In this voluminous Book in a series by the Author on corruption, fraud and economic crime, with indepth analysis, transcending forensic accounting, he brilliantly reveals, with incisive diametrics, irrefutable evidence of criminality, in the construction of Colombo Hilton Hotel by Mitsui & Taisei, Japan, with Architects, Kanko Kikaku Sekkeisha Yozo Shibata & Associates successful civil prosecution by Author led to Japanese writing-off US \$ 207 Mn. He establishes beyond reasonable doubt, that original Architectural Plans had been suppressed / destroyed by a staged fire, with amended Architectural Plans surreptitiously substituted being cannibalized Sheets, with incongruous elevations, whereby such Plans could not be approved. Meticulously probing into elevations on Floor Sheets and Cross-Sectional Sheets, which crucial aspect had been overlooked by professional architectural investigations, he proves the shortfall of floors, with the elevations on tampered Sheets bearing tell tale evidence of being identical, with elevations in the cross-sections of the Project Plan, upon which Hilton International formulated Profitability Forecasts, to obtain State Guarantees from Sri Lanka Government, to finance this construction, which was a major fraud perpetrated on the people, rendering such guarantees null and void. Shockingly revealed are perverse endeavours, including by Auditors, KPMG Ford, Rhodes, Thornton & Co., to cover-up this massive fraud, involving upper echelons, with socio-political / international ramifications. Appallingly, criminal investigations were significantly abandoned, on advice of Attorney General. Securities Exchange Commission colluded to cover-up, whilst Chartered Accountants Institute endeavoured to whitewash miscreants. This is a revealingly absorbing Book of real experiences of the Author, in exposing and combating, a despicable fraud on the people, which to him was a crime against humanity, and would be invaluable to investigators and prosecutors of commercial frauds and crimes, and civil society urging equal enforcement of the rule of law. February issue includes Appendix entitled Directory of United States Government periodicals and subscription publications; September issue includes List of depository libraries; June and December issues include semiannual index

'Colombo Hilton Hotel Construction' – 'Fraud on Sri Lanka Government' – 'Sri Lanka's First Derivative Action in Law', startlingly unravels the major fraud on the Government of Sri Lanka by reputed multi-nationals, colluding with socio-politically influential, endeavouring to fraudulently 'siphon out a large scale of foreign exchange on government guarantees', , which was successfully prevented through injunctions affirmed by the Supreme Court of Sri Lanka. 'On sovereign guarantees of the Government of Sri Lanka, the Colombo Hilton Hotel was to be constructed, equipped and furnished, on a 'turnkey fixed price basis' by a Japanese consortium comprising Mitsui & Co. Ltd., and Taisei Corporation, supervised and designed by Kanko Kikaku Sekkeisha Yozo Shibata & Associates, with technical assistance in planning and construction from Hilton International, United States of America, who were to operate and manage the Hotel. During construction a staged fire allegedly destroyed all plans and documents, and surreptitiously the original plans substituted, and the hotel constructed with two floors short and without the basements contrary to the original plans, based upon which Sri Lanka Government guarantees had been obtained. 'The book essentially reveals the process of litigation by one minority shareholder, single-handedly combating socio-politically powerful influential fraudulent miscreants; lucidly narratively setting out pleadings, counter-affidavits, further pleadings, interrogatories,

pre-trial processes, objections, written submissions, District and Appeal Court orders, and the landmark historic judgment by the Supreme Court of Sri Lanka, demonstrating its independence in pronouncing – ‘in the given circumstances the Government could not be indifferent’, – resulting in the Japanese multi-nationals writing-off a colossal sum of US \$ 207 million in 1995. ‘This is an invaluable and indispensable research book for both academics and professionals of law, particularly on the rights of minority shareholders in corporates, and for those interested in the combat of fraud and corruption at the highest levels in a country.

This Book appallingly unravels insights into fiscal mismanagement devoid of public accountability, under the purview of IMF, World Bank, ADB, international developmental agencies, et al. Perverse amnesties were surreptitiously enacted into law by Parliament, transgressing the social contract and public trust doctrine, also frustrating the right of the citizenry to challenge their constitutionality. Amnesties granted immunity and pardon for offences, such as, terrorism funding, money laundering, drug peddling, human trafficking, proceeds of crime, etc., in contravention of international conventions, including UN Security Council Resolution on terrorism financing. The Supreme Court condemned the Statute, as 'inimical to the rule of law', 'violative of the Universal Declaration of Human Rights and International Covenant on Civil & Political Rights', and 'had defrauded public revenue, causing extensive loss to the State'. Consequent controversy resulted in the ouster of the Government, with the new Government repealing the perverse law; however, with strange resistance against enforcement ! The Book also reveals how Parliament ignored an Auditor General's Special Report on gross negligence of revenue administration and colossal VAT frauds, with tardy enforcement of the 'rule of law'. ! The Book also deals with challenges in the Supreme Court against the Appropriation Bill, the Budget, for non-disclosure of borrowings and for lacking transparency, with the Ministry of Finance being castigated for operating a 'Budget within a Budget', with dubious expenditures, sans accountability. This Book reveals realities in fiscal mismanagement at highest levels, disclosing indifference and condoning by international agencies ! This is an invaluable Book for advocates of good governance and combat of economic crime, fraud and corruption, and those interested in public finance and law, and constitutional obligations of social contract and public trust.

This book brings together, for the first time, studies of the professionalisation of accountancy in key constituent territories of the British Empire. The late nineteenth century was a period of intensive activity in terms of both imperialism and professionalisation. A team of expert contributors has examined profession-state engagements between Britain, on the one hand and Canada, South Africa, Australia, Nigeria, Malaysia, Sri Lanka, Jamaica, Trinidad and Tobago, India and Kenya, and the other with a view to assessing how the organizations of accountancy in the colonies was affecting the metropolitan profession and state agents- and vice versa. Their contributions highlight the peculiarities of the professionalization processes in variant social, economic and political environments linked together by the relays of empire, prompting reflection on both the common and disparate dynamics involved. This book has numerous objectives, including giving historical insight and focus on countries that provide contrasting and variant examples of the uptake of the "British model", and broadening the appeal of accounting history and professionalisation as a taught subject

`Socio-political realities' at the highest levels in society are lucidly revealed by the Author documenting real life experiences, in interacting with Presidents, Prime Ministers and Ministers, demonstrating their subservience to international pressures by influential powerful countries, and their shameless shielding of fraudulent/corrupt Ministers/Officers. Author discloses non-enforcement of the rule of law, even by Attorney Generals, against those affluent and powerful, eventhough the rule of law is the cornerstone of democracy. There is shocking revelation, of how Japanese Government, through Diplomats, pressurized to settle and cover-up a colossal fraud, blatantly perpetrated on a country and impoverished people, to prevent criminal prosecution thereof; even inducingly offering to negotiate with a terrorist organization, to resolve the issue of armed terrorism, ironically created by social injustice, including economic terrorism. Constitutional Minister, President's Counsel, charged for fraud utters blatant falsehoods. Justice Minister and Foreign Minister, President's Counsel, both scholarly alumni of Oxford University, camouflages to whitewash fraud, taking duplicitous stances. This Book is in two Sections, one dealing with `Political and

Diplomatic Hypocrisy', and the other on an 'Ad Hominem Legislation - Expropriation Law', enacted in violation of UN Universal Declaration of Human Rights, and ultra-vires the Constitution. How the country's highest judiciary deals with challenges to the perverse legislative process is revealing, with shocking disclosure of the Chief Justice's husband being given plum political office, with a scandalous controversy exploding in the public domain; just as the Author applies for a review of the pre-enactment Determination by Chief Justice for such Statute, as having been made per-incuriam and ultra-vires the Constitution, adducing additional grounds of perceived bias, upon which Their Lords of Appeal exercising inherent jurisdiction, in similar circumstances, rescinded a previous Judgment of the House of Lords in extradition proceedings re - Chilean President Pinochet.
