This is a book about why history matters. It shows how popularized historical images and narratives deeply influence Americans' understanding of their collective past. A leading public historian, Mike Wallace observes that we are a people who think of ourselves as having shed the past but also avid tourists who are on a "heritage binge," flocking by the thousands to Ellis Island, Colonial Williamsburg, or the Vietnam Memorial. Wallace probes into the trivialization of history that pervades American culture as well as the struggles over public memory that provoke stormy controversy. The recent imbroglio surrounding the National Air and Space Museum's proposed Enola Gay exhibit was reported as centering on why the U.S. government decided to use the A-Bomb against Japan. Wallace scrutinizes the actual plans for the exhibit and investigates the ways in which the controversy drew in historians, veterans, the media, and the general public. Whether his subject is multimillion dollar theme parks owned by powerful corporations, urban museums, or television docudramas, Mike Wallace shows how their depictions of history are shaped by assumptions about which pasts are worth saving, whose stories are worth telling, what gets left out, and who is authorized to make the decisions. Author note: Mike Wallace is Professor of History at John Jay College, City University of New York. He is the co-author, with Edwin G. Burrows, of *Gotham: A History of New York City to 1898*, winner of the 1999 Pulitzer Prize for History. InfoWorld is targeted to Senior IT professionals. From the bestselling author of the acclaimed *Chaos and Genius* comes a thoughtful and provocative exploration of the big ideas of the modern era: information, communication, and information theory. Acclaimed science writer James Gleick presents an eye-opening vision of how our relationship to information has transformed the very nature of human consciousness. A fascinating intellectual journey through the history of communication and information, from the language of Africa's talking drums to the invention of written alphabets; from the electronic transmission of code to the origins of information theory, into the new information age and the current deluge of news, tweets, images, and blogs. Along the way, Gleick profiles key innovators, including Charles Babbage, Ada Lovelace, Samuel Morse, and Claude Shannon, and reveals how our understanding of information is transforming not only how we look at the world, but how we live. A New York Times Notable Book A Los Angeles Times and Cleveland Plain Dealer Best Book of the Year Winner of the PEN/E. O. Wilson Literary Science Writing Award

Recounts how the American dream has been dismantled over the past forty years by legislative, electoral, and corporate decisions that have compromised the middle class and minimized individual economic and political power.

Do you have a real relationship with God, or do you just have a religion? Do you know God, or do you just know about God? In *How Big Is Your God?* Paul Coutinho, SJ, challenges us to grow stronger and deeper in our faith and in our relationship with God—a God whose love knows no bounds. To help us on our way, Coutinho introduces us to people in various world religions—from Hindu friends to Buddhist teachers to St. Ignatius of Loyola—who have shaped his spiritual

life and made possible his deep, personal relationship with God.

**NEW YORK TIMES BEST SELLER** • A grand, devastating portrait of three generations of the Sackler family, famed for their philanthropy, whose fortune was built by Valium and whose reputation was destroyed by OxyContin. From the prize-winning and bestselling author of *Say Nothing*, as featured in the HBO documentary *Crime of the Century*. The Sackler name adorns the walls of many storied institutions—Harvard, the Metropolitan Museum of Art, Oxford, the Louvre. They are one of the richest families in the world, known for their lavish donations to the arts and the sciences. The source of the family fortune was vague, however, until it emerged that the Sacklers were responsible for making and marketing a blockbuster painkiller that was the catalyst for the opioid crisis. *Empire of Pain* begins with the story of three doctor brothers, Raymond, Mortimer and the incalculably energetic Arthur, who weathered the poverty of the Great Depression and appalling anti-Semitism. Working at a barbaric mental institution, Arthur saw a better way and conducted groundbreaking research into drug treatments. He also had a genius for marketing, especially for pharmaceuticals, and bought a small ad firm. Arthur devised the marketing for Valium, and built the first great Sackler fortune. He purchased a drug manufacturer, Purdue Frederick, which would be run by Raymond and Mortimer. The brothers began collecting art, and wives, and grand residences in exotic locales. Their children and grandchildren grew up in luxury. Forty years later, Raymond's son Richard ran the family-owned Purdue. The template Arthur Sackler created to sell Valium—co-opting doctors, influencing the FDA, downplaying the drug's addictiveness—was employed to launch a far more potent product: OxyContin. The drug went on to generate some thirty-five billion dollars in revenue, and to launch a public health crisis in which hundreds of thousands would die. This is the saga of three generations of a single family and the mark they would leave on the world, a tale that moves from the bustling streets of early twentieth-century Brooklyn to the seaside palaces of Greenwich, Connecticut, and Cap d'Antibes to the corridors of power in Washington, D.C. *Empire of Pain* chronicles the multiple investigations of the Sacklers and their company, and the scorched-earth legal tactics that the family has used to evade accountability. The history of the Sackler dynasty is rife with drama—baroque personal lives; bitter disputes over estates; fistfights in boardrooms; glittering art collections; Machiavellian courtroom maneuvers; and the calculated

use of money to burnish reputations and crush the less powerful. *Empire of Pain* is a masterpiece of narrative reporting and writing, exhaustively documented and ferociously compelling. It is a portrait of the excesses of America's second Gilded Age, a study of impunity among the super elite and a relentless investigation of the naked greed and indifference to human suffering that built one of the world's great fortunes.

Will Evans's writings should find a special niche in the small but significant body of literature from and about traders to the Navajos. Evans was the proprietor of the Shiprock Trading Company. Probably more than most of his fellow traders, he had a strong interest in Navajo culture. The effort he made to record and share what he learned certainly was unusual. He published in the Farmington and New Mexico newspapers and other periodicals, compiling many of his pieces into a book manuscript. His subjects were Navajos he knew and traded with, their stories of historic events such as the Long Walk, and descriptions of their culture as he, an outsider without academic training, understood it. Evans's writings were colored by his fondness for, uncommon access to, and friendships with Navajos, and by who he was: a trader, folk artist, and Mormon. He accurately portrayed the operations of a trading post and knew both the material and artistic value of Navajo crafts. His art was mainly inspired by Navajo sandpainting. He appropriated and, no doubt, sometimes misappropriated that sacred art to paint surfaces and objects of all kinds. As a Mormon, he had particular views of who the Navajos were and what they believed and was representative of a large class of often-overlooked traders. Much of the Navajo trade in the Four Corners region and farther west was operated by Mormons. They had a significant historical role as intermediaries, or brokers, between Native and European American peoples in this part of the West. Well connected at the center of that world, Evans was a good spokesperson.

The critically acclaimed, award-winning, modern classic *Speak* is now a stunning graphic novel. "Speak up for yourself—we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless—an outcast—because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. Through her work on an art project, she is finally able to face what really happened that night: She was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. With powerful illustrations by Emily Carroll, Laurie Halse Anderson's *Speak: The Graphic Novel* comes alive for new audiences and fans of the classic novel. This title has Common Core connections.

The *Tongue and Quill* has been a valued Air Force resource for decades and many Airmen from our Total Force of uniformed and civilian members have contributed their talents to various editions over the years. This revision is built upon the foundation of governing directives and user's inputs from the unit level all the way up to Headquarters Air Force.

As the final files go to press it is the desire of *The Tongue and Quill* team to say thank you to every Airman who assisted in making this edition better; you have our sincere appreciation!

Eva Mozes Kor was just ten years old when she arrived in Auschwitz. While her parents and two older sisters were taken to the gas chambers, she and her twin, Miriam, were herded into the care of the man known as the Angel of Death, Dr. Josef Mengele. Subjected to sadistic medical experiments, she was forced to fight daily for her and her twin's survival. In this incredible true story written for young adults, readers learn of a child's endurance and survival in the face of truly extraordinary evil and Eva's recovery and her controversial but often misunderstood decision to publicly forgive the Nazis. Readers will learn of how she triumphed over unfathomable pain and suffering into a life-long work for peace, human rights, and Holocaust education. The new edition provides interesting details and important context to the events related in the original story. A new Afterword by publisher Peggy Porter Tierney offers a richer portrayal of Eva as a person, the truth behind the controversies, and the eventful last ten years of her life.

NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The Wall Street Journal* • *Financial Times* In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing

this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author “Sharp, provocative, and useful.”—Jim Collins “Few [books] become essential manuals for business and living. The Power of Habit is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good.”—Financial Times “A flat-out great read.”—David Allen, bestselling author of Getting Things Done: The Art of Stress-Free Productivity “You’ll never look at yourself, your organization, or your world quite the same way.”—Daniel H. Pink, bestselling author of Drive and A Whole New Mind “Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change.”—The New York Times Book Review

Paul Fisher sees the world from behind glasses so thick he looks like a bug-eyed alien. But he’s not so blind that he can’t see there are some very unusual things about his family’s new home in Tangerine County, Florida. Where else does a sinkhole swallow the local school, fire burn underground for years, and lightning strike at the same time every day? The chaos is compounded by constant harassment from his football–star brother, and adjusting to life in Tangerine isn’t easy for Paul—until he joins the soccer team at his middle school. With the help of his new teammates, Paul begins to discover what lies beneath the surface of his strange new hometown. And he also gains the courage to face up to some secrets his family has been keeping from him for far too long. In Tangerine, it seems, anything is possible.
