, in a place, where there is plenty of water, where the winters are mild and in areas with Mediterranean climates. The native olive tree – *Olea europaea* – is considered to be a Mediterranean plant, because after all the ancient Romans and the Greeks used olive leaves as an important symbol – especially of peace. Holding out an olive branch meant PAX and not war. Even the gods blessed the olive tree, and

allowed it to flourish on their land, making it prosperous through the sale of olives! Archaeological surveys in Jordan on sites going back more than 5000 years have found domesticated olives in abundance. So is it a surprise that a garden without an olive tree would be considered to be incomplete even in those ancient days. Apart from using olives in a diet, olive oil was also used since ancient times for cooking purposes. Apart from that, olive oil was used as a healthy massage oil by Romans, Babylonians, Egyptians, and other ancient civilizations in ancient times.
