SSB Lecture Topics Part-1 eBook [100 Topics]SSBCrack

Women perform 66% of the world's work, produce 50% of the food, but earn 10% of the income and own 1% of the property. To shed light on why this grim statistic still holds true, *Women, Business and the Law* aims to examine legal differentiations on the basis of gender in 143 of the world's economies. *Women, Business and the Law* tracks governments' actions to expand economic opportunities for women across six key areas: accessing institutions, using property, getting a job, providing incentives to work, building credit and going to court. The report uncovers legal differentiations for women and married versus unmarried women such as being able to register a business, open a bank account and work at night. These issues are of fundamental importance. When, because of tradition, social taboos or simple prejudice, half of the world's population is prevented from making its contribution to the life of a nation, the economy will suffer. The empirical evidence does suggest that, slowly but surely, governments are making progress in expanding opportunities for women. It is our hope that data presented in *Women, Business and the Law* will both facilitate research on linkages between legal differentiation and outcomes for women, and promote better informed policy choices on what governments can do to expand opportunities for women.

Have you ever... - Wanted to work at an exciting futuristic company? - Struggled with an interview problem that could have been solved in 15 minutes? - Wished you could study real-world computing problems? If so, you need to read *Elements of Programming Interviews (EPI)*. EPI is your comprehensive guide to interviewing for software development roles. The core of EPI is a collection of

over 250 problems with detailed solutions. The problems are representative of interview questions asked at leading software companies. The problems are illustrated with 200 figures, 300 tested programs, and 150 additional variants. The book begins with a summary of the nontechnical aspects of interviewing, such as strategies for a great interview, common mistakes, perspectives from the other side of the table, tips on negotiating the best offer, and a guide to the best ways to use EPI. We also provide a summary of data structures, algorithms, and problem solving patterns. Coding problems are presented through a series of chapters on basic and advanced data structures, searching, sorting, algorithm design principles, and concurrency. Each chapter starts with a brief introduction, a case study, top tips, and a review of the most important library methods. This is followed by a broad and thought-provoking set of problems. A practical, fun approach to computer science fundamentals, as seen through the lens of common programming interview questions. Jeff Atwood/Co-founder, Stack Overflow and Discourse

A Complete Kit for Group Discussion

Am I fit to be an Officer in the Armed Forces? What is an Officer Like Personality? Am I capable of being a Leader? Where do I need support? I deserved it. I don't know where I went wrong! Why do the Repeaters most of the times get rejected in Stage 1 only? Why do the recommended candidates sometimes get conferenced out in their next attempt? Can I improve my Officer Like Qualities? Can a candidate who has been repeatedly rejected improve, change or transform himself? This book is an effort to help the Freshers and the Repeaters alike to be more receptive towards developing their personality while simultaneously making them aware of the selection process.

Even though youth crime rates have fallen since the mid-1990s, public fear and political rhetoric over the issue have heightened. The Columbine shootings and other sensational incidents add to the furor. Often overlooked are the underlying problems of child poverty, social disadvantage, and the pitfalls inherent to adolescent decisionmaking that contribute to youth crime. From a policy standpoint, adolescent offenders are caught in the crossfire between nurturance of youth and punishment of criminals, between rehabilitation and "get tough" pronouncements. In the midst of this emotional debate, the National Research Council's Panel on Juvenile Crime steps forward with an authoritative review of the best available data and analysis. Juvenile Crime, Juvenile Justice presents recommendations for addressing the many aspects of America's youth crime problem. This timely release discusses patterns and trends in crimes by children and adolescents--trends revealed by arrest data, victim reports, and other sources; youth crime within general crime; and race and sex disparities. The book explores desistance--the probability that delinquency or criminal activities decrease with age--and evaluates different approaches to predicting future crime rates. Why do young people turn to delinquency? Juvenile Crime, Juvenile Justice presents what we know and what we urgently need to find out about

contributing factors, ranging from prenatal care, differences in temperament, and family influences to the role of peer relationships, the impact of the school policies toward delinquency, and the broader influences of the neighborhood and community. Equally important, this book examines a range of solutions: Prevention and intervention efforts directed to individuals, peer groups, and families, as well as day care-, school- and community-based initiatives. Intervention within the juvenile justice system. Role of the police. Processing and detention of youth offenders. Transferring youths to the adult judicial system. Residential placement of juveniles. The book includes background on the American juvenile court system, useful comparisons with the juvenile justice systems of other nations, and other important information for assessing this problem.

An interview is a turning point in the life of a candidate who has spent years in academic education. Failing in an interview can not only deprive a candidate of the job opportunity but also can reduce the confidence. Similarly clearing an interview can open a new world of opportunity and help develop self-confidence. As in any aspect in life, one who is well prepared has an advantage over those who have not. In order to prepare a candidate a first time job applicant or someone who is planning to change a job Get Your Dream Job presents a scientific step-by- step approach to prepare for an interview. Some highlights: How to Prepare for an Interview Dressing for Success in Interview 2 Secrets that Determine 93% of Interview Success Secrets of a Successful Telephonic Interview Most Common and Tricky Interview Questions and Their Answers Job Interview Blunders and How to Avoid Them What to do 24 Hours Before the Interview How to Follow-up After the Interview Interview Success Stories.

A visionary entrepreneur and the founder of Cavalier India and Excel Training Academy, he is also known for his SSB coaching classes that are one of the most reputed in the country.

There are no specific rules to prepare for a GD. And no one knows what the topic of GD is going to be. This book includes topics that are likely to be put by the Group Testing Officer before the candidates to gauge their personality and leadership qualities. It will be a good idea to keep yourself abreast with topics from: 1. Current Affairs - Current Affairs is something that you have to be thorough with. Understand the recent crises affecting the world, latest developmental initiatives, and important national & global events. 2. Historical topics- Have a fair knowledge about the history of India and the world. Having historical information will help you cite examples and make references whenever needed. 3. Sports, Arts & Literature - In these topics, try to have a decent idea about what is popular, who are the leaders in each area, the latest that has happened in these areas. 4. Data crunching - Do familiarize yourself with important data. Throwing in some data if required in your GD will definitely create an impression among the assessors. Speak with a measure of confidence on the given topic; and secure the nod of the evaluator.

The author, who held senior positions in MNCs, has put the essence of his decades of corporate experience into a comprehensive and complete volume on 'Group Discussion'. Beginning with common myths and pitfalls, the Do's and Don'ts of the test, he goes on to discuss at length the pre-requisites for a good preparation.

This comprehensive account of the human herpesviruses provides an encyclopedic overview of their basic virology and clinical manifestations. This group of viruses includes human simplex type 1 and 2, Epstein–Barr virus, Kaposi's Sarcoma-associated herpesvirus, cytomegalovirus, HHV6A, 6B and 7, and varicella-zoster virus. The viral diseases and cancers they cause are significant and often recurrent. Their prevalence in the developed world accounts for a major burden of disease, and as a result there is a great deal of research into the pathophysiology of infection and immunobiology. Another important area covered within this volume concerns antiviral therapy and the development of vaccines. All these aspects are covered in depth, both scientifically and in terms of clinical guidelines for patient care. The text is illustrated generously throughout and is fully referenced to the latest research and developments. Contributed articles; with reference to India.
