While the impacts of armed conflict the world over have a shocking familiarity - death, disability, rape, displacement, family separation and economic destruction - women's experiences are not uniform. These testimonies reveal the views and experiences of women as fighters, participants, refugees, victims caught between warring factions, organisers for peace and rehabilitation, carers, and mothers, relatives and partners of the dead and the disappeared. Women from El Salvador, Nicaragua, Tigray (Ethiopia), Uganda, Somaliland, Liberia, Sri Lanka, India, Vietnam, Lebanon, Bosnia and Croatia speak of the psychological and physical damage of war, and the battle for economic survival. Long after conflict has died down, its impact continues. Women talk movingly about their efforts to rebuild their lives and those of their families and communities: taking on new roles and extra responsibilities, coping with traumatised children, finding ways to break a cycle of violence and revenge.

This classic volume, by a well-known linguist, constitutes a systematic introduction to sociolinguistics, unmatched in the clarity and forcefulness of its approach, and to the study of language in its social setting.

The tender plant of Albanian literature grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European cultural history in general. Analyzes and reviews the connection between the conflicts in the former Yugoslavia and the growth of the trans-border crime in the region, and also looks at the related issue of corruption. The paper highlights the decisive impact the Yugoslav wars had on the development of the regional criminal networks, which were often set up and maintained not only with the knowledge, but even with active participation of the highest state officials. The research also represents a contribution to the study of conflicts in the Western Balkans. The majority of existing interpretations of causes, course and consequences of the Yugoslav wars try to provide the answers through ethno-political explanations. They unjustly ignore the importance that interweaving of interests of political elites, the organized crime groups, which appeared in this period, and the "mediating class" of corrupt state officials had in this process.

This will be the third in the Roman Conquests series (following Italy and Spain) and one of those with the most obvious appeal. While Rome was struggling for her very survival against the Carthaginians in the Second Punic War, Philip V of Macedon attempted to take advantage of their apparent vulnerability by allying with Hannibal and declaring war. For the time being the Romans negated this threat by shrewd use of allies to keep Philip occupied in Greece and Illyria. Once Carthage was defeated, however, the Romans were free to turn their full attention to settling the score. The stage was set for the clash of two of the most successful military systems of the ancient world, the Roman legions versus the Macedonian phalanx. Though sorely tested, the legions emerged victorious from the epic battles of Cynoscephelae and Pydna, and the home of Alexander the Great fell under the power of Rome, along with the rest of Greece, the cradle of Western Civilization, which had a profound effect on Roman culture and society. Like the other volumes in this series, this book gives a clear narrative of the course of these wars, explaining how the Roman war machine coped with formidable new foes and the challenges of unfamiliar terrain and climate. Specially commissioned color plates bring the main troop types vividly to life in meticulously researched detail.

The first historical heroic epic authored by a woman, Scanderbeide recounts the exploits of fifteenth-century Albanian warrior-prince George Scanderbeg and his war of resistance against the Ottoman sultanate. Filled with scenes of intense and suspenseful battles contrasted with romantic episodes, Scanderbeide combines the action and fantasy characteristic of the genre with analysis of its characters' motivations. In selecting a military campaign as her material and epic poetry as her medium, Margherita Sarrocchi (1560?–1617) not only engages in the masculine subjects of political conflict and warfare but also tackles a genre that was, until that point, the sole purview of men. First published posthumously in 1623, Scanderbeide reemerges here in an adroit English prose translation that maintains the suspense of the original text and gives ample context to its rich cultural implications.

This is the eBook version of the printed book. If the print book includes a CD-ROM, this content is not included within the eBook version. Learn practical guidelines for designing and deploying a scalable BGP routing architecture Up-to-date coverage of BGP features like performance tuning, multiprotocol BGP, MPLS VPN, and multicast BGP In-depth coverage of advanced BGP topics to help design a complex BGP routing architecture Practical design tips that have been proven in the field Extensive configuration examples and case studies BGP Design and Implementation focuses on real-world problems and provides not only design solutions, but also the background on why they are appropriate and a practical overview of how they apply into a top-down design. The BGP protocol is being used in both service provider and enterprise networks. The design goals of these two groups are different, leading to different architectures being used in each environment. The title breaks out the separate goals, and resulting solutions for each group to assist the reader in further understanding different solution strategies. This book starts by identifying key features and functionality in BGP. It then delves into the topics of performance tuning, routing policy development, and architectural scalability. It progresses by examining the challenges for both the service provider and enterprise customers, and provides practical guidelines and a design framework for each. BGP Design and Implementation finishes up by closely looking at the more recent extensions to BGP through Multi-Protocol BGP for MPLS-VPN, IP Multicast, IPv6, and CLNS. Each chapter is generally organized into the following sections: Introduction, Design and Implementation Guidelines, Case Studies, and Summary. Contemporary economists, when analyzing economic behavior of people, need to use the diversity of research methods and modern ways of discovering knowledge. The increasing popularity of using economic experiments requires the use of IT tools and quantitative methods that facilitate the analysis of the research material obtained as a result of the experiments and the formulation of correct conclusions. This proceedings volume presents problems in contemporary economics and provides innovative solutions using a range of quantitative and experimental tools. Featuring selected contributions presented at the 2018 Computational Methods in Experimental Economics Conference (CMEE 2018), this book provides a modern economic perspective on such important issues as: sustainable development, consumption, production, national wealth, the silver economy, behavioral finance, economic and non-economic factors determining the

behavior of household members, consumer preferences, social campaigns, and neuromarketing. International case studies are also offered.

This book identifies strategies that are consistently associated with good teaching and presents them within a theoretical framework that explains how they promote students' active and meaningful learning. The book promotes teachers' pedagogical knowledge and their perception of teaching as scholarly, intellectual work, and provides extensive practical advice.

In High Albania, Victorian anthropologist and travel writer M (Mary) Edith Durham presents a vivid and fascinating insight into the culture, customs, people, and the lands of Northern Albania as it was in the early 20th century.

This book presents an overview of inter-municipal cooperation in eight European countries. Each country study sketches its attendant forms, their institutional design, the tasks and competencies attributed to joint authorities of municipalities and the way inter-municipal cooperation operates in practice. Both performance and democratic aspects of cooperation are recurring topics.

Considers resolution to re-establish congressional policy-making authority in Federal land and water resources development programs. Presents "Libraries in Kosova/Kosovo : A General Assessment and a Short and Medium-Term Development Plan," a report written by Carsten Frederiksen and Frode Bakken for the International Federation of Library Association and Institutions (IFLA) as part of the Free Access to Information and Freedom of Expression (FAIFE) initiative. Describes the current situation of libraries in Kosovo and the task of re-establishing library services.

This book represents a detailed and comprehensive examination of the developments of NATO's engagement in Kosovo, and the related policies of western countries. In addition to offering an in-depth analysis of historical developments in the relationships between Albanians and Serbs, the book also provides a constructive discussion of the events of the Kosovo conflict, which constituted one of the main concerns in the international agenda towards the end of the twentieth century. The basic theme set forth in this book is the reasoning behind NATO's intervention in Kosovo during the spring of 1999, namely to end the conflict between Albanians and Serbs and to aid the Kosovo Albanians in achieving their freedom from the jurisdiction of the Serbian state. Based on extensive evidence, the author analyzes the contradicting stances conveyed at the Security Council regarding the conflict, NATO's military intervention and the issue of Kosovo's future. The book provides useful information for any scholars, students and readers interested in gaining a more detailed understanding of Kosovo's historical developments on an international level. It offers the reader detailed insights into, and descriptions of, the events that took place in the military conflict in Kosovo; it provides various facts and figures, evidences and counterarguments in response to what happened in this politically volatile region."

What are the key factors that affect political trust in a transitional democracy? This question is at the core of the scholarly academic book, Political Trust in Kosovo: Examining Cultural and Institutional Dynamics. This book emerges from a 10-year scientific study, conducted from field research of the political elite and experts in Kosovo. The study uses two original datasets dating from 2012-2013 survey (220 participants) and 2017-2018 survey (40 participants). In this book, Dr. Babamusta dives into trust perceptions across different political-legal

institutions and actors, including the Kosovo Specialist Court, the U.S. Embassy in Kosovo, NATO, the United Nations, the European Union, Kosovo police and legal system, and media/TV. Low levels of political trust pose a serious threat to democracy. A certain degree of trustworthiness in institutions is a necessary precondition for the legitimacy, fairness, and democratic governance. Therefore, trust in political institutions is vital to the democratic functioning of the state. The findings show that at the macro level the functioning of democracy and political institutions matter to political trust.

Hugh Trevor-Roper, SUNDAY TELEGRAPH 'A dreadnought of a book, all big guns, covering the whole history of Kosovo, with an authority that is often breathtaking and never oppressive.' Norman Stone, SUNDAY TIMES
