Written specifically for the Foundation and Intermediate tier GCSE for the AQA Modular GCSE Specification B. This clearly presented book will help all students looking to achieve a grade C in GCSE maths. An ideal, stand-alone resource for students doing the GCSE course in one year including students resitting modules.

This book has been specially written to help you revise for the New GCSE Maths Higher Exams (Grade 9-1) for Edexcel. Its main aim is to work towards getting a very good or excellent grade in the exam. That is grade 7, 8 or even 9. If you work through most of the examples in this book as well as the practice questions you are very likely to pass with top grades. This book has many worked examples and practice questions to help you become familiar with what to expect in the exam.

A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B specification, this brand new course is written to match the demands of the specification. As well as providing thorough and rigorous coverage of the spec, this book is designed to engage students in their learning and to motivate them to progress.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Written for the AQA GCSE Mathematics Foundation tier specification for first teaching from 2015, our Homework Book is an ideal companion to the AQA Foundation tier Student Book and can be used as a standalone resource. With exercises that correspond to each section of the Student Book, it offers a wealth of additional questions for practice and consolidation. Our Homework Books contain a breadth and depth of questions covering a variety of skills, including problem-solving and mathematical reasoning, as well as extensive drill questions. Answers to all questions are available free on

the Cambridge University Press UK Schools website.

Test questions are provided for each chapter of this textbook, together with detailed mark schemes to make assessment easy. Two versions of each question are provided. One allows pupils to write their answers in the spaces provided and the other requires pupils to have separate writing paper. Questions can be grouped according to needs. Master grids are provided to cut and paste tests together in a consistent format to use the resource in any order. Chapter tests can be grouped to form a module test after chapters. End-of-chapter examinations can also be produced in this way. A free non-calculator supplement organized by unit/chapter is also included in this resource.

How to Teach Maths challenges everything you thought you knew about how maths is taught in classrooms. Award-winning author Steve Chinn casts a critical eye over many of the long-established methods and beliefs of maths teaching. Drawing from decades of classroom experience and research, he shows how mathematics teaching across the whole ability range can be radically improved by learning from the successful methods and principles used for the bottom quartile of achievers: the outliers. Chinn guides readers through re-adjusting the presentation of maths to learners, considering learners' needs first, and explains the importance of securing early learning to create a conceptual foundation for later success. This highly accessible book uses clear diagrams and examples to support maths teachers through many critical issues, including the following: The context of maths education today Topics that cause students the most difficulty Effective communication in the mathematics classroom Addressing maths anxiety The perfect resource for maths teachers at all levels, this book is especially useful for those wanting to teach the foundations of mathematics in a developmental way to learners of all ages and abilities. It has the potential to change the way maths is taught forever.

How to Achieve 100% in a GCSE - Guide to GCSE Exam and Revision Technique Written by a teenager for teenagers, this simple guide guarantees success in your GCSE's. Having achieved 10 A* grades (4 with a score of 100%), the author shares practical tips on exam and revision technique, including specific subject advice. The book is written with the belief that everyone has the potential to achieve 100% in a GCSE. "What a fantastic book! A truly great idea. I wish the book had been around years ago when I was doing my O and A levels. Rob makes some excellent points and the book is full of good sense." - Lorna Read, Editor, Writing Ltd

These collections of the official past papers of the GCE O Level Examinations from the University of Cambridge International Examinations has been developed for students of GCE O level.

All trainee teachers in England and Wales have to sit numeracy and literacy skills tests in order to achieve Qualified Teacher Status (QTS) which permits them to continue or start teaching. How to Pass the QTS Numeracy and Literacy Skills Test is the only book available that includes both literacy and numeracy revision and mock tests. The numeracy section starts at a low level and includes a diagnostic test, a maths review, mental and general arithmetic practice, and revision of statistics. It gives the reader a good grounding in the skills needed to pass the test, particularly if maths has always been a weak subject. The literacy section includes practice material on spelling, punctuation, grammar and comprehension. It highlights the areas where people commonly have problems, and provides easy to follow explanations and practice questions and answers. This book comes with FREE audio files for mental arithmetic tests. To download them please visit: <http://www.koganpage.com/qts>

GCSE Maths

Exam Board: WJEC Level: GCSE Subject: Mathematics First Teaching: September 2015 First Exam: June 2017 Maximise your students' grade potential with a step-by-step approach that builds confidence through topic summaries, worked examples and exam style questions - Identify areas of improvement to focus on through diagnostic tests for each topic. - Develop exam skills and techniques with skills-focused exam-style questions and exam advice on common pitfalls. - Build understanding and confidence with clear explanations of each topic covering all the key information needed to succeed. - Consolidate revision with 'two weeks to go' summaries for each topic.

Consolidate revision with 'two weeks to go' summaries for each topic.
