Claire Randall is leading a double life. She has a husband in one century, and a lover in another... In 1945, Claire Randall, a former combat nurse, is back from the war and reunited with her husband on a second honeymoon—when she innocently touches a boulder in one of the ancient stone circles that dot the British Isles. Suddenly she is a Sassenach—an "outlander"—in a Scotland torn by war and raiding border clans in the year of our Lord...1743. Hurlled back in time by forces she cannot understand, Claire's destiny is soon inextricably intertwined with Clan MacKenzie and the forbidden Castle Leoch. She is catapulted without warning into the intrigues of lairds and spies that may threaten her life ...and shatter her heart. For here, James Fraser, a gallant young Scots warrior, shows her a passion so fierce and a love so absolute that Claire becomes a woman torn between fidelity and desire...and between two vastly different men in two irreconcilable lives.

If you've ever started your day with Rick and Bubba, you know the unmistakable drawl of those two crazy Alabama boys. What you may not know is that they almost weren't "Rick and Bubba." From their glory days of homemade "radio stations," youthful athletic ambition, and redneck Shakespearean monologues, Rick and Bubba spent decades working out the personalities you hear today on their syndicated morning talk show. Born in a little studio behind a skating rink, The Rick and Bubba Show filled the airwaves with a voice never before heard on morning radio. We Be Big follows the winding road that led Rick Burgess and Bill "Bubba" Bussey onto the right path after years of missing the off-ramp. Find out how what started as a comedy routine evolved into a genuine conversation that more than 3.5 million people listen in on each week; and learn all the stories behind Rick and Bubba's famous on-air hijinks, times of uncertainty, and unwavering faith in the face of tragedy. Meet the two "sexiest fat men alive," and experience the hilarity and heartbreak of their unforgettable story.

"This is a novel in the guise of the tape-recorded recollections of a black woman who has lived 110 years, who has been both a slave and a witness to the black militancy of the 1960's. In this woman Ernest Gaines has created a legendary figure, a woman equipped to stand beside William Faulkner's Dilsey in *The Sound And The Fury*." Miss Jane Pittman, like Dilsey, has 'endured,' has seen almost everything and foretold the rest. Gaines' novel brings to mind other great works *The Odyssey* for the way his heroine's travels manage to summarize the American history of her race, and *Huckleberry Finn* for the clarity of her voice, for her rare capacity to sort through the mess of years and things to find the one true story in it all." -- Geoffrey Wolff, *Newsweek*. "Stunning. I know of no black novel about the South that excludes quite the same refreshing mix of wit and wrath, imagination and indignation, misery and poetry. And I can recall no more memorable female character in Southern fiction since Lena of Faulkner's *Light In August* than Miss Jane Pittman." -- Josh Greenfeld, *Life*

The messages will inspire and bring hope to a nation during a very challenging period of our history. The messages will appeal to everyone from all religions and from all walks of life. Each decade is preceded by a brief introduction describing the major events and challenges of the times. The messages given many years ago are as applicable today as they were then.

As the right-wing has known for decades: in tight elections, motivated grassroots groups with grit make the difference. Don't sell them out, Democrats, for the centrist voter on the fence, says Flanders. There's a tide of progressive activism rising that's changing what's possible in American politics. She's traveled the country and gathered more than enough entertaining evidence to make her case. Laura Flanders, the *New York Times* best-selling author of *Bushwomen*, believes there are no such things as "red" and "blue" states. Even in the most surprising places, she's finding progressive change. From Vermont to Salt Lake City to Las Vegas's famous Strip, Flanders journeys through the heartland USA and discovers a simple truth: people don't vote for the GOP because Republicans represent their interests; they vote Republican because Democrats barely field a team. Adamant, opinionated, funny, and always engaging, Flanders chronicles what she's learned from scores of voters and activists—about how change is happening in Main St. USA, even if it rarely catches the attention of the mainstream media. Mormons defending women's rights, casino owners teaming up with waitresses to raise the minimum wage; blue collar construction workers and lesbian mothers working together to make their workplaces safer and more secure for all. Flanders finds young, supposedly "alienated" Americans, who are driving scores of new voters to the polls. Fiery polemic, assured narrative, and acute political commentary, *Blue Grit* will be crucial reading for everyone interested in the future of the Democrats, and this country.

The first American woman to walk in space recounts her experience as part of the team that launched, rescued, repaired, and maintained the Hubble Space Telescope. The Hubble Space Telescope has revolutionized our understanding of the universe. It has, among many other achievements, revealed thousands of galaxies in what seemed to be empty patches of sky; transformed our knowledge of black holes; found dwarf planets with moons orbiting other stars; and measured precisely how fast the universe is expanding. In *Handprints on Hubble*, retired astronaut Kathryn Sullivan describes her

work on the NASA team that made all of this possible. Sullivan, the first American woman to walk in space, recounts how she and other astronauts, engineers, and scientists launched, rescued, repaired, and maintained Hubble, the most productive observatory ever built. Along the way, Sullivan chronicles her early life as a “Sputnik Baby,” her path to NASA through oceanography, and her initiation into the space program as one of “thirty-five new guys.” (She was also one of the first six women to join NASA's storied astronaut corps.) She describes in vivid detail what liftoff feels like inside a spacecraft (it's like “being in an earthquake and a fighter jet at the same time”), shows us the view from a spacewalk, and recounts the temporary grounding of the shuttle program after the Challenger disaster. Sullivan explains that “maintainability” was designed into Hubble, and she describes the work of inventing the tools and processes that made on-orbit maintenance possible. Because in-flight repair and upgrade was part of the plan, NASA was able to fix a serious defect in Hubble's mirrors—leaving literal and metaphorical “handprints on Hubble.” *Handprints on Hubble* was published with the support of the MIT Press Fund for Diverse Voices.

Millions of people suffer from debilitating pain and inflammation each and every day. Most treatments focus on relieving or managing the pain instead of locating the cause and eliminating it. This book helps the reader understand what pain is, where it comes from, and most importantly, how to get rid of it. There are six things to fix and six protocols to help correct the imbalances that cause pain and dysfunction. Learn how to balance thyroid levels, fix the gut, revive your metabolism, restore energy levels, improve brain function, and anti-aging. Look younger, feel better, and think clearer, while eliminating the causes of pain that create dysfunction in your body. Allow this book to be your personalized road map to guide you down the road to recovery. The most exciting part is realizing that you may be only a few simple choices away from eliminating chronic debilitating pain and suffering from your life.

Are you settling for half the story? Highlighting connections that have been hidden from non-Jewish eyes, Rabbi Jason Sobel will connect the dots between the Old and New Testament, helping you see the Bible with clarity as God intended. Most people—even people of faith—do not understand how the Bible fits together. Too many Christians accept half an inheritance, content to embrace merely the New Testament, while Jewish people may often experience the same by embracing only the Old Testament. But God has an intricate plan and purpose for both the Old and the New. In *Mysteries of the Messiah*, Rabbi Jason Sobel reveals the many connections in Scripture hidden in plain sight. Known for his emphatic declaration “but there's more!” he guides us in seeing the passion and purpose of the Messiah. *Mysteries of the Messiah*: Uncovers connections between the Old and New Testaments Connects the dots for readers with details about Jesus, the Torah, and biblical characters Written with the unique perspective of a rabbi with an evangelical theological degree No matter how many times you have read the Bible, *Mysteries of the Messiah* will bring fresh perspective and insight. God's Word, written by many people over thousands of years, is not a random selection of people and stories. Rabbi Jason Sobel connects the dots and helps us see with clarity what God intended.

Sarah Palin has many faces: hockey mom, fundamentalist Christian, sex symbol, Republican ideologue, fashion icon, “maverick” populist. But, above all, Palin has become one thing: an American obsession that just won't go away. Edited by two senior editors at 'The Nation' magazine, this sharp, smart, up-to-the-minute book examines Palin's quirky origins in Wasilla, Alaska, her spectacular rise to the effective leadership of the Republican Party, and the nightmarish prospect of her continuing to dominate the nation's political scene. With contributions by: Amy Alexander, Max Blumenthal, Juan Cole, Joe Conason, Jeanne Devon, Eve Ensler, Michelle Goldberg, Jane Hamsher, Christopher Hayes, Mark Hertsgaard, Jim Hightower, Linda Hirshman, Naomi Klein, Dahlia Lithwick, Amanda Marcotte, Shannyn Moore, John Nichols, Rick Perlstein, Tom Perrotta, Katha Pollitt, Robert Reich, Frank Rich, Hanna Rosin, Jeff Sharlet, Matt Taibbi, Michael Tomasky, Rebecca Traister, Katrina vanden Heuvel, Jessica Valenti, Patricia Williams, JoAnn Wypijewski and Gary Younge among others.

For several months, prior to publication, some people were asking that we should write this book and that it be entitled, “The Message Of The Cross”. • I believed then and now that their request was from the Lord. Consequently, this book is the result of that need. • This Message, “The Message Of The Cross” is the single most important Message of the Word in any language. The Salvation of the soul and how we live for God is important beyond comprehension. • I feel every Believer will be greatly strengthened in the Word if they will avail themselves of this publication.

The rise of the Information Age, the fall of the traditional media, and the bewildering explosion of personal information services are all connected to the historical chain of communications' revolutions. We need to understand these revolutions because they influence our present and future as much as any other trend in history. And we need to understand them not simply on a national basis - an unstable foundation for history in any event - but rather as part of the emergent global communications network. Unlike most of the current texts in the field, *Revolutions in Communication* is an up-to-date resource, expanding upon contemporary scholarship. It provides students and teachers with detailed sidebars about key figures, technical innovations, global trends, and social movements, as well as supplemental reading materials, and a fully supportive companion website. *Revolutions in Communication* is an authoritative introduction to the history of all branches of media.

We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it ‘good’ or ‘bad.’ Rather, criticism uses the close examination of a television program to explore that program's cultural significance, creative strategies, and its place in a broader social context. *How to Watch Television* brings together forty original essays from today's leading scholars on television culture, writing about the programs they care (and think) the most about. Each essay focuses on a particular television show, demonstrating one way to read the program and, through it, our media culture. The essays model how to practice media criticism in accessible language, providing critical insights through analysis—suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast and cable, providing a broad representation of the programs that are likely to be covered in a media studies course.

While the book primarily focuses on American television, important programs with international origins and transnational circulation are also covered. Addressing television series from the medium's earliest days to contemporary online transformations of television, *How to Watch Television* is designed to engender classroom discussion among television critics of all backgrounds. These collected papers are critical reflections about the rapid digitalization of discourse and culture. This disruptive change in communicative interaction has swept rapidly through major universities, nation states, learned disciplines, leading businesses, and government agencies during the past decade. To commemorate the tenth anniversary of the Center for Digital Discourse and Culture (CDDC) at Virginia Tech, which has been a pioneering leader for many of these changes in university settings, the contributors to this volume examine the transformative implications of digitalizing discourse and culture inside and outside of the academic arena. These technologies of digitalization have created new communities of users, which are highly engaged with their new communicative possibilities, informational content, and discursive forms. Few have asked what these changes will mean, and many of the most important voices engaged in debates about this critical transformation are gathered here in this volume. Each author in his or her own way considers what accepting digital discourse and informational culture now means for contemporary economies, governments, and societies.

By his early thirties, Paul Allen was a world-famous billionaire—and that was just the beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor—combined with the resources to launch and support new initiatives—have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this classic memoir, Allen explains how he solved problems, what he learned from his many endeavors—both the triumphs and the failures—and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.

The first novel in the spellbinding Landry family series. The only family Ruby Landry has ever known are her loving grandparents. Although her mother is dead and she has never met her mysterious father, Ruby is grateful for all she has, especially when her attraction for handsome Paul Tate blossoms into a wonderful love. But Paul's wealthy parents forbid him to associate with a poor Landry, and when Ruby's grandmother dies, she is forced to seek out the father she has never known in his vast New Orleans mansion. There, in a house of lies, madness and cruel torment, a shameful deception comes to light, and Ruby must cling to her memories of Paul: for only their love can save her now.

This book constitutes the thoroughly refereed post-proceedings of the Second International Conference on Persuasive Technology for Human Well-Being, PERSUASIVE 2007, held in Palo Alto, CA, USA, in April 2007. The 37 revised full papers presented were carefully reviewed and selected from numerous submissions for inclusion in the book. The papers are organized in topical sections and cover a broad range of subjects.

The very first book on space systems failures written from an engineering perspective. Focuses on the causes of the failures and discusses how the engineering knowledge base has been enhanced by the lessons learned. Discusses non-fatal anomalies which do not affect the ultimate success of a mission, but which are failures nevertheless. Describes engineering aspects of the spacecraft, making this a valuable complementary reference work to conventional engineering texts.

To be renewed in mind involves thinking beyond the way the world does, and R. C. Sproul shows us how this transformation works. It means believing the very essence of Christian thought and faith, which is summarized in the Apostles' Creed. To lead readers toward renewing their minds, R. C. Sproul follows the outline of the creed while presenting the theology that you, and your congregation, need to know.

This new book examines whether television can be used as a tool not just for capitalism, but for democracy. Throughout television's history, activists have attempted to access it for that very reason. New technologies—cable, satellite, and the internet—provided brief openings for amateur and activist engagement with television. This book elaborates on this history by using ethnographic data to build a new iteration of liberalism, technoliberalism, which sees Silicon Valley technology and the free market of Hollywood end the need for a politics of participation. Today everyone—whether they know it or not—is in the emotional transportation business. More and more, success is won by creating compelling stories that have the power to move partners, shareholders, customers, and employees to action. Simply put, if you can't tell it, you can't sell it. And this book tells you how to do both. Historically, stories have always been igniters of action, moving people to do things. But only recently has it become clear that purposeful stories—those created with a specific mission in mind—are absolutely essential in persuading others to support a vision, dream or cause. Peter Guber, whose executive and entrepreneurial accomplishments have made him a success in multiple industries, has long relied on purposeful story telling to motivate, win over, shape, engage and sell. Indeed, what began as knack for telling stories as an entertainment industry executive has, through years of perspiration and inspiration, evolved into a set of principles that anyone can use to achieve their goals. In Tell to Win, Guber shows how to move beyond soulless Power Point slides, facts, and figures to create purposeful stories that can serve as powerful calls to action. Among his techniques: * Capture your audience's attention first, fast and foremost * Motivate your listeners by demonstrating authenticity * Build your tell around "what's in it for them" * Change passive listeners into active participants * Use "state-of-the-heart" technology online and offline to make sure audience commitment remains strong To validate the power of telling purposeful stories, Guber includes in this book a remarkably diverse number of "voices" —master tellers with whom he's shared experiences. They include YouTube founder Chad Hurley, NBA champion Pat Riley, clothing designer Normal Kamali, "Mission to Mars" scientist Gentry Lee, Under Armour CEO Kevin Plank, former South African president Nelson Mandela, magician David Copperfield, film director Steven Spielberg, novelist Nora Roberts, rock legend Gene Simmons, and physician and author Deepak Chopra. After listening to this extraordinary mix of voices, you'll know how to craft, deliver—and own—a story that is truly compelling, one capable of turning others into viral advocates for your goal.

Driven from the Dumas mansion back to her beloved bayou, Ruby's only hope is that fate will let her begin anew. Living again in a humble shack, Ruby is determined to make a secure and happy home for her precious daughter, Pearl. At her side once more is Paul Tate, her first love, now a man of dazzling wealth. Whisked away to his grand house, it seems Ruby can forget the shocking reason she and Paul must wed in secret and remain husband and wife in name alone. But the grand walls of Cypress Woods cannot shut out the cold eyes of Paul's mother, Gladys. Then her venomous twin sister, Gisselle, arrives to taunt her with news of Beau Andreas, the true father Pearl has never met, and the only man Ruby will ever long for with her body and soul.
