As the world moves into the twentieth century, Minke, one of the few European-educated Javanese, optimistically starts a new life in a new town: Betawi. With his enrollment in medical school and the opportunity to meet new people, there is every reason to believe that he can leave behind the tragedies of the past. But Minke can no more escape his past than he can escape his situation as part of an oppressed people under a foreign power. As his world begins to fall apart, Minke draws a small but fervent group around him to fight back against colonial exploitation. During the struggle, Minke finds love, friendship, and betrayal—with tragic consequences. And he goes from wanting to understand his world to wanting to change it. Pramoedya's full literary genius is again evident in the remarkable characters that populate the novel—and in his depiction of a people's painful emergence from colonial domination and the shackles of tradition.

The pictures in television commercials, magazine advertisements and other forms of advertising often convey meanings that cannot be expressed as well, or at all, through words or music. Visual Persuasion is an exploration of the uniquely visual aspects of advertising. Because of the implicit nature of visual argumentation and the relative lack of social accountability which images enjoy in comparison with words, pictures can be used to make advertising claims that would be unacceptable if spelled out verbally. Taking this as a starting point, Paul Messaris analyzes a variety of commercial, political and social issue advertisements. He also discusses the role of images in cross-cultural advertising.

Published in Indonesia in 2005, The Rainbow Troops, Andrea Hirata's closely autobiographical debut novel, sold more than five million copies, shattering records. Now it promises to captivate audiences around the globe. Ikal is a student at the poorest village school on the Indonesian island of Belitung, where graduating from sixth grade is considered a remarkable achievement. His school is under constant threat of closure. In fact, Ikal and his friends—a group nicknamed the Rainbow Troops—face threats from every angle: skeptical government officials, greedy corporations hardly distinguishable from the colonialism they've replaced, deepening poverty and crumbling infrastructure, and their own low self-confidence. But the students also have hope, which comes in the form of two extraordinary teachers, and Ikal's education in and out of the classroom is an uplifting one. We root for him and his friends as they defy the island's powerful tin mine officials. We meet his first love, the unseen girl who sells chalk from behind a shop screen, whose pretty hands capture Ikal's heart. We cheer for Lintang, the class's barefoot math genius, as he bests the students of the mining corporation's school in an academic challenge. Above all, we gain an intimate acquaintance with the customs and people of the world's largest Muslim society. This is classic storytelling in the spirit of Khaled Hosseini's The Kite Runner: an engrossing depiction of a milieu we have never encountered before, bursting with charm and verve.

Pidato kebudayaan Mochtar Lubis (1977) di Taman Ismail Marzuki (TIM) diterbitkan menjadi buku berjudul Manusia Indonesia. Karena gaya dan sikapnya yang lugas dalam mengupas terutama sifat-sifat negatif orang Indonesia, buku ini menimbulkan pendapat pro dan kontra, selain membangkitkan pemikiran kritis tentang manusia Indonesia. Sifat-sifat manusia Indonesia yang dimaksud ialah munafik, tidak mau bertanggungjawab, berperilaku feodal, percaya pada takhyul, berbakat seni, dan lemah karakternya. Stereotipe ini tentu saja tidak semuanya benar,

namun tidak juga seluruhnya salah. Ketika reformasi sedang berkembang, sosok manusia Indonesia seperti dilukiskan di atas lebih kuat lagi aktualitas dan relevansinya. beberapa penyebabnya ialah pendidikan, sistem, dan struktur politik yang ikut mengentalkan sifat-sifat negatif tersebut. dari kedua sudut pandang tersebut, buku Manusia Indonesia menyajikan bahan dan permulaan kerangka yang berguna untuk membangun kembali manusia Indonesia yang sedang porak-poranda.

Laura Patterson is an American exchange student in Rome who, fed up with being inexpertly groped by her young Italian beaux, decides there's only one sure-fire way to find a sensual man: date a chef. Then she meets Tomasso, who's handsome, young -- and cooks in the exclusive Templi restaurant. Perfect. Except, unbeknownst to Laura, Tomasso is in fact only a waiter at Templi -- it's his shy friend Bruno who is the chef. But Tomasso is the one who knows how to get the girls, and when Laura comes to dinner he persuades Bruno to help him with the charade. It works: the meal is a sensual feast, Laura is utterly seduced and Tomasso falls in lust. But it is Bruno, the real chef who has secretly prepared every dish Laura has eaten, who falls deeply and unrequitedly in love. A delicious tale of Cyrano de Bergerac-style culinary seduction, but with sensual recipes instead of love poems.

The Female BrainHarmony

Since Dr. Brizendine wrote The Female Brain ten years ago, the response has been overwhelming. This New York Times bestseller has been translated into more than thirty languages, has sold nearly a million copies between editions, and has most recently inspired a romantic comedy starring Whitney Cummings and Sofia Vergara. And its profound scientific understanding of the nature and experience of the female brain continues to guide women as they pass through life stages, to help men better understand the girls and women in their lives, and to illuminate the delicate emotional machinery of a love relationship. Why are women more verbal than men? Why do women remember details of fights that men can't remember at all? Why do women tend to form deeper bonds with their female friends than men do with their male counterparts? These and other questions have stumped both sexes throughout the ages. Now, pioneering neuropsychiatrist Louann Brizendine, M.D., brings together the latest findings to show how the unique structure of the female brain determines how women think, what they value, how they communicate, and who they love. While doing research as a medical student at Yale and then as a resident and faculty member at Harvard, Louann Brizendine discovered that almost all of the clinical data in existence on neurology, psychology, and neurobiology focused exclusively on males. In response to the overwhelming need for information on the female mind, Brizendine established the first clinic in the country to study and treat women's brain function. In The Female Brain, Dr. Brizendine distills all her findings and the latest information from the scientific community in a highly accessible book that educates women about their unique brain/body/behavior. The result: women will come away from this book knowing that they have a lean, mean, communicating machine. Men will develop a serious case of brain envy.

A National Book Award Finalist: "One of the most life-affirming books I have read in a long time...brims with humanity, irreverence, and invigorating candor." —Tom Vanderbilt, The Nation "Every year I bury a couple hundred of my townspeople." So opens this singular and wise testimony. Like all poets, inspired by death, Thomas Lynch is, unlike others, also hired to bury the dead or to cremate them and to tend to their families in a small Michigan town where he serves as the funeral director. In the conduct of these duties he has kept his eyes open, his ear tuned to the indispensable vernaculars of love and grief. In these twelve pieces his is the voice of both witness and functionary. Here, Lynch, poet to the dying, names the hurts and whispers the condolences and shapes the questions posed by this familiar mystery. So here is homage to parents who have died and to children who shouldn't have. Here are golfers tripping over grave markers, gourmards and hypochondriacs, lovers and suicides. These are the lessons for life our mortality teaches us.

Roland Barthes was one of the most widely influential thinkers of the 20th Century and his immensely popular and readable writings have covered topics ranging from wrestling to photography. The semiotic power of fashion and clothing were of perennial interest to Barthes and *The Language of Fashion* - now available in the Bloomsbury Revelations series - collects some of his most important writings on these topics. Barthes' essays here range from the history of clothing to the cultural importance of Coco Chanel, from Hippy style in Morocco to the figure of the dandy, from colour in fashion to the power of jewellery. Barthes' acute analysis and constant questioning make this book an essential read for anyone seeking to understand the cultural power of fashion.

Based on a true, still-unfolding story, *Silence of the Chagos* is a powerful exploration of cultural identity, the concept of home, and above all the neverending desire for justice. Shenaz Patel draws on the lives of exiled Chagossians in this tragic example of 20th century political oppression. Every afternoon a woman in a red headscarf walks to the end of the quay and looks out over the water, fixing her gaze "back there": to Diego Garcia, one of the small islands forming the Chagos archipelago in the Indian Ocean. With no explanation, no forewarning, and only an hour to pack their belongings, the Chagossians are deported to Mauritius. Officials tell her that the island is "closed"—there is no going back for any of them. Charlesia longs for life on Diego Garcia, where the days were spent working on a coconut plantation; the nights dancing to sega music. As she struggles to come to terms with her new reality, Charlesia crosses paths with Désiré, a young man born on the one-way journey to Mauritius. Désiré has never set foot on Diego Garcia, but as Charlesia unfolds the dramatic story of his people, he learns of the home he never knew and the disrupted future of his people. With the sovereignty of Chagos currently being debated on an international judiciary level, *Silence of the Chagos* is an important and timely examination of the rights of individuals in the face of governmental corruption. Praise for *Silence of the Chagos*: "Some twenty years ago, I was struck by a photo showing barefoot women on the road facing the armed police. They were Chagossian women protesting in Mauritius with astonishing determination." This photo, which she's never forgotten, is the inspiration for the Mauritian novelist and journalist Shenaz Patel's third book. Mingling various voice, Patel describes, in a bitter, clear-cut style, the tragedy of the inhabitants of the Chagos, those coral islands of the Indian Ocean that were turned into an American military base and whose inhabitants had been banished to Mauritius between 1967 and 1972. With a prose that seeps and stings, and a sharp sensibility, Shenaz Patel breathes life into the painful nostalgia, the lingering memories, and the eternal incomprehension of these expelled from a string of lost islands." —*Le Monde* "This novel has two voices, those of Charlesia and Désiré, both of whom are foreigners, natives of the Chagos archipelago, living in exile in Mauritius, an island that is a paradise for some but a hell for them. The Chagos are an archipelago that would have been hidden in the depths of the Indian Ocean, had Americans not built a military base to bombard other countries. Charlesia and Désiré live and breathe; the Mauritian writer Shenaz Patel introduces us to them and gives them voice again." —*Libération* "From scenes of daily life to the horrors of forced exile, through the grief of deculturation and the experience of an impossible identity, Patel interrogates the relationship between political expediency and its all-too-human consequences, between the abstract needs of international security and the concrete needs of the individual, and above all between the rich and the poor." —*L'Express*

In this book, *The Ego and the Id*, Sigmund Freud delves deeper into the concepts of the human mind and the results of the conflicts and workings between them. All human behaviors and traits, according to this 1923 study, derive from the complicated interactions of three elements of the psyche: the id, the ego, and the superego. Freud claimed these components of the human psyche controlled all processes of personality, behaviors, and traits in a person. The Id was a person's most basic and impulsive instincts—the ones that feed into our deepest desires and physical needs. The Super-Ego was the opposite of the id. This component controlled our highest morals and standards, operating through our conscience and making us desire to be our most ideal-selves. The piece in the middle is the Ego. The ego mediates between the id and realities of the world around us, while being supervised (and guilted) by the super-ego.
