If money were about math, none of us would be carrying any debt. The numbers are simple. What's complicated is what we do with money. We use money to soothe our feelings and buy respect, to show how much we care or how little. We don't simply earn, save, and spend money: we flirt with it, crave it, and scorn it; we punish and reward ourselves with it. Without realizing it, we give money meaning it doesn't really have—what former psychiatrist and current business coach David Krueger calls our “money story.” And in the process of playing out that money story, we often sacrifice the most important things in our life: our health, freedom, relationships, and happiness. What is your money story? Do you consistently spend more than you have? Do you follow the herd in your investments—even though you know the herd is usually wrong? Have you neglected to save for the future, even when you have the means? Do you feel controlled or shackled by debt? Is your money somehow never “enough”? Is money, or the lack of it, always on your mind? The Secret Language of Money is a guided tour to the subconscious meanings we give money, the conflicted ways our brains deal with money, the reasons we tend to make the same money mistakes over and over—and most importantly, how you can change all that. A brilliant blend of cutting-edge science and real-world application, The Secret Language of Money helps you rewrite your money story and find that elusive balance of wealth, health, and joy we all seek. During economic contractions, it becomes much more

difficult to sell your products, maintain your customer base, and gain market share. Mistakes become more costly, and failure becomes a real possibility for all those who are not able to make the transition. But imagine being able to sell your products when others cannot, being able to take market share from both your competitors, and knowing the precise formulas that would allow you to expand your sales while others make excuses. *If You're Not First, You're Last* is about how to sell your products and services—despite the economy—and provides the reader with ways to capitalize regardless of their product, service, or idea. Grant shares his proven strategies that will allow you to not just continue to sell, but create new products, increase margins, gain market share and much more. Key concepts in *If You're Not First, You're Last* include: Converting the Unsold to Sold The Power Schedule to Maximize Sales Your Freedom Financial Plan The Unreasonable Selling Attitude

In *You Unstuck*, Libby Gill uses cases studies, client stories from her coaching work, and brain research to help readers understand the biological basis of fears that hold them back. She shows how to reframe what she calls Riskophobia, turn off the fear voices, and circumvent ancient defense systems. Readers can then create an Escalating Risk Hierarchy by "chunking down" their vision into small, actionable steps, ordered from least to most anxiety inducing. By combining stress-busting relaxation techniques with small action steps, the readers' odds for realizing their vision greatly increase in this Relax, Risk, Repeat cycle. Gill also shows readers how to "Avoid Limiters & Embrace Liberators," keeping naysayers at bay while seeking influential supporters who can help free their creativity and productivity. Capitalizing on her business background, coaching

expertise, and a personal history of risk-taking and resilience, Gill makes complex concepts relevant and accessible through immediately applicable tools, exercises, self-tests, and questionnaires that challenge readers to change.

From the bestselling authors of *The Go-Giver*, *Go-Givers Sell More*, and *The Go-Giver Leader* comes another compelling parable about the paradox of getting ahead by placing other people's interests first. *The Go-Giver Influencer* is a story about two young, ambitious businesspeople: Gillian Waters, the chief buyer for Smith & Banks, a midsized company that operates a national chain of pet accessory stores; and Jackson Hill, the founder of Angels Clothed in Fur, a small but growing manufacturer of all-natural pet foods. Each has something the other wants. To Jackson, Smith & Banks represents the possibility of reaching more animals with his products--if he can negotiate terms and conditions that will protect his company's integrity. To Gillian, Angels Clothed in Fur could give her company a distinctive, uniquely high-quality line that will help them stand out from their competitors--if Angels Clothed in Fur can be persuaded to give them an exclusive. At first, the negotiations are adversarial and frustrating. Then, coincidentally, Gillian and Jackson each encounter a mysterious yet kindly mentor. Over the next week, while neither one realizes the other is doing the same, both Gillian and Jackson learn the heart of both mentors' philosophies: *The Five Secrets of Genuine Influence*. The story ends in a way that surprises everyone--and with lessons we can all apply in our efforts to resolve

conflicts and influence others.

“Always be closing!” —Glengarry Glen Ross, 1992

“Never Be Closing!” —a sales book title, 2014 “?????”

—salespeople everywhere, 2017 For decades, sales managers, coaches, and authors talked about closing as the most essential, most difficult phase of selling. They invented pushy tricks for the final ask, from the “take delivery” close to the “now or never” close. But these tactics often alienated customers, leading to fads for the “soft” close or even abandoning the idea of closing altogether. It sounded great in theory, but the results were often mixed or poor. That left a generation of salespeople wondering how they should think about closing, and what strategies would lead to the best possible outcomes. Anthony Iannarino has a different approach geared to the new technological and social realities of our time. In *The Lost Art of Closing*, he proves that the final commitment can actually be one of the easiest parts of the sales process—if you’ve set it up properly with other commitments that have to happen long before the close. The key is to lead customers through a series of necessary steps designed to prevent a purchase stall. Iannarino addressed this in a chapter of *The Only Sales Guide You’ll Ever Need*—which he thought would be his only book about selling. But he discovered so much hunger for guidance about closing that he’s back with a new book full of proven tactics and useful examples. *The Lost Art of Closing* will help you win customer commitment at ten essential points along the purchase journey. For instance, you’ll discover how to:

- Compete on value, not price, by securing a

Commitment to Invest early in the process. - Ask for a Commitment to Build Consensus within the client's organization, ensuring that your solution has early buy-in from all stakeholders. - Prevent the possibility of the sale falling through at the last minute by proactively securing a Commitment to Resolve Concerns. The Lost Art of Closing will forever change the way you think about closing, and your clients will appreciate your ability to help them achieve real change and real results.\

What do you do at work when a hundred crises seem to be happening at the same time? Do you pick just one priority or try to put out every fire? How can you stay composed, figure out what really matters, and act decisively? When former U.S. Navy SEAL sniper Brandon Webb transitioned to civilian life, he struggled to get his first startup business off the ground. He raised millions for his new venture, only to lose it all as problems spiraled out of his control. In the wake of that failure, Webb realized that successful entrepreneurs need a skill he had already mastered: total focus. SEAL snipers define it as the ability to filter out noise and chaos so you can make life-or-death decisions under the extreme conditions of combat. If he could maintain total focus while staring through crosshairs at a man who

might (or might not) be an Al Qaeda terrorist, surely he could do the same in the business world. So Webb started over, applying total focus to a new startup, a media company called Hurricane Group. His approach was so effective that in just five years, Hurricane grew to have a staff of over fifty, an audience in the tens of millions, and a valuation of more than \$100 million. In this book, Webb teaches us to make better decisions under extreme pressure by emulating the habits of his fellow warriors, as well as other skills he learned on the job and from great friends and business leaders like Solomon Choi of 16 Handles, Matt Meeker of BarkBox, and Betsy Morgan of the Huffington Post and TheBlaze. For instance, you'll discover:

- The difference between total focus and tunnel vision is developing total situational awareness: the ability to spot opportunities and threats without getting distracted from your goal.
- You can overcome indecisiveness and hesitancy by accepting violence of action: a decision to move forward with an imperfect plan, knowing that even the best-laid plans go wrong.
- Entrepreneurs must learn to embrace the suck, refusing to quit when the going gets brutal, and recognizing that unexpected challenges may reveal your best shot at success. By following the tactics and wisdom of a generation of legendary snipers and business leaders, you'll find the clarity of mind you need to accomplish your own mission—whatever it takes.

Christina's playful desserts, including the compost cookie, a chunky chocolate-chip cookie studded with crunchy salty pretzels and coffee grounds; the crack pie, a sugary-buttery confection as craveable as the name implies; the cereal milk ice cream, made from everyone's favorite part of a nutritious breakfast—the milk at the bottom of a bowl of cereal; and the easy layer cakes that forgo fancy frosting in favor of unfinished edges that hint at the yumminess inside helped the restaurants earn praise from the New York Times and the Michelin Guide and led to the opening of Milk Bar, which now draws fans from around the country and the world. With all the recipes for the bakery's most beloved desserts—along with ones for savory baked goods that take a page from Chang's Asian-flavored cuisine, such as Kimchi Croissants with Blue Cheese—and 100 color photographs, Momofuku Milk Bar makes baking irresistible off-beat treats at home both foolproof and fun. There will come a time when you must decide to lead the life someone else has chosen for you...or the life you want. According to legend, when a young boy asked the great Renaissance artist Michelangelo why he was working so hard hitting the block of marble that would eventually become his greatest sculpture, David, the artist replied, “Young man, there is an angel inside this rock, and I am setting him free.” In *The Angel Inside*, the renowned consultant and career coach Chris Widener uses Michelangelo’s words to explore the hidden potential that exists within us all. In this unforgettable tale, Tom Cook, a disillusioned American businessman, has traveled to Italy looking for direction in his life. In Florence, the last city on his tour, Tom meets a mysterious old man who opens his eyes to the art and life of Michelangelo and reveals what the artist’s work can teach him—and all of us—about the power of following your passion. At that point, our relationship is weakened and our influence dramatically decreased. There has to be a better way. Drawing on his own experiences and the stories of other influential people, communication expert Bob Burg offers five simple principles of what he calls **Ultimate Influence**—the ability to win people to your side in a way that leaves everyone feeling great about the outcome. A groundbreaking New York Times and Wall Street Journal bestseller that is captivating readers of Malcolm Gladwell, Daniel Pink, The Power of Habit, and Quiet For generations, we have focused on the individual drivers of success: passion, hard work, talent, and luck. But today, success is increasingly dependent on how we interact with others. It turns out that at work, most people operate as either takers, matchers, or givers. Whereas takers strive to get as much as possible from others and matchers aim to trade evenly, givers are the rare breed of people who contribute to others without expecting anything in return. Using his own pioneering research as Wharton's youngest tenured professor, Grant shows that these styles have a surprising impact on success.

Although some givers get exploited and burn out, the rest achieve extraordinary results across a wide range of industries. Combining cutting-edge evidence with captivating stories, this landmark book shows how one of America's best networkers developed his connections, why the creative genius behind one of the most popular shows in television history toiled for years in anonymity,

how a basketball executive responsible for multiple draft busts transformed his franchise into a winner, and how we could have anticipated Enron's demise four years before the company collapsed--without ever looking at a single number. Praised by bestselling authors such as Dan Pink, Tony Hsieh, Dan Ariely, Susan Cain, Dan Gilbert, Gretchen Rubin, Bob Sutton, David Allen, Robert Cialdini, and Seth Godin--as well as senior leaders from Google, McKinsey, Merck, Estée Lauder, Nike, and NASA--Give and Take highlights what effective networking, collaboration, influence, negotiation, and leadership skills have in common. This landmark book opens up an approach to success that has the power to transform not just individuals and groups, but entire organizations and communities.

With their national bestseller *The Go-Giver*, Bob Burg and John David Mann took the business world by storm, showing that giving is the most fulfilling and effective path to success. That simple, profound story has inspired hundreds of thousands of readers around the world-but some have wondered how its lessons stand up to the tough challenges of everyday real-world business. Now Burg and Mann answer that question in *Go-Givers Sell More*, a practical guide that makes giving the cornerstone of a powerful and effective approach to selling. Most of us think of sales as convincing potential customers to do something they don't really want to. This mentality sets up an adversarial relationship and makes the sales process much harder than it has to be. As Burg and Mann demonstrate, it's far more productive (and satisfying) when salespeople think like Go-Givers.

Cultivate a trusting relationship and focus exclusively on creating value for the other person, say the authors, and great results will follow automatically. Drawing on a wide range of examples of real-life salespeople who have prospered by giving more, Burg and Mann offer tips and strategies that anyone in sales can start applying right away.

“I met last week with your leaders,” Ben began. “I heard what they had to say. And you know, they make a good point.” He paused. Take charge, Ben, he told himself. Take control. He looked around the conference room. Take, take, take. Was that really what he was here to do? With their acclaimed bestseller *The Go-Giver*, Bob Burg and John David Mann proved that a heartfelt parable could also express a powerful idea. In *The Go-Giver Leader* (originally published as *It’s Not About You*), they offer an equally compelling tale about a struggling small business and the ambitious young executive trying to lead them to a crucial decision. Allen & Augustine has manufactured high-quality chairs for decades. Its people take pride in their work and feel loyal to their owners and management team. But this revered company is now at a crossroads, hurt by a tough economy, foreign competition, and a cash crunch. The air is filled with the scent of uncertainty, anxiety, perhaps even panic. Into this setting enters Ben, who’s been assigned by a larger firm to promote a merger that will rescue Allen & Augustine. Ben’s facts are undeniable: the chair maker can either merge and modernize or go bankrupt and vanish. So why can’t he persuade anyone to buy in, from the CEO on down? Will Ben find a way to

sway the employee shareholders before the climactic vote? And can Allen & Augustine survive without losing its soul? The answers may surprise you as you follow Ben on his journey to understanding that the path to genuine influence lies less in taking leadership than in giving it. This revised and updated edition includes a new introduction, a discussion guide, and a Q&A with the authors.

Desperate to land a key sale at the end of a bad quarter, he seeks advice from the enigmatic Pindar, a legendary consultant referred to by his many devotees simply as the Chairman. #1 New York Times Bestseller “THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In *Think Again*, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I’ve never felt so hopeful about what I don’t know.” —Brené Brown, Ph.D., #1 New York Times bestselling author of *Dare to Lead* The bestselling author of *Give and Take* and *Originals* examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us

worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom.

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, *Atlas Shrugged*

is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America's best-loved novels by PBS's The Great American Read. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. Atlas Shrugged, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists.

Full of stories, clinical advice, and accessible takeaways, People Fuel outlines the twenty-two relational nutrients we all need to cultivate good relationships that provide energy, focus, and the support you need to succeed. We all need more energy, the vitality that helps us stay motivated, focused and productive in life. We know we receive energy from good nutrition, along with working out, adequate sleep and maintaining positivity. But there

is another major source for the energy we need: having the right kinds of relationships with others. Not the ones that drain us, but the ones that refuel us. In his new book, Dr. John Townsend, psychologist, leadership expert and coauthor of the New York Times bestselling *Boundaries*, shows you how we need the fuel of "Relational Nutrients" from others, and, in turn we can then provide them to others. Our bodies require physical nutrients to stay healthy. If we don't take enough iron, we can develop anemia. Too little calcium can lead to bone disease. In the same way, John identifies the key Relational Nutrients that we need. As we experience these critical elements from others, we grow mentally and emotionally more sharp and healthy. And as we give these elements back, others benefit as well. Finally, Dr. Townsend details the specific types of people who can either be energy sources or energy drains, and gives concrete steps to help you cultivate relationships with those who will help you be all you were meant to be. The person who taught you how to have boundaries now helps you to experience the best from those people you have allowed into your boundaries.

Why work for someone else when you can call your own shots, pursue your dreams, and find success on your terms by starting your own business? So many people end up bored with their jobs, stuck in the corporate grind, never following their true passions. As wildly successful young entrepreneur Cameron Johnson shows, you don't have to live that way. We've entered a new age of entrepreneurship, with the Web making it easier than ever to start and run your own company. As Johnson's

remarkable story reveals, the entrepreneurial way of life is a great way to make sure you love what you do -- and it offers the potential to achieve extraordinary success by following your gut instincts and going for what you really want. What about the risks? Don't you need lots of money? Don't most start-ups fail? Johnson shares his essential secrets to entrepreneurial success that show you how he got into the life at very low risk, and, with very little money, took an idea that excited him and ran with it, achieving great success and satisfaction with businesses he loved. He didn't have an MBA; he didn't even have a college degree. But he had learned the simple yet vital secrets he reveals. Cameron Johnson is a seriously happy entrepreneur who started his first business when he was nine with \$50 and a home computer. Before he'd turned twenty-one he'd started twelve successful businesses and was offered \$10 million in venture capital to grow his hot Web company CertificateSwap.com -- praised by Entrepreneur magazine as one of the Web businesses helping the tech industry get its groove back -- even bigger. He has never taken out a loan or racked up any debt, and every one of his businesses has been highly profitable -- so profitable that he made his first million before graduating from high school, and he's put away enough cash so that he could retire today. But that's the last thing on earth he'd want to do; he's much too happy starting up new companies. Through the story of his own impressive career so far, in *You Call the Shots*, Johnson takes you behind the scenes of entrepreneurial success and empowers you to hit the ground running with your own

great business idea, no matter how young you are or how little money you have to invest.

The *Go-Giver* tells the story of an ambitious young man named Joe who yearns for success but is frustrated in his efforts. Over the course of one week, through encounters with an enigmatic consultant named Pindar and a series of Pindar's friends, Joe learns that changing his focus from getting to giving--putting others' interests first and continually adding value to their lives--ultimately leads to unexpected returns. Imparted with wit and grace, *The Go-Giver* is a classic bestseller that brings to life the old proverb "Give and you shall receive." Originally intended for adult readers, *The Go-Giver* touched a chord in readers from all walks of life--including avid young readers, from middle school through college age. Shortly after its 2007 publication the book was picked up by Randy Stelter, a high school English teacher and athletic director in the northwest Indiana school system. Randy used the book to help enhance his students' perspective on "what it's going to take to be successful in the real world," and has taken his school's senior class through the book every year since. Soon other educators began following suit, adopting the book as part of their curricula at every level from high school through graduate school. Now Randy has teamed up with *Go-Giver* authors Bob Burg and

John David Mann to create this Teacher's Guide, a detailed lesson plan that includes vocabulary lists, assigned readings, questions for comprehension, extensive topics for class discussion, questions for critical thinking, and a set of final projects designed to deepen students' understanding of the book and to ground its lessons in their own everyday experience. While designed as a high school curriculum, the Guide's content and approach can also be adapted for use in higher-education settings.
