postscript edition. In this postscript, we review some important developments that have occurred since the manuscript for the second edition of this book was sent to the publishers, and we discuss the implications of these developments for international business. One development has been the continuing globalization of the world economy. Here we update the statistics contained in this book and look at the 2001 slowdown in the rate of economic growth across the three major economies of the world—the United States, Japan and the European Union. The FDI is revisited and as well. A second important development has been the growing tide of protests against globalization. Here we review the reasons for the protests and discuss their implications. Another important development was the formal adoption of euro notes and coins by 12 nations of the European Union on January 1st, 2002. In this postscript edition, the progress of the euro to date is examined. The postscript closes with a review of the economic and political achievements of the twentieth century and a discussion of the outlook for the early years of the twenty first century.

Hodgetts'Luthans: International Management was the first mainstream International Management text in the market. Its 6th edition continues to set the standard for International Management texts with its research-based content and its balance between culture, strategy, and behavior. International Management stresses the balanced approach and the synergy/connection between the text's four parts: Environment (3 chapters): Culture (4 chapters), Strategy and Functions (4 chapters) and Organizational Behavior /Human Resource Management (4 chapters).

The success of the first ten editions of Global Business Today (and its longer, more in-depth textbook option and companion, International Business, now in the 12th edition) was based in part on the incorporation of leading-edge research into the text, the use of the up-to-date examples and statistics to illustrate global trends and enterprise strategy, and the discussion of current events within the context of the appropriate theory. Building on
