A revision guide, workbook and practice paper all-in-one, and then some! Alternatively, the Collins Combined Science Higher Revision Guide (9780008160791), Workbook (9780008326678) and Practice Test Papers (9780008321475) are available for purchase separately.

Revision is serious business... and we're serious about revision. Inside this Revision Guide you'll find everything you need to succeed in the new GCSE 9-1 Science examinations. It is packed full of tips and tasks to make sure you really know and understand the key revision points. Written by Science experts and combined with cutting edge technology to help you revise on-the-go, you can: * Use the free, personalised digital revision planner and get stuck into the quick tests to check your understanding * Download our free revision cards which you can save to your phone to help you revise on the go * Implement 'active' revision techniques - giving you lots of tips and tricks to help the knowledge sink in Snap it! Read it, snap it on your phone, revise it...helps you retain key facts Nail it! Examiner tips to help you get better grades Stretch it! Support for the really tough stuff that will get you higher grades The perfect companion... GCSE 9-1 Science Practice Book * 100s of practice questions * Exam techniques explained * Matches 9-1 specification

Series Editor: Mark Levesley Pearson's resources are designed to be simple, inclusive and inspiring and to support students in studying for Edexcel GCSE (9-1) Combined Science.

This Foundation Workbook is designed to support the development of key literacy and numeracy skills of students in the 1-4 grade range, as well as building confidence in answering open response questions. The amount of scaffolded support decreases throughout the workbook to encourage independent learning. - Summarises all the Foundation content to be learned for each topic - Provides plenty of practice questions - Builds confidence by showing how to answer questions or work through calculations - Helps students to improve their answers by focusing on use of key scientific vocabulary, how to link key concepts, and work with graphs Each topic opens with a bulleted summary of the key ideas, reminding students of the key scientific vocabulary and equations they should be able to recall. The questions begin with confidence-building, low demand questions (multiple choice, matching, sentence completion or

closed short answer) leading to more open questions including calculations as part of structured questions. The questions include applying and analysing as well as recall, for example bringing in skills used in analysing results from practical work. Frequent support notes provide hints and tips on key vocabulary, how to answer open response questions (for example by writing causal explanations), strategies for decoding questions (for example by identifying key words in the question) and how to interpret information from tables and graphs. 'Show me' writing frames demonstrate how to build longer answers, how to work with equations in science and how to convert units. In later pages the level of scaffolding is gradually reduced by removing the guided support so that students are supported in becoming independent learners throughout their GCSE course.

Exam Board: AQA Level & Subject: GCSE Biology First teaching: September 2016 First exams: June 2018 AQA approved

Exam Board: AQA, Edexcel, OCR & WJEC Eduqas Level: GCSE Grade 9-1 Subject: Combined Science First Teaching: September 2016, First Exams: June 2018 Left your GCSE Grade 9-1 Combined Science revision to the last minute?
