Arpeggios are chord notes played one at a time rather than strummed or plucked all together. They are an essential part of great improvising and melody writing because playing chord notes in the right places creates solid melody lines. Chord notes sound more resolved than notes that are chromatic (out of the key). Practicing arpeggios will improve your ability to learn melodies, make reading music easier, and develop your tone and picking accuracy. The first part of this book focuses on the basic fingerings of the following six arpeggios: major 7th, major 7th (#5), dominant 7th, minor 7th, minor 7th (b5), and diminished 7th. This book along with its accompanying audio represents a comprehensive guide to all things arpeggio. It delves into traditional applications of arpeggios, as well as how they relate to slash chords, modal music and more. The student will learn about how arpeggios fall over standard chord progressions, as well as how to embellish arpeggios to make them more musical in performance situations.

This in-depth scale and arpeggio text is core curriculum at the University of Southern California's Studio Guitar Department, which is part of the prestigious Flora L. Thornton School of Music, located in Los Angeles, California. Using a comprehensive approach that includes three different organizational systems, it covers the technical foundation that is necessary for playing any style of music. The CAGED system (five positions), the Finger Stretch system (all twelve keys in one position) and the Three-Note Per String system (seven patterns) are examined. Although each of these three systems is examined, the CAGED system serves as the basis for much of the material covered in this book. Instead of traditional musical notation, the book uses fingerboard diagrams to focus on the visual aspect of the patterns. The goal is to present an approach to understanding and mastering the fingerboard by outlining the best and most practical elements of these different systems. Book One presents patterns for the major scale and its relative modes, the major pentatonic scale, the minor pentatonic scale, and the blues scale. Along with these scale forms, patterns for arpeggios that are for the most part diatonic to (in the key of) the major scale are presented. These include major, minor, diminished and augmented triads, and also major 7, dominant 7, minor 7, minor 7(5), and diminished 7 chords.
