Climate change presents perhaps the most profound challenge ever confronted by human society. This volume is a definitive analysis drawing on the best thinking on questions of how climate change affects human systems, and how societies can, do, and should respond. Key topics covered include the history of the issues, social and political reception of climate science, the denial of that science by individuals and organized interests, the nature of the social disruptions caused by climate change, the economics of those disruptions and possible responses to them, questions of human security and social justice, obligations to future generations, policy instruments for reducing greenhouse gas emissions, and governance at local, regional, national, international, and global levels.

This title was first published in 1992: This book compares stability and change in the political culture of the relatively new Asian democracy Japan and the much older Western democracy Britain. While the democratic polity emerged incrementally and indigenously in Britain, it was essentially a modern and in many ways foreign implant in Japan. By analysing long-term trends and recent changes in political attitudes, support for government institutions, participation, voting behaviour, and policy-making in the two polities, the authors seek to bring us a unique perspective on these two dynamic island political cultures on opposite ends of the Eurasian land mass. This study will be useful as a supplemental text in upper-level undergraduate and graduate courses in comparative political systems or political cultures,

In this book, a distinguished group of presidential campaign staff, journalists, and political observers take us inside the 2016 race for the Republican and Democratic nominations and general election, guiding us through each candidate's campaign from the time each candidate announced his or her intention to seek the presidency through the primaries, conventions, and up to election day. Meeting under the auspices of the Harvard University's Institute of Politics, the candid discussion allows us to learn about the motivations of each candidate, strategies they deployed, and lessons they learned. In addition, representatives from the major SUPERPACS share their strategies and evaluate their impact in an election characterized by unprecedented campaign spending. Campaign for President: The Managers Look at 2016 is essential reading for anyone interested in the inner workings of national political campaigns. Bell, West Texas A&M University Organized thematically around important questions in comparative politics—who rules? what explains political behavior? where and why?—Introducing Comparative Politics, Fifth Edition, integrates a set of extended case studies of 11 countries that vividly illustrate issues in cross-national context. Serving as touchstones, the cases are placed within the chapters where they make the most sense —not separated from the theory or in a separate volume—helping students make connections between the two earlier in the semester. The average Christian knows somewhat how dangerous radical Islam is because of the regular media coverage of beheadings of Christians, Jews, and even young little children, not to mention Muslims with which they disagree. However, the average Christian does not know their true beliefs, just how many there are, to the extent they will go to carry out these beliefs. Daily we find Islamic commentators on the TV and radio, offering up misleading information, quoting certain portions of the Quran while leaving other parts out. When considering Islamic beliefs, other Islamic writings must be considered, like the Hadith or Sunnah, and the Shariah,

or canon law. While Islam, in general, does not support radical Islam, the vast majority do support radical beliefs. For example, beheadings, stoning for adultery or homosexuality, suicide bombings, turning the world into an Islamic state, and far too many other heinous things. THE GUIDE TO ANSWERING ISLAM provides Christians with an overview of Islamic terminology. The reader will learn about Muhammad's calling, the history of the Quran, how Islam expanded, the death of Muhammad and the splinter groups that followed. In addition, the three sources of their teaching, six pillars of belief, five pillars of Islam, the twelfth Imam, and much more will be discussed. While there are several books on Islam and radical Islam, this will be the first that will prepare its readers to communicate effectively with Muslims in an effort toward sharing biblical truths. THE GUIDE TO ISLAM will be an effective evangelism tool. In addition, each chapter will end with review questions, helping the reader recall the main points of the chapter. Therefore, it can be studied alone or in a church Bible study setting. THE GUIDE TO ANSWERING ISLAM has the contents constructed in a way that will greatly serve the Christian Church. There are many recent books written by Christians about Islam, and there are many books written recently about radical Islam. However, none of these recent books attempts to do what has been done, which is to give an adequate portrayal of Islam, critiqued by history and Christian doctrine, and then culminating in an extensive evaluation of the rise of Radical Islam from a Christian's perspective.

A vigorous and healthy system of representative government does not live by competitive elections alone, conclude political scientists from North America and

Europe, but also requires transparency and accountability, vigorous party competition, political rights and civil liberties, many channels for political communication, and citizen participation. In ten essays updated from the 1996 edition, itself based on a conference, they consider such aspects as the politics of direct democracy through referendums and initiatives, candidate selection, campaign communications, and the dynamics of electoral participation.

For many Evangelical Christians, a trip to the Holy Land is an integral part of practicing their faith. Arriving in groups, most of these pilgrims are guided by Jewish Israeli tour guides. For more than three decades, Jackie Feldman—born into an Orthodox Jewish family in New York, now an Israeli citizen, scholar, and licensed guide—has been leading tours, interpreting Biblical landscapes, and fielding questions about religion and current politics. In this book, he draws on pilgrimage and tourism studies, his own experiences, and interviews with other guides, Palestinian drivers and travel agents, and Christian pastors to examine the complex interactions through which guides and tourists "co-produce" the Bible Land. He uncovers the implicit politics of travel brochures and religious souvenirs. Feldman asks what it means when Jewish-Israeli guides get caught up in their own performances or participate in Christian rituals, and reflects on how his interactions with Christian tourists have changed his understanding of

New challenges that emerged in the postwar era have given rise to ongoing debate about the place of religion in public life, in the United States and in other established democracies, and this debate has dramatically reshaped the way scholars, policymakers, and religious leaders think about political theology. *Political Theology for a Plural Age* examines historic and contemporary understandings of political engagement in Christianity, Judaism, and Islam, engaging political theologies not merely as a set of theoretical concepts but as religious beliefs and principles that motivate specific political action. The essays in this volume, written by leading thinkers and practitioners within each tradition and their secular counterparts, examine a number of core issues at the intersection of religion and politics. They contest the definition of political

Compelling account of Strauss's mature Maimonidean writings. Leo Strauss (1899–1973), one of the preeminent political philosophers of the twentieth century, was an astute interpreter of Maimonides's medieval masterpiece, *The Guide of the Perplexed*. In *Progressive Minds, Conservative Politics*, Aryeh Tepper overturns the conventional view of Strauss's interpretation and of Strauss's own mature thought. According to the scholarly consensus, Strauss traced the well-known contradictions in the *Guide* to the fundamental tension in Maimonides's mind between reason and revelation, going so far as to suggest that while the Jewish philosopher's overt position was religiously pious (i.e., on the side of "Jerusalem"), secretly he was on the side of reason, or "Athens." In Tepper's analysis, Strauss's judgments emerge as much more complex than this and also more open to revision. In his later writings, Tepper shows, Strauss pointed to contradictions in Maimonides's thought not only between but also within both "Jerusalem" and "Athens." Moreover, Strauss identified, and identified himself with, an esoteric Maimonidean teaching on progress: progress within the Bible, beyond the Bible, and even beyond the rabbinic sages.

Comparative Politics, the discipline devoted to the politics of other countries or peoples, has been steadily gaining prominence as a field of study, allowing politics to be viewed from a wider foundation than a concentration on domestic affairs would permit. International Relations has traditionally focused on conflict and war, but the effects of violence including dead bodies and memorialization practices have largely been considered beyond the purview of the field. Drawing on Jacques Derrida's notion of hauntology to consider the politics of life and death, Auchter traces the story of how life and death and a clear division between the two is summoned in the project of statecraft. She argues that by letting ourselves be haunted, or looking for ghosts, it is possible to trace how statecraft relies on the construction of such a dichotomy. Three empirical cases offer fertile ground for complicating the picture often painted of

memorialization: Rwandan genocide memorials, the underexplored case of undocumented immigrants who die crossing the US-Mexico border, and the body/ruins nexus in 9/11 memorialization. Focusing on the role of dead bodies and the construction of particular spaces as the appropriate sites for memory to be situated, it offers an alternative take on the new materialisms movement in international relations by asking after the questions that arise from an ethnographic approach to the subject: viewing things from the perspective of dead bodies, who occupy the shadowy world of post-conflict international politics. This work will be of great interest to students and scholars of critical international relations, security studies, statecraft and memory studies.

Now part of the HBO docuseries "Exterminate All the Brutes," written and directed by Raoul Peck 2015 Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for

movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, *An Indigenous Peoples' History of the United States* is an essential resource providing historical threads that are crucial for understanding the present. In *An Indigenous Peoples' History of the United States*, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative. *An Indigenous Peoples' History of the United States* is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.

Comparative Political Theory and Cross-Cultural Philosophy: Essays in Honor of Hwa Yol Jung explores new forms of philosophizing in the age of globalization by challenging the conventional border between the East and the West, as well as the traditional boundaries among different academic disciplines. The essays in this volume examine diverse issues, encompassing globalization, cosmopolitanism, public philosophy, political ecology, ecocriticism, ethics of encounter, and aesthetics of caring. They examine the philosophical traditions of phenomenology of Husserl, Merleau-Ponty, and Heidegger; the dialogism of Mikhail Bakhtin; the philosophy of mestizaje literature; and Asian philosophical traditions. This rich comparative and cross-cultural investigation of philosophy and political theory demonstrates the importance of cultural and cross-cultural understanding in our reading of philosophical texts, exploring how cross-cultural thinking transforms our understanding of the traditional philosophical paradigm and political theory. This volume honors the scholarship and philosophy of Hwa Yol Jung, who has been a pioneer in the field of comparative political theory, cross-cultural philosophy, and interdisciplinary scholarship. In one of his earliest

publications, *The Crisis of Political Understanding* (1979), Jung described the urgency and necessity of breakthrough in political thinking as a crisis, and he followed up on this issue for his half century of scholarship by introducing Asian philosophy and political thought to Western scholarship, demonstrating the possibility of cross-cultural philosophical thinking. In his most recent publications, Jung refers to this possibility as 'transversality' or 'trans(uni)versality,' a concept which should replace the outmoded Eurocentric universality of modernist philosophy. Jung expounds that in 'transversality,' 'differences are negotiated and compromised rather than effaced and absorbed into sameness.' This volume is a testimony to the very possibility of transversality in our scholarship and thinking. This volume has been designed as a key resource in the field of international political leadership research. Written by a team of distinguished leadership scholars from three continents and nine countries, the original chapters gathered in this volume cover all the major fields of political leadership, from executive, legislative and party leadership to leadership in social movements and international organizations. The special value and appeal of this book relates to its genuinely comparative focus that characterizes all chapters. is exceptional because of our historic role - first as refuge, then as defender, and now as exemplar of liberty for the world to see. We believe our constitutional system - limited government, separation of powers, federalism, and the rights of the people - must be preserved uncompromised for future generations. We believe political freedom and economic freedom are indivisible. When political freedom and economic freedom are separated - both are in peril; when united, they are invincible. We believe that people are the ultimate resource - and that the people, not the government, are the best stewards of our country's God-given natural resources. As Americans and as Republicans we wish for peace - so we insist on strength. We will make America safe. We seek friendship with all peoples and all nations, but we recognize and are prepared to deal with evil in the world. Based on these principles, this platform is an invitation and a roadmap. It invites every American to join us and shows the path to a stronger, safer, and more prosperous America.
