Planning Process Drama Pamela Bowell, Brian S. Heap, 2013 Process drama is now firmly established, internationally, as a powerful and dynamic pedagogy. This clear and accessible book provides a practical, step-by-step guide to the planning of process drama. Ἡδυπάθεια Arcestratus (of Gela.), S. Douglas Olson, Alexander Sens, 2000 Arcestratos of Gela was the author of a mock-epic poem, most likely entitled the Hedupatheia or Life of Luxury, that presented itself as a gastronomic tour of the Mediterranean world. Written sometime in the first two-thirds of the fourth century BCE, the Hedupatheia was widely read in the late classical and early Hellenistic periods and was translated into Latin by Ennius, through whom it influenced the work of later Roman poets including Horace. It survives today in fragments totalling about 330 lines. The Hedupatheia is a fundamental source for our understanding not only of fourth-century literature but also of the significance of food and dining and the reception of epic poetry in late classical society. This edition is based on a fresh examination of the manuscripts and is the first to combine an authoritative critical text of the fragments with a translation, a detailed philological and historical commentary, and an extensive introduction situating the poem in its literary, social, and cultural context.

Bread of Dreams Piero Camporesi, 2023-07-17 Piero Camporesi is one of the most original and exciting cultural historians in Europe today. In this remarkable book he examines the imaginative world of poor and ordinary people in pre-industrial Europe, exploring their everyday preoccupations, fears and fantasies. Camporesi develops the startling claim that many people in early modern Europe lived in a state of almost permanent hallucination, drugged by their hunger or by bread adulterated with hallucinogenic herbs. The use of opiate products, administered even to children and infants, was widespread and was linked to a popular mythology in which herbalists and exorcists were important cultural figures. Through a careful reconstruction of the everyday imaginative life of peasants, beggars and the poor, Camporesi presents a vivid and disconcerting image of early modern Europe as a vast laboratory of dreams. Bread of Dreams is a rich and engaging book which provides a fresh insight into the everyday life and attitudes of people in pre-industrial Europe.

Camporesi's vision is breathtaking and his work will be much discussed among social and cultural historians. This edition includes a Preface by Roy Porter, Professor of the History of Medicine at the Wellcome Institute for the History of Medicine.
