"The fullest account yet of the rise of one of the most profitable, most powerful, and oddest businesses the world has ever seen." -San Francisco Chronicle Just eleven years old, Google has profoundly transformed the way we live and work-we've all been Googled. Esteemed media writer Ken Auletta uses the story of Google's rise to explore the future of media at large. This book is based on the most extensive cooperation ever granted a journalist, including access to closed-door meetings and interviews with industry legends, including Google founders Larry Page and Sergey Brin, Marc Andreessen, and media guru "Coach" Bill Campbell. Auletta's unmatched analysis, vivid details, and rich anecdotes illuminate how the Google wave grew, how it threatens to drown media institutions, and where it's taking us next.

Nephilim are descended from Angels. Everyone knows the Angels died out eons ago. But not all Nephilim believe that. My grandfather didn't, and neither does my brother. With time running out and Ibira Corp not far behind, suddenly we're in a race to decipher the clues. My name is Zeph Angelis And I've got an Angel to find.

A revealing portrait of one of the world's finest, yet most opaque, companies—and the quiet genius who made it thrive Ken Auletta set out to locate one of the world's most prosperous businesses and explain its formula for success. He searched for an enterprise with a vivid chief executive and found that company in Schlumberger Limited, a multinational oilfield services firm with skyrocketing profits and a reputation as one of the best-managed global corporations. Auletta also found his fascinating CEO in Jean Riboud, a man who had eluded media attention even though he had guided Schlumberger for 2 decades. In this compelling portrait, Auletta brings the notoriously low-profile executive to life, detailing his unique style of management and the unusual corporate culture he nurtured. A self-proclaimed socialist from France, Riboud fought in the resistance during World War II, was captured by the Nazis, and was held prisoner at the Buchenwald concentration camp. He joined Schlumberger as an assistant and quickly rose through the company's ranks. Although he was admired for his fierce drive

for perfection and eye for long-term planning and expansion, Riboud distanced himself from his corporate cohorts and instead socialized with a diverse group of artists, writers, and politicians. Brilliant and paradoxical, Riboud makes for a fascinating subject in Auletta's comprehensive and illuminating book.

The inside account of a financial meltdown that reshaped Wall Street In 1983, Lew Glucksman, then co-CEO of the heralded investment bank Lehman Brothers, demanded the resignation of chairman Pete Peterson, with whom he had long argued over how to manage the company. Shockingly, Peterson, who had taken charge a decade earlier and led Lehman from near collapse to record profits, agreed to step down. In this meticulously researched volume, Ken Auletta details the turmoil, infighting, and power struggles that brought about Peterson's departure and the eventual sale of one of Wall Street's oldest and most prestigious firms. Set against the backdrop of the 1980s stock exchange, where hotshot young traders made and lost millions in a single afternoon, the story of Lehman's fall is a suspenseful battle of wills between bankers, traders, and executives motivated by greed, envy, and ego. Auletta, who conducted hundreds of hours of interviews and was granted access to private company records, has crafted a thorough, enduring, and engaging account of pivotal events that continued to influence this storied financial institution until its ultimate demise in 2008.

start from an assumption that the old ways of doing things can be improved and made more efficient, an approach that has yielded remarkable results? Google will generate about \$20 billion in advertising revenues this year, or more than the combined prime-time ad revenues of CBS, NBC, ABC, and FOX. And with its ownership of YouTube and its mobile phone and other initiatives, Google CEO Eric Schmidt tells Auletta his company is poised to become the world's first \$100 billion media company. Yet there are many obstacles that threaten Google's future, and opposition from media companies and government regulators may be the least of these. Google faces internal threats, from its burgeoning size to losing focus to hubris. In coming years, Google's faith in mathematical formulas and in slide rule logic will be tested, just as it has been on Wall Street. Distilling the knowledge accrued from a career of covering the media, Auletta will offer insights into what we know, and don't know, about what the future holds for the imperiled industry.
