When life presents problems, all a heroine really wants is an answer key to fix them. Shannon Waller lives a paycheck-to-paycheck existence in far north Montana. A missing husband. Not even a pet. Alone. Suddenly life hands her the kind of money she only dreams of—an amount that starts with a B. A move to Ithaca, New York and into a home she inherits plus new friends—what more can she ask for? Private investigator Michael Silver is determined to find out who might want to kill Shannon. While his life seems safe, hers is one 'accident' after another, each hurting her worse. When a bullet barely misses Shannon, she and Michael have to discover who, what and why she's a target for murder. And do it fast before the next attempt succeeds!

From the bestselling author of Karna's Wife, comes this book about Urmila, Sita's sister and the neglected wife of Lakshman, and one of the most overlooked characters in the Ramayana. As Sita prepares to go into exile, her younger sisters stay back at the doomed palace of Ayodhya, their smiles, hope and joy wiped away in a single stroke. And through the tears and the tragedy one woman of immense strength and conviction stands apart—Urmila, whose husband, Lakshman, has chosen to accompany his brother Ram to the forest rather than stay with his bride. She could have insisted on joining Lakshman, as did Sita with Ram. But she did not. Why did she agree to be left behind in the palace, waiting for her husband for fourteen painfully long years?

Dhandha, meaning business, is a term often used in common trade parlance in India. But there is no other community that fully embodies what the term stands for than the Gujaratis. Shobha Bondre's Dhandha is the story of a few such Gujaratis: Jaydev Patel—the New York Life Insurance agent credited with having sold policies worth \$2.5 billion so far; Bhimjibhai Patel—one of the country's biggest diamond merchants and co-founder of the ambitious 'Diamond Nagar' in Surat; Dalpatbhai Patel—the motelier who went on to become the mayor of Mansfield County; Mohanbhai Patel—a former Sheriff of Mumbai and the leading manufacturer of aluminium collapsible tubes; and Hersha and Hasu Shah—owners of over a hundred hotels in the US. Travelling across continents—from Mumbai to the United States—in search of their story and the common values that bond them, Dhandha showcases the powerful ambition, incredible capacity for hard work, and the inherent business sense of the Gujaratis.

Knowledge updating is a never-ending process and so should be the revision of an effective textbook. The book originally written fifty years ago has, during the intervening period, been revised and reprinted several times. The authors have, however, been thinking, for the last few years that the book needed not only a thorough revision but rather a substantial rewriting. They now take great pleasure in presenting to the readers the twelfth, thoroughly revised and enlarged, Golden Jubilee edition of the book. The subject-matter in the entire book has been re-written in the light of numerous criticisms and suggestions received from the users of the earlier editions in India and abroad. The basis of this revision has been the emergence of new literature on the subject, the constructive feedback from students and teaching fraternity, as well as those changes that have been made in the syllabi and/or the pattern of examination papers of numerous universities. Richard Rubin has written a completely revised and updated edition of the first textbook - and most widely-used - specifically written to cover the fundamentals of library and information science. Foundations is the most current teaching resource available, covering the practice of librarianship, the place of libraries in the broader information infrastructure, the development of information science, the growth of information technologies, information policy in libraries, intellectual organization of libraries, the mission of libraries from past to present, and ethical aspects and principles between information providers and clients. The various types of libraries (public, academic, school, and special libraries), their internal functions, and the major organizational issues they face are discussed. This second edition provides updates of many critical issues and also includes new topics - digital libraries and reference, information infrastructure, the Web, UCITA, Homeland Security, revised intellectual freedom policy statements, digital rights management, file sharing, MARC21, metadata, and much more - that are important to our profession. The extensive lists of selected readings have been thoroughly updated. Library and information science students and professionals will find the background and concepts they need to meet today's - and tomorrow's - challenges in this new edition.

A collection of Greek Philosophy. This edition contains a selection of the major early thinkers, ranging from Pre-Socratic pioneers such as Thales and Zeno to major excerpts taken from several of Plato and Aristotle's major works.
