Out of the core of experience, these essays began as obsessions. Whether founded in some strongly lived moment, deeply held conviction, long-term interest, or persistent and unanswered question, these essays reveal the writer's voice—personal, often passionate, full of conviction, certainly unmistakable. Marianna Torgovnick has drawn together writings by leading contemporary scholars in the humanities, representing fields of literary criticism, American and Romance studies, anthropology, and art history. *Eloquent Obsessions* presents cultural criticism at its thoughtful and writerly best. This collection explores a wide range of issues at the intersection of personal and social history—from growing up in the South to exploring a love for France or Japan, from coming of age as a feminist to mapping the history of National Geographic, from examining the cultural "we" to diagnosing class structures in Israel or showing how photography deals with AIDS. The authors here bring writerly genres—autobiography, memoir, or travel narrative—to intellectual tasks such as textual readings or investigating the histories of institutions. Continuing a tradition of cultural criticism established by writers such as Samuel Johnson, Zora Neale Hurston, Edmund Wilson, Hannah Arendt, or Raymond Williams, these essays seek to make a difference,

to have an impact, and are based on the fundamental premise that writers have something to say about society. Simply put, this collection offers models for writing eloquently about culture—models that are intellectually and socially responsible, but attuned to the critic's voice and the reader's ear. Aimed not just at academics but also at a more general audience alive to the concerns and interests of society today, *Eloquent Obsessions*, a revised and expanded version of a special issue of *South Atlantic Quarterly* (Winter 1992), will extend beyond the academy contemporary ways of writing about culture. Contributors. Jane Collins, Cathy N. Davidson, Virginia R. Dominguez, Mark Edmundson, Gerald Graff, Richard Inglis, Aldona Jonaitis, Alice Yaeger Kaplan, Catherine Lutz, Nancy K. Miller, Linda Orr, Andrew Ross, Henry M. Sayre, Jane Tompkins, Marianna Torgovnick

Why *A World of Art*? Henry Sayre wrote the first edition of *World of Art* because he wanted to use a text in his own art appreciation course that truly represented all artists, not just the Western canon found at that time in the other texts. He also wanted a text that fostered critical thinking through looking at, talking about, and questioning works of art for his students. We are proud to present the new sixth edition of *World of Art*, which further strengthens these two key aspects of the text while presenting hot topics like video and time-based media.

Sayre, literary scholar and art historian, demonstrates that Williams' work, heavily influenced by painters and photographers of the Stieglitz circle, is actually founded in the visual dimension of the printed word and must be approached as both graphic design and the representation of visual experience itself. He traces Williams' preoccupation with a visual order of poetry from his early work to the sophisticated replacement of painting by words in Paterson, Book Five and Pictures from Brueghel. Shows how Williams came to conceive of the poem as a

visual order within which the disarray of the American scene could be composed. He advances a substantially new conception of Williams, forcing readers to reconsider their views. ISBN 0-252-01059-0 : \$12.95.

From prehistoric paintings to Andy Warhol's works, this book pairs full-color reproductions of 50 of the world's most celebrated masterpieces with brief, kid-accessible stories about how they were made, who made them, and where they fit in the fascinating world of art.

"How did art critics come to speak of light and dark as, respectively, "high in value" and "low in value." In this book, Henry Sayre traces the origins of this usage in one of art history's most famous and racially charged paintings, Manet's Olympia. Masterfully researched and argued, this bold study reveals the extraordinary weight of history and politics that Manet's painting bears, and the presence of slavery at modernism's roots. Sayre shows that it was Émile Zola who introduced a new "law of values" to art criticism in an 1867 essay on Manet. Unpacking the intricate contexts of Zola's essay and of several related paintings of Manet, Sayre argues that Zola's use of the economic metaphor of "value" was doubly coded. On the one hand, it was a feint that deflected attention away from Olympia's actual subject and toward the painting's formal qualities. On the other, Sayre argues, "value" for Zola was a trope for the political economy of slavery and the Second Empire's complicity in the ongoing slave trade in

In Proximity of Performance is a collection of miniature stories, parables, musings and thinkpieces on the nature of reading, writing, art, collaboration, performance, life, death, the universe and everything. It is a unique and moving document for our times, full of curiosity and wonder, thoughtfulness and pain. Matthew Goulish, founder member of performance group Goat Island, meditates on these and other diverse themes, proving, along the way, that the boundaries between poetry and criticism, and between creativity and theory, are a lot less fixed than they may seem. The book is revelatory, solemn yet at times hilarious, and genuinely written to inspire - or perhaps provoke - creativity and thought.

Henry Sayre's art appreciation text, *The World of Art*, is an amazing introduction to the world of art. Students with little background in the arts routinely reach out to Henry to share how the text has influenced their lives. This is so meaningful

because Henry's inspiration for A World of Art was his own students. His students wanted to see themselves reflected in their textbook. Henry decided to write an art appreciation textbook that represented all artists, not just the Western canon found at that time in the other texts. He also created a text that fostered critical thinking through looking at, talking about, and questioning works of art for his students. The result was A World of Art and the new seventh edition continues to build on those two themes- coverage of contemporary global art and a strong critical thinking framework throughout the text. This edition includes new ways for students to experience art with the new MyArtsLab, which includes ART 21 videos, Discovering Art simulations, Closer Look tours, and an eText of Writing about Art, also by Henry Sayre. A better teaching and learning experience This program will provide a better teaching and learning experience-- for you and your students. Here's how: Personalize Learning -- The new MyArtsLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. Romanticism is a worldview that finds expression over a whole range of cultural fields—not only in literature and art but in philosophy, theology, political theory, and social movements. In *Romanticism Against the Tide of Modernity* Michael Löwy and Robert Sayre formulate a theory that defines romanticism as a cultural protest against modern bourgeois industrial civilization and work to reveal the unity that underlies the extraordinary diversity of romanticism from the eighteenth

to the twenty-first century. After critiquing previous conceptions of romanticism and discussing its first European manifestations, Löwy and Sayre propose a typology of the sociopolitical positions held by romantic writers—from “restitutionist” to various revolutionary/utopian forms. In subsequent chapters, they give extended treatment to writers as diverse as Coleridge and Ruskin, Charles Peguy, Ernst Bloch and Christa Wolf. Among other topics, they discuss the complex relationship between Marxism and romanticism before closing with a reflection on more contemporary manifestations of romanticism (for example, surrealism, the events of May 1968, and the ecological movement) as well as its future. Students and scholars of literature, humanities, social sciences, and cultural studies will be interested in this elegant and thoroughly original book. Rhyming text describes the search of two young friends for shadows in the everyday world.

Discovering the Humanities helps students see context and make connections across the humanities by tying together the entire cultural experience through a narrative storytelling approach. Pearson Prentice Hall is proud to offer Discovering the Humanities—the new brief version of *The Humanities: Culture, Continuity, and Change* adapted by author Henry Sayre himself. Discovering the Humanities continues to help students see the big picture and make important

connections through Henry Sayre's captivating narrative that has made the comprehensive text successful at schools across the nation. Henry Sayre took the introduction to the humanities course as a sophomore and was inspired to devote his life to the study of the humanities. He has always wanted to write a book that passes along the important and compelling stories of the humanities. Henry believes that students learn best by remembering stories, not by memorizing facts. What makes *Discovering the Humanities* special is that it tells the stories and captures the voices that have shaped and influenced human thinking and creativity.
