Literacy skills are the cornerstone upon which students' knowledge, self-esteem, and future educational opportunities are built. But far too many teachers lack the time, materials, and specialized knowledge required to address these skills adequately. To that end, *Climbing the Literacy Ladder* is a one-stop shop to help teachers plan and differentiate literacy instruction for all students from prekindergarten through 5th grade. Literacy educator Beverly Tyner presents plans for small-group instruction that addresses elementary students' six developmental stages of reading and writing: emergent, beginning, fledgling, transitional, fluent, and independent. To help teachers support students' literacy development, this book also provides - Characteristics of readers and writers at each stage. - Lesson plans that target each of the research-based instructional components (fluency, word study, vocabulary, and comprehension). - Authentic classroom scenarios and conversations. - Practical classroom strategies and activities. - Advice for when to move students to the next stage. If students cannot read with comprehension by 3rd grade, then their educational future is cast in doubt. *Climbing the Literacy Ladder* will not only help you grow as a competent and empowered literacy teacher but also ensure that your students continue to travel a clear and unobstructed educational road. This book is a co-publication of ASCD and ILA.

Teachers make a difference. The success of any plan for improving educational outcomes depends on the teachers who carry it out and thus on the abilities of those attracted to the field and their preparation. Yet there are many questions about how teachers are being prepared and how they ought to be prepared. Yet, teacher preparation is often treated as an afterthought in discussions of improving the public education system. *Preparing Teachers* addresses the issue of teacher preparation with specific attention to reading, mathematics, and science. The book evaluates the characteristics of the candidates who enter teacher preparation programs, the sorts of instruction and experiences teacher candidates receive in preparation programs, and the extent that the required instruction and experiences are consistent with converging scientific evidence. *Preparing Teachers* also identifies a need for a data collection model to provide valid and reliable information about the content knowledge, pedagogical competence, and effectiveness of graduates from the various kinds of teacher preparation programs.

Federal and state policy makers need reliable, outcomes-based information to make sound decisions, and teacher educators need to know how best to contribute to the development of effective teachers. Clearer understanding of the content and character of effective teacher

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Teachers are learners too, and for the past ten years, Gail Boushey and Allison Behne work with hundreds of teachers and students nationwide, gaining insight into best practices for reading instruction. Using those insights, they developed The CAFE Book, Expanded Second Edition: Engaging All Students in Daily Literacy Assessment and Instruction to help teachers apply what their research has shown--that reading instruction is not about the setting, the basal, or the book level. Rather, effective reading instruction is based on what that student needs in that moment. With the release of The CAFE Book in 2009, the CAFE system has been implemented in classrooms all over the world. It has changed the way teachers assess, teach, and track student information, and positively impacted the way students learn, practice, and talk about reading. The CAFE Book, Expanded Second Edition builds on the same research-based, student-centered foundations, but now includes A new process of planning data-driven instruction using the Seven Steps from Assessment to Instruction; The Instruction Protocol - a framework to guide your instruction and planning; Significant resources to help with lesson planning, assessment, goal setting, and parent involvement; A revised CAFE menu and a checklist of skills for emerging readers; New and improved forms for both the online conferring notebook and a pencil/paper notebook to support more effective conferring with students; The addition of CAFE's Essential Elements, a resource to guide your understanding of student-focused
