Du Lei was working on the jade feng shui street and had watched his shop suffer at night while battling with the other party. However, he was knocked unconscious by the thieves due to the jade stone, thus obtaining the memories of the Ancient Divine Beasts' hegemony.

From the precocious charms of Shirley Temple to the box-office behemoth Frozen and its two young female leads, Anna and Elsa, the girl has long been a figure of fascination for cinema. The symbol of (imagined) childhood innocence, the site of intrigue and nostalgia for adults, a metaphor for the precarious nature of subjectivity itself, the girl is caught between infancy and adulthood, between objectification and power. She speaks to many strands of interest for film studies: feminist questions of cinematic representation of female subjects; historical accounts of shifting images of girls and childhood in the cinema; and philosophical engagements with the possibilities for the subject in film. This collection considers the specificity of girls' experiences and their cinematic articulation through a multicultural feminist lens which cuts across the divides of popular/art-house, Western/non Western, and north/south. Drawing on examples from North and South America, Asia, Africa, and Europe, the contributors bring a new understanding of the global/local nature of girlhood and its relation to contemporary phenomena such as post-feminism, neoliberalism and queer subcultures. Containing work by established and emerging scholars, this volume explodes the narrow post-feminist canon and expands existing geographical, ethnic, and historical accounts of cinematic cultures and girlhood.

In these beautifully illustrated pages, a diverse cast of slumber party participants considers the most time-honored traditions for how to dress. If a lady should wear white in summertime, then how about donning a spacesuit? If team colors are apropos at sporting events, why not wear helmets and play ball? Uplifting and resonant, and with a variety of interests ranging from sports to science to politics, this book is sure to inspire any young girl, instilling the idea that the best way to dress like a girl is the way that makes you feel most like YOU!

Waking to a nightmare is the story of a girl's journey to become the Don of the largest crime syndicate in the Milky Way Galaxy. Twenty-year-old Keirah Darisk learns a lot of hidden truths and fights to figure this strange world out before it destroys her or, worse yet, she destroys it! Whichever comes first, all the while trying to cope and heal from the murder of her father. Will it ever just be okay?

Across the country, there's a youth-led rebellion challenging the status quo. In Seattle and Pittsburgh, teenage girls protest against companies that sell sleazy clothing. Online, a nineteen-year-old describes her struggles with her mother, who she feels is pressuring her to lose her virginity. In a small town outside Philadelphia, an eleventh-grade girl, upset over a "dirty book" read aloud in English class, takes her case to the school board. These are not your mother's rebels. Drawing on numerous studies and interviews, the brilliant Wendy Shalit makes the case that today's virulent "bad girl" mindset truly oppresses young women. She reveals how the media, one's peers, and even parents can undermine girls' quests for their authentic selves, and explains what it means to break from the herd mentality and choose integrity over popularity. Written with sincerity and upbeat humor, *The Good Girl Revolution* rescues the good girl from the realm of mythology and old manners guides to show that today's version is the real rebel. Society may perceive the good girl as "mild," but Shalit demonstrates that she is in fact the opposite. The new female role models are not "people pleasing" or repressed; they are outspoken and reclaiming their individuality. These empowering stories are sure to be an inspiration to teenagers and parents alike. Join the conversation at [www.thegoodgirlrevolution.com](http://www.thegoodgirlrevolution.com)

A trilogy of beautiful, dangerous, and cruel truth between adolescent girls...

Over the course of 66 days in 1967, more than 4,000 "class enemies"--including young children and the elderly--were murdered in Daoxian, a county in China's Hunan province. The killings spread to surrounding counties, resulting in a combined death toll of more than 9,000. Commonly known as the Daoxian massacre, the killings were one of many acts of so-called mass dictatorship and armed factional conflict that rocked China during the Cultural Revolution. However, in spite of the scope and brutality of the killings, there are few detailed accounts of mass killings in China's countryside during the Cultural Revolution's most tumultuous years. Years after the massacre, journalist Tan Hecheng was sent to Daoxian to report on an official investigation into the killings. Tan was prevented from publishing his findings in China, but in 2010, he published the Chinese edition of *The Killing Wind* in Hong Kong. Tan's first-hand investigation of the atrocities, accumulated over the course of more than 20 years, blends his research with the recollections of survivors to provide a vivid account exploring how and why the massacre took place and describing its aftermath. Dispelling the heroic aura of class struggle, Tan reveals that most of the Daoxian massacre's victims were hard-working, peaceful members of the rural middle class blacklisted as landlords or rich peasants. Tan also describes how political pressure and brainwashing turned ordinary people into heartless killing machines. More than a catalog of horrors, *The Killing Wind* is also a poignant meditation on memory, moral culpability, and the failure of the Chinese government to come to terms with the crimes of the Maoist era. By painting a detailed portrait of this massacre, Tan makes a broader argument about the long-term consequences of the Cultural Revolution, one of the most violent political movements of the twentieth century. A compelling testament to the victims and survivors of the Daoxian massacre, *The Killing Wind* is a monument to historical truth: one that fills an immense gap in our understanding of the Mao era, the Cultural Revolution, and the status of truth in contemporary China.
