

Giovanni Paolo Bottesini As A Composer For The Tenor Voice

"This reference classic has approximately doubled in size since its last publication 20 years ago, and the expansion involves more than the thorough revision and addition of articles about music of the past. More articles about 20th-century composers and composer-performers have been added, as well as topical articles about the gender-related, multicultural, and interdisciplinary ways that music is now being studied. Add to these changes that New Grove is also available online, making it a source that would have made its many-faceted creator Sir George Grove proud"--Outstanding reference sources, *American Libraries*, May 2002.

A tribute to classical music from the West covers famous composers and such elements as the concerto, the symphony, choral works, and art songs; and introduces the concepts of differing musical keys, forms and movements, and instrumental color.

With this volume, Howard Smither completes his monumental *History of the Oratorio*. Volumes 1 and 2, published by the University of North Carolina Press in 1977, treated the oratorio in the Baroque era, while Volume 3, published in 1987, explored the genre in the Classical era. Here, Smither surveys the history of nineteenth- and twentieth-century oratorio, stressing the main geographic areas of oratorio composition and performance: Germany, Britain, America, and France. Continuing the approach of the previous volumes, Smither treats the oratorio in each language and geographical area by first exploring the cultural and social

contexts of oratorio. He then addresses aesthetic theory and criticism, treats libretto and music in general, and offers detailed analyses of the librettos and music of specific oratorios (thirty-one in all) that are of special importance to the history of the genre. As a synthesis of specialized literature as well as an investigation of primary sources, this work will serve as both a springboard for further research and an essential reference for choral conductors, soloists, choral singers, and others interested in the history of the oratorio. Cette histoire de la musique est un récit chronologique, une histoire qui se raconte à partir des grandes périodes historiques, repères partagés par tous, au-delà de l'histoire de l'art, mais aussi une mise en contexte de la musique, des pratiques musicales, de la sociologie de la musique, au regard des événements, dans le cours de l'histoire, mais encore un point de vue à partir d'oeuvres de référence, connues ou peu connues. Chaque oeuvre, chaque composition est prise et entendue comme un document, une expérience de son temps, comme un symbole, et la marque d'une époque. Mais enfin, c'est un récit qui veut donner des clés sur le contexte des oeuvres, ouvrir d'autres horizons, tisser des liens avec le présent, entre temps de l'événement et le temps long. Pourquoi écrire une nouvelle histoire de la musique occidentale ? Les réponses se trouvent parfois là où se trouvent les auteurs. Élisabeth Brisson est historienne, rompue à l'exercice de l'analyse de documents et de la contextualisation. Jérôme Thiébaux est pédagogue et

médiateur de la musique, habitué à la question de la transmission. Les points de vue se mêlent avec un point commun, moteur de l'écriture et de la recherche entre les deux auteurs : celui de donner à lire l'histoire de la musique occidentale pour tenter d'entendre autrement ; découvrir les environnements de la musique ; les relations des compositrices et compositeurs avec la société et les événements marquants de notre histoire européenne. Le fil conducteur de cette entreprise est cependant toujours le même : partager l'histoire pour mieux se plonger soi-même dans l'écoute et la découverte de notre patrimoine.

This study traces the earliest Italian participation in theatrical activities in New York City during colonial times and illustrates how community organizations were the first impetus for entertainments and drama after the mass immigration of the late 19th century. As a working class, permanent immigrant population grew, an identifiable and unique Italian-American theatre became possible, fulfilling a social need within the community.
