King Solomon transformed the tiny tribal nation of Israel into an economic and military superpower. His brilliance as an international financier made Israel the wealthiest nation of the ancient world. And he did it with integrity. Solomon left us twenty-eight profound leadership strategies--as valid today as when the proverbs were written. The same extraordinary wisdom that transformed Solomon's world can revolutionize every aspect of leadership--from assembling a cohesive team to managing a crisis--for any CEO, manager, pastor, coach, military strategist, or government leader. Pat Williams, senior vice president of the Orlando Magic, uses time-honored principles, real-life stories, and compelling takeaways to apply Solomon's ancient insights to the high-speed world in which we live today.

The project "Ja-Ling" ("Janua Linguarum", "The Gateway to Languages" following the title of a work by Comenius) aims at more widespread dissemination and curricular insertion of activities promoting linguistic and cultural education in their diversity. The main objective is to create synergy between linguistic learning, within the framework of the teaching both of more languages and more diversified languages.

Educating children and leading them towards the path of bilingualism is a valuable and challenging task for any educator. Effective language teaching can contribute to young learners' cognitive growth, develop their problem-solving skills, enhance their comprehension abilities, and provide children with the satisfaction of succeeding in the challenge of learning a foreign language. All these issues must be taken under consideration when researching children and their teachers. The current literature indicates that further material is needed to provide professionals with different classroom situations and enhance the art of teaching children. Teaching Practices and Equitable Learning in Children's Language Education focuses on various perspectives of efficient practices, approaches, and ideas for professional development in the field of young language learners. The chapters in this book link the theoretical understanding and practical experience of teaching children languages

by concentrating on teaching practices, material design, classroom management, reading, speaking, writing, and more. This book is designed for inservice and preservice teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students interested in the field of early language learning and applied linguistics at large.

Sometime after Andy Warhol's heyday but before Soho became a tourist trap, a group of poets, punk rockers, guerilla journalists, graffiti artists, writers, and activists transformed lower Manhattan into an artistic scene so diverse it became known simply as "Downtown."

Willfully unpolished and subversively intelligent, figures such as Spalding Gray, Kathy Acker, Richard Hell, David Wojnarowicz, Lynne Tillman, Miguel Piñero, and Eric Bogosian broke free from mainstream publishing to produce a flood of fiction, poetry, experimental theater, art, and music that breathed the life of the street. The first book to capture the spontaneity of the Downtown literary scene, *Up Is Up, But So Is Down* collects more than 125 images and over 80 texts that encompass the most vital work produced between 1974 and 1992.

Reflecting the unconventional genres that marked this period, the book includes flyers, zines, newsprint

weeklies, book covers, and photographs of people and the city, many of them here made available to readers outside the scene for the first time. The book's striking and quirky design—complete with 2-color interior—brings each of these unique documents and images to life. Brandon Stosuy arranges this hugely varied material chronologically to illustrate the dynamic views at play. He takes us from poetry readings in Alphabet City to happenings at Darinka, a Lower East Side apartment and performance space, to the St. Mark's Bookshop, unofficial crossroads of the counterculture, where home-printed copies of the latest zines were sold in Ziploc bags. Often attacking the bourgeois irony epitomized by the New Yorker's short fiction, Downtown writers played ebulliently with form and content, sex and language, producing work that depicted the underbelly of real life. With an afterword by Downtown icons Dennis Cooper and Eileen Myles, *Up Is Up, But So Is Down* gathers almost twenty years of New York City's smartest and most explosive—as well as hard to find—writing, providing an indispensable archive of one of the most exciting artistic scenes in U.S. history.

Through performance and the spoken word, Yucatec Maya storytellers have maintained the vitality of their literary traditions for more than five hundred years. *Telling and Being Told* presents the figure of the storyteller as a symbol of indigenous cultural control in contemporary Yucatec Maya literatures. Analyzing the storyteller as the embodiment of indigenous knowledge in written and oral texts, this book highlights how Yucatec Maya literatures play a vital role in imaginings of Maya culture and its relationships with Mexican and global cultures. Through performance, storytellers place the past in dynamic relationship with the present, each continually evolving as it is reevaluated and reinterpreted. Yet non-indigenous actors often manipulate the storyteller in their firsthand accounts of the indigenous world. Moreover, by limiting the field of literary study to written texts, Worley argues, critics frequently ignore an important component of Latin America's history of conquest and colonization: The fact that Europeans consciously set out to destroy indigenous

writing systems, making orality a key means of indigenous resistance and cultural continuity. Given these historical factors, outsiders must approach Yucatec Maya and other indigenous literatures on their own terms rather than applying Western models. Although oral literature has been excluded from many literary studies, Worley persuasively demonstrates that it must be included in contemporary analyses of indigenous literatures as oral texts form a key component of contemporary indigenous literatures, and storytellers and storytelling remain vibrant cultural forces in both Yucatec communities and contemporary Yucatec writing.

Skills in English Reading Level 1 Teacher's Book The Garnet Education Skills in English series was highly commended in the Duke of Edinburgh English Speaking Union English Language Book Award in 2004. Do you have to read texts in English as part of your studies? Then you need Skills in English Reading. This course builds the skills that help you do reading research in English. At Level 2, you learn how to: skim for the main idea; skim for the topic of paragraphs; read for an established purpose; understand non-text markers; distinguish fact from opinion; make inferences - 'read between the lines'; recognise the author's point of view; apply ideas to real-world situations; transfer information, e.g., text to outline; and react to a text. As well as preparing students for entry into English-medium study, the Skills in English Course is ideal for students who wish to improve their scores in skills-based examinations for university entry requirements, such as the International English Language Testing System (IELTS). Rather than focusing on exam preparation, Skills in English teaches the necessary skills as part of a systematic programme of language development.
