Two Yugoslav boys visiting Paris become involved with the theft of the Mona Lisa.

Ranging from the early modern to the postcolonial, and dealing mainly with encounters in Europe, the Americas and the Middle East, *Perspectives on Travel Writing* is a collection of new essays by international scholars that examines some of the various contexts of travel writing, as well as its generic characteristics. Contributions examine the similarities between autobiography and memoir, fiction, and travel writing, and attempt to define travel writing as a genre. Utilising a variety of approaches, the essays display a shared concern with what travel writing does and how it does it. The effects of encounter and border-crossing on gender, 'race', and national identity are considered throughout. The collection begins with a review of some of the problems and issues facing the scholar of travel writing and moves on to a detailed discussion of the qualities of travel writing and its related forms. It then presents in chronological order a number of case studies, before closing with a critical discussion of approaches to the subject. An essay collection with broad historical and geographical coverage, this volume should appeal to students and researchers of travel and travel-related literatures from across the Humanities.

Achieving immortality is only half of the problem. The other half is knowing how to live with it once it's been made possible—and inescapable!

A shoemaker's apprentice runs away from his unreasonable master and embarks on a week's adventures with a dog and an orphan girl.

Whitney McAllister, a reckless heiress with a penchant for adventure, joins forces with Doug Lord, a professional thief with a stolen treasure map on a search for a treasure trove of priceless jewels.

Middle-aged Harry Angstrom, chief sales representative of a Toyota dealership, copes with inflation, governmental ineffectiveness, the return of his prodigal son, and a chance encounter with an old girlfriend, in *Rabbit Is Rich*, while in *Rabbit at Rest*, Harry "Rabbit" Angstrom, now living in a Florida condominium, faces middle age, heart trouble, and a wife

"The book combines detailed evaluations of major contemporary models of analysis - new historicism, travelling theory, and post-colonial studies - with a series of specific studies detailing the complicity of the genre with a history of violent incursion from Columbus's reports from the New World through to the nomadism of postmodern travelogue."

"Postcolonial studies has concentrated on travellers as conduits of erasure and appropriation. This book resists the temptation to think in terms of a simple monolithic Eurocentrism and offers a more complex reading of texts produced before, during and after periods of imperial ascendancy. In doing so, it provides a more nuanced account of the hegemonic functions of travel writing. As such it is necessary reading for students and academics of cultural studies, literary theory, anthropology and history."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Put Jonathan Raban on a boat and the results will be fascinating, and never more so than when he's sailing around the serpentine, 2,000-mile coast of his native England. In this acutely perceived and beautifully written book, the bestselling author of *Bad Land* turns that voyage—which coincided with the Falklands war of 1982—into an occasion for meditations on his country, his childhood, and the elusive notion of home. Whether he's chatting with bored tax exiles on the Isle of Man, wrestling down a mainsail during a titanic gale, or crashing a Scottish house party where the kilted guests turn out to be Americans, Raban is alert to the slightest nuance of meaning. One can read *Coasting* for his precise naturalistic descriptions or his mordant comments on the new England, where the principal industry seems to be the marketing of Englishness. But one always reads it with pleasure.

A magnificent new collection of stories by "the contemporary Hungarian master of apocalypse" (Susan Sontag) *In The World Goes On*, a narrator first speaks directly, then tells eleven unforgettable stories, and then bids farewell ("for here I would leave this earth and these stars, because I would take nothing with me"). As László Krasznahoraki himself explains: "Each text is about drawing our attention away from this world, speeding our body toward annihilation, and immersing ourselves in a current of thought or a narrative..." A Hungarian interpreter obsessed with waterfalls, at the edge of the abyss in his own mind, wanders the chaotic streets of Shanghai. A traveler, reeling from the sights and sounds of Varanasi, encounters a giant of a man on the banks of the Ganges ranting on the nature of a single drop of water. A child laborer in a Portuguese marble quarry wanders off from work one day into a surreal realm utterly alien from his daily toils. *The World Goes On* is another amazing masterpiece by the winner of the 2015 Man Booker International Prize. "The excitement of his writing," Adam Thirwell proclaimed in the *New York Review of Books*, "is that he has come up with this own original forms—there is nothing else like it in contemporary literature."

Stories on a Yugoslav boy during World War II whose father is a Jew and whose mother is Christian. The stories portray his games--one of them is playing at Jew--and the day he sees his father deported to a death camp. By the author of *Hourglass*.

A touching story of cultural difference and tested loyalties. Set in Belgrade before WWII, *Fathers and Forefathers* tells the story of the marriage between a Steven, a Serb, and Elizabeth, an Englishwoman. After meeting at an English university they marry and leave England to build their life together. Steven's narrative and Elizabeth's letters home reveal two very different personal accounts of the difficulties this involves. Raised in Serbia their son, Mihajlo, is ashamed of his mixed parentage and rebels against his non-Serbian ancestry. On the eve of the war, Steven's loyalties are challenged when his counsel is sought by both the Serbian king and the opposition. He resolves to keep his distance from the conflict, but Mihajlo's more radical response forces him to become involved, and tragedy engulfs the family.

"Five thousand years of history were here and the pattern was still unchanged." During the years he spent among the Marsh Arabs of southern Iraq, Wilfred Thesiger came to understand, admire and share a way of life that had endured for many centuries. Travelling from village to village by canoe, he won acceptance by dispensing medicines and treating the sick. In this account of his time there, he pays tribute to the hospitality, loyalty, courage and endurance of the people, describes their impressive reed houses, the waterways and lakes teeming with wildlife, the herding of buffalo and hunting of wild boar, moments of tragedy and moments of pure comedy, all in vivid, engaging detail. Untouched by the modern world until recently, these independent people, their way of life and their surroundings suffered widespread destruction under the regime of Saddam Hussein. Wilfred Thesiger's magnificent account of his time spent among them is a moving testament to their now threatened culture and the landscape they inhabit.

ONCE upon a time very long ago there lived an old man in a glade in the midst of an ancient forest. His name was Witting, and he lived there with his three grandsons. Now this old man was all alone in the world save for these three grandsons, and he had been father and mother to them from the time when they were quite little. But now they were full-grown lads, so tall that they came up to their grandfather's shoulder, and even taller. Their names were Bluster, Careful and Quest

Nikola Tesla is a synonymous with the "Man who invented the 21st century." The two are the same person. Nevertheless, about himself he wrote only a short 60-page autobiography, written in his early sixties, which he named "My Inventions." Although he lived another 25 years he never added to his early writings, believing that everything important in his life was over. All his major inventions had been completed by then. What else was there to write about, thought this great man, in his infinite humility? Fortunately, such grand yet humble men leave many disciples behind them to write about them even after they have gone too far away to be seen but still close enough to inspire. "Tesla's Peace Frequency" is a portrait of one of them, a virtuous man named Nikola Tesla. Allegorically, it portrays the very last days of his life in the form of a prayer. In *The Name of the Father* he encounters his father for the last time. In *The Holy Ghost* he joins his soror mystica. In *Amen* he finishes his controversial opus magnum. This short but extremely intense novel consists of deep reflections over humanity and carries with it a great message. Its main aim is increasing human consciousness about distinguishing good from evil as was the main aim of Nikola Tesla's lifelong struggle. One's salvation could only be brought about thru one's own efforts, pointed out Tesla quite rightly, but on the other hand, he was very eager to push humanity towards this simple truth. His disciples follow his path. He was, humanity, Very Truly Yours, but we were too blind to understand that!

Surveying exotic travel writing in Europe from late antiquity to the age of discovery, *The Witness and the Other World* illustrates the fundamental human desire to change places, if only in the imagination. Mary B. Campbell looks at works by pilgrims, crusaders, merchants, discoverers, even armchair fantasists such as Mandeville, as well as the writings of Marco Polo, Columbus, and Walter Raleigh. According to Campbell, these travel accounts are exotic because they bear witness to alienated experiences; European travelers, while claiming to relate fact, were often passing on monstrous projections. She contends that their writing not only documented but also made possible the conquest of the peoples whom she travelers described, and she shows how travel literature contributed to the genesis of the modern novel and the modern life sciences.

*Aliens R Us* explores the global culture of science fiction cinema, and in particular its presentation of contemporary images of the Other. Taking as a starting point the popularity of international forms such as Japanese Manga and Hong Kong sci-fi, in addition to the success of films such as *The Matrix* and television series such as *Deep Space Nine*, the contributors examine the science fiction genre as an international, populist form of social analysis. In doing so, they discuss issues such as Orientalism, technology, apocalyptic futures, xenophobia, militarism and the role of women. Most contemporary studies look at the generic characteristics of science fiction, with its allegorical rendering of contemporary life, usually in relation to America. This book moves beyond a purely generic study, assessing European and Asian film work, discussing their varying representations of the Other, and what this reveals about popular perceptions of global culture and society. Case studies include *Independence Day*, *Star Trek: First Contact* and *Until the End of the World*, in addition to chapters on *Eco-Apocalypse* and new French sci-fi and New Manchester Ecstasy sci-fi.

It has been said that Elizabeth Bathory was the model for Bram Stoker's nineteenth century novel "Dracula." There is no doubt that Stoker heard the legends that have been thrilling audiences for centuries before writing his famous book in Dublin in 1897. Countess Bathory and Count Dracula are alike in so many ways, except she actually lived at the turn of the seventeenth century in Hungary. Her bloody tale is far more terrifying because it was real. Stoker developed the theme of isolation when he wrote "You must not be alone; for to be alone is to be full of fears and alarms." Bathory's victims were often innocent young girls, stolen from their families and trapped alone and defenseless, but they were also her serfs and the community surrounding her castle, the ruins of which exist today in the real village of Cachtice, Slovakia. *Cachticka Pani* has been a bestselling novel in Slovakia for almost as long as it has been in print. It has been translated into Czech, Hungarian, Polish, German, and now for the first time, English. This story brings to life a poignant period in European history when the value of the life of the common serf fell to its lowest point and the powers of the nobility to do evil were at their greatest. The author Jozo Niznansky, a popular Slovakian adventure writer, presents his readers a vivid description of what life during the time of Elizabeth Bathory must have been like. He used authentic historical documents to bring the incredibly evil and frightening legend to life. His novel has it all. It is loaded with facts, chills, mystery, horror, adventure, intrigue, and is also a beautiful love story.

We all "know" that Marco Polo went to China, served Ghengis Khan for many years, and returned to Italy with the recipes for pasta and ice cream. But Frances Wood, head of the Chinese Department at the British Library, argues that Marco Polo not only never went to China, he probably never even made it past the Black Sea, where his family conducted business as merchants. Marco Polo's travels from Venice to the exotic and distant East, and his epic book describing his extraordinary adventures, *A Description of the World*, ranks among the most famous and influential books ever published. In this fascinating piece of historical detection, marking the 700th anniversary of Polo's journey, Frances Wood questions whether Marco Polo ever reached the country he so vividly described. Why, in his romantic and seemingly detailed account, is there no mention of such fundamentals of Chinese life as tea, foot-binding, or even the Great Wall? Did he really bring back pasta and ice cream to Italy? And why, given China's extensive and even obsessive record-keeping, is there no mention of Marco Polo anywhere in the archives? Sure to spark controversy, *Did Marco Polo Go to China?* tries to solve these and other inconsistencies by carefully examining the Polo family history, Marco Polo's activities as a merchant, the preparation of his book, and the imperial Chinese records. The result is a lucid and readable look at medieval European and Chinese history, and the characters and events that shaped this extraordinary and enduring myth.
