The twelfth edition of the EFA Global Monitoring Report marking the 2015 deadline for the six goals set at the World Education Forum in Dakar, Senegal, in 2000 provides a considered and comprehensive accounting of global progress. As the international community prepares for a new development and education agenda, this report takes stock of past achievements and reflects on future challenges. There are many signs of notable advances. The pace towards universal primary education has quickened, gender disparity has been reduced in many countries and governments are increasing their focus on making sure children receive an education of good quality. However, despite these efforts, the world failed to meet its overall commitment to Education for All. Millions of children and adolescents are still out of school, and it is the poorest and most disadvantaged who bear the brunt of this failure to reach the EFA targets.

preparing outlines, utilizing research tools, writing, editing, proofreading, and revising reports. The book includes an end-of-book review and answer key.

High-stakes accountability and the growing move towards standardized testing are placing teacher knowledge and assessment skills under ever-increasing scrutiny. Teachers know what is going on in their classrooms and have first-hand reliable evidence of what their students can accomplish. They can be the major factor in student assessment and help their students better demonstrate what they have learned. Smart Tests shows educators how to create well-structured evaluation tools that match assessment tasks to the purpose and content of instruction. Teachers learn how to relate testing directly to classroom goals and activities and make assessment an integral part of learning and teaching, not just the end result. They will find the information they need to build assessment tasks that give students in grades K-8 the opportunity to succeed. These tasks encourage students to apply new knowledge, reflect and defend their thoughts and opinions, and connect what they learn the world beyond the classroom.

Write on! Write with students in grades 4 and up using Student Booster: Writing Poetry. This 32-page book sparks students' interest in reading and writing poetry. This 48-page book captures readers' enthusiasm with interesting, age-appropriate stories and activities relating to inventions. The book includes activities that reinforce difficult comprehension skills and improve reading levels. It is great for use in the

classroom and at home!

Language, Literacy, and Learning in Primary Schools is a synthesis of the findings arising from four years of policy research and development in Nigeria's primary schools that focused on the gap between what teachers should know and be able to do, and the realities of teaching and learning in classrooms. It begins by critically examining the outcomes of primary schooling as measured by learning achievement results from national assessments, and by identifying some core learning problems for Nigerian primary school children. It reviews the findings from recent research reports that studied teaching and learning processes in primary school classrooms, and it identifies the pedagogical issues in primary classrooms that contribute to poor learning achievements. This report describes a research and development program that set out to improve teaching and learning in core learning skill areas of the curriculum. This study identifies priority areas for teachers' professional development. It suggests a policy framework for the continuing professional development of primary school teachers, including the initial preparation of teachers and their induction into teaching. It proposes medium and long-term strategies to bring about the desired changes in teaching and learning through school-based approaches to teacher development.

Bring the outside inside the classroom using Learning about Birds for grades 4 and up! This 48-page book covers classification, appearance, adaptations, and endangered species. It includes questions, observation
