"One of the most admired men in the world of seduction" (The New York Times) teaches average guys how to approach, attract and begin intimate relationships with beautiful women For every man who always wondered why some guys have all the luck, Mystery, considered by many to be the world's greatest pickup artist, finally reveals his secrets for finding and forming relationships with some of the world's most

beautiful women. Mystery gained mainstream attention for his role in Neil Strauss's New York Times bestselling exposé, *The Game*. Now he has written the definitive handbook on the art of the pickup. He developed his unique method over years of observing social dynamics and interacting with women in clubs to learn how to overcome the guard shield that many women use to deflect come-ons from "average frustrated chumps." *The Mystery Method: How to Get Beautiful Women Into Bed* shares tips such as: \*Give more attention to her less attractive friend at first, so your target will get jealous and try to win your attention. \*Always approach a target within 3 seconds of noticing her. If a woman senses your hesitation, her perception of your value will be lower. \*Don't be picky. Approach as many groups of people in a bar as you can and entertain them with fun conversation. As you move about the room, positive perception of you will grow. Now it's easy to meet anyone you want. \*Smile. Guys who don't get laid, don't smile.

Sleight of Mouth is about the magic of words and language. Language is one of the key representational systems from which we build our mental models of the world, and has a tremendous influence upon how we perceive and respond to the world around us. As Sigmund Freud pointed out, "Words and magic were in the beginning one and the same thing." The right words at the right time can be uplifting, changing the course of someone's life for the better; opening up new vistas and possibilities. Unfortunately, words can also confuse and limit us as easily as they can empower us. The wrong words at the wrong time can be hurtful and damaging. Sleight of Mouth patterns come from the study of how language has been, and can be, used to make an impact on people's lives and emotions. This book represents over twenty years of study and practice with respect to the influence of language and its potential to change our lives. Author Robert Dilts (whose other works include Visionary Leadership Skills, Strategies of Genius, Dynamic Learning and Modeling With NLP) has examined the language patterns of people such as Socrates, Abraham Lincoln, Mahatma Gandhi, Adolph Hitler, Milton Erickson and Jesus of Nazareth. Sleight of Mouth patterns are made up of verbal categories and distinctions by which key beliefs can be established, shifted or transformed through language. Generally, Sleight of Mouth patterns can be characterized as "verbal reframes" which influence beliefs, and the mental maps from which beliefs have been formed. These patterns provide a powerful tool for persuasion and conversational belief change. This book is about the power of words to be either helpful or harmful, the distinctions that determine the type of impact words will have, and the language patterns through which we can transform harmful statements into helpful ones.

Have you ever dreamt of becoming an infallible seducer of women? This book tells you everything you need to know, courtesy of the world's only major female PUA (pick-up artist), Kezia Noble! The creator of the "Mystery Method" introduced in Neil Strauss's best-selling *The Game* imparts salacious techniques for picking up and seducing women, in a guide that also shares extreme stories from Mystery's life. TV tie-in.

If you want to play the Game, you've got to know the Rules. In his international bestseller *The Game*, Neil Strauss delved into the secret world of pick-up artists—men who have created a science out of the art of seduction. Not only did he reveal the techniques that they had developed, but he became a master of *The Game*, and the world's No. 1 PUA, as *Style*. Now, in this bestselling companion, Strauss reduces three books of life-changing knowledge into a single-volume set. The first book, *The Stylelife Challenge*, breaks down the knowledge

he learned and techniques he invented into simple step-by-step instructions that anyone can follow to meet and land the women of their dreams. In the second book, Strauss takes readers into the dark side of The Game. The Style Diaries offers a series of tales of seduction and sexual (mis)adventure. From accidentally getting married during a drunken night in Reykjavik, to luring a famous musician's granddaughter into a threesome; to the stress and frustration of the torturous and highly unorthodox "30 Day Sex Experiment," The Style Diaries takes you further into the seduction underworld than ever before. Finally, in the all-new, updated third volume, Strauss collects the greatest, most powerful, field-tested, word-for-word routines. You don't need money, looks, or fame to succeed with women. All you need is an understanding of how attraction works—and this thirty-day workout program for your social skills, which has already guided countless men from frustration to fulfillment.

Training Trances is about how to therapeutically communicate with the unconscious mind. The authors present their own unique integration of Ericksonian techniques, traditional models of hypnotherapy, and recent research in related areas. Numerous new patterns modeled from the work of Milton H. Erickson, M.D. are clearly explained and demonstrated. The use of trance in training design, to unconsciously install the skills being taught to the participants, is also covered. The book developed from transcripts of a four day workshop, and the design of the book parallels the design chosen for the training itself. Individual exercises or those done in groups of two or three are offered so that the reader may practice the techniques and learn the skills. There are numerous "live" demonstrations, inductions, and double inductions which create for the reader a real "feel" of how hypnosis is done and which are also a rich source for linguistic analysis for the advanced reader. Written with insight and humor, this book's most unique twist is its use of multi-level communication and hypnotic language to create a "training trance" for the readers as they journey through the text. Some hypnotic references are obvious and explicit -- those which are not obvious will create enjoyable "ah-ha!" experiences for the reader as they are discovered.

Step into the booth. Check your judgments at the curtain. Close your eyes. Listen: you can hear the voices of the visitors who sat here before you: some of the most twisted, drug-addled, deviant, lonely, lost, brilliant characters ever to be caught on film. What do you have to offer the booth?
