In H is for Hook: A Fishing Alphabet, seasoned angler Judy Young tackles topics such as types of lures, where to fish, and what equipment you will need, along with the basics of cleaning, filleting, and cooking your final catch. And since every fisherman loves to brag about the "one that got away," she includes suggestions on how to capture your fishing memories through journals and photography. For anglers everywhere, reading H is for Hook is the next best thing to being at the end of a fishing pole waiting to land that big one. Inspired by a vignette in the classic *Curious George Flies a Kite*, this amusing episode shows George at his curious best trying to catch a fish.

assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

What's the actual secret to happiness? Great memories!

Meik Wiking—happiness researcher and New York Times bestselling author of *The Little Book of Hygge* and *The Little Book of Lykke*—shows us how to create memories that make life sweet in this charming book. Do you remember your first kiss? The day you graduated? Your favorite vacation? Or the best meal you ever had? Memories are the cornerstones of our identity, shaping who we are, how we act, and how we feel. In his work as a happiness researcher, Meik Wiking has

learned that people are happier if they hold a positive, nostalgic view of the past. But how do we make and keep the memories that bring us lasting joy? The Art of Making Memories examines how mental images are made, stored, and recalled in our brains, as well as the “art of letting go”—why we tend to forget certain moments to make room for deeper, more meaningful ones. Meik uses data, interviews, global surveys, and real-life experiments to explain the nuances of nostalgia and the different ways we form memories around our experiences and recall them—revealing the power that a “first time” has on our recollections, and why a piece of music, a smell, or a taste can unexpectedly conjure a moment from the past. Ultimately, Meik shows how we each can create warm memories that will stay with us for years. Combining his signature charm with Scandinavian forthrightness, filled with infographics, illustrations, and photographs, and featuring “Happy Memory Tips,” The Art of Making Memories is an inspiration meditation and practical handbook filled with ideas to help us make the memories that will bring us joy throughout our lives.

His job is fixing rides at a seaside amusement park. On his 83rd birthday, a tragic accident kills him, as he tries to save a little girl from a falling cart. He awakes in the afterlife, where he learns that heaven is not a destination. It's a place where your life is explained to you by five people, some of whom you knew, others who may have been strangers. One by one, from childhood to soldier to old age, Eddie's five people revisit their connections to him on earth, illuminating the mysteries of his "meaningless" life, and revealing the haunting secret behind the eternal question: "Why was I here?"

In his twisty, gritty, profoundly moving New York Times bestselling-debut--also called "mandatory reading" and selected as an Editors' Choice by the New York Times--Adam Silvera brings to life a charged, dangerous near-future summer in the Bronx. This special 5th Anniversary Edition features an introduction by Angie Thomas, New York Times bestselling author of *The Hate You Give*; a brand-new epilogue by Adam, and more. In the months after his father's suicide, it's been tough for sixteen-year-old Aaron Soto to find happiness again--but he's still gunning for it. With the support of his girlfriend Genevieve and his overworked mom, he's slowly remembering what that might feel like. But grief and the smile-shaped scar on his wrist prevent him from forgetting completely. When Genevieve leaves for a couple of weeks, Aaron spends all his time hanging out with this new guy, Thomas. Aaron's crew notices, and they're not exactly thrilled. But Aaron can't deny the happiness Thomas brings or how Thomas makes him

feel safe from himself, despite the tensions their friendship is stirring with his girlfriend and friends. Since Aaron can't stay away from Thomas or turn off his newfound feelings for him, he considers turning to the Leteo Institute's revolutionary memory-alteration procedure to straighten himself out, even if it means forgetting who he truly is. Why does happiness have to be so hard?

From New York Times Bestselling author Penelope Douglas comes a new forbidden love story... JORDAN He took me in when I had nowhere else to go. He doesn't use me, hurt me, or forget about me. He doesn't treat me like I'm nothing, take me for granted, or make me feel unsafe. He remembers me, laughs with me, and looks at me. He listens to me, protects me, and sees me. I can feel his eyes on me over the breakfast table, and

my heart pumps so hard when I hear him pull in the driveway after work. I have to stop this. It can't happen. My sister once told me there are no good men, and if you find one, he's probably unavailable. Only Pike Lawson isn't the unavailable one. I am. PIKE I took her in, because I thought I was helping. She'd cook a few meals and clean up a little. It was an easy arrangement. As the days go by, though, it's becoming anything but easy. I have to stop my mind from drifting to her and stop holding my breath every time I bump into her in the house. I can't touch her, and I shouldn't want to. The more I find my path crossing hers, though, the more she's becoming a part of me. But we're not free to give into this. She's nineteen, and I'm thirty-eight. And her boyfriend's father. Unfortunately, they both just moved into my house. \*BIRTHDAY GIRL is a stand-alone, contemporary romance suitable for ages 18+.

The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.
