A compelling and inventive novel set in a world where science and magic are at odds, by Robin McKinley, the Newbery-winning author of *The Hero and the Crown* and *The Blue Sword*, as well as the classic fantasy titles *Beauty*, *Chalice*, *Spindle's End*, *Pegasus* and *Sunshine* Maggie knows something's off about Val, her mom's new husband. Val is from Oldworld, where they still use magic, and he won't have any tech in his office-shed behind the house. But—more importantly—what are the huge, horrible, jagged, jumpy shadows following him around? Magic is illegal in Newworld, which is all about science. The magic-carrying gene was disabled two generations ago, back when Maggie's great-grandmother was a notable magician. But that was a long time ago. Then Maggie meets Casimir, the most beautiful boy she has ever seen. He's from Oldworld too—and he's heard of Maggie's stepfather, and has a guess about Val's shadows. Maggie doesn't want to know . . . until earth-shattering events force her to depend on Val and his shadows. And perhaps on her own heritage. In this dangerously unstable world, neither science nor magic has the necessary answers, but a truce between them is impossible. And although the two are supposed to be incompatible, Maggie's discovering the world will need both to survive. "A delightful read." —Publishers Weekly "Bound to appeal." —Kirkus Reviews

Philip Skippon was the third-most senior general in parliament's New Model Army during the British Civil Wars. A veteran of European Protestant armies during the period of the Thirty Years' War and long-serving commander of the London Trained Bands, no other high-ranking parliamentarian enjoyed such a long military career as Skippon. He was an author of religious books, an MP and a senior political figure in the republican and Cromwellian regimes. This is the first book to examine Skippon's career, which is used to shed new light on historical debates surrounding the Civil Wars and understand how military events of this period impacted upon broader political, social and cultural themes.

New York Times-bestselling author Robin Cook takes on the ripped-from-the-headlines topic of harnessing DNA from ancestry websites to catch a killer in this timely and explosive new medical thriller. When the body of twenty-eight-year-old social worker Kera Jacobsen shows up on Chief New York City Medical Examiner Laurie Montgomery's autopsy table, at first it appears she was the victim of a tragic yet routine drug overdose. But for Laurie and her new pathology resident, the brilliant but enigmatic Dr. Aria Nichols, little things aren't adding up. Kera's family and friends swear she never touched drugs. Administrators from the hospital where Kera worked are insisting the case be shrouded in silence. And although Kera was ten weeks pregnant, nobody seems to know who the father was--or whether he holds the key to Kera's final moments alive. As a medical emergency temporarily sidelines Laurie, impulsive Aria turns to a controversial new technique: using genealogic DNA databases to track down those who don't want to be found. Working with experts at a start-up ancestry website, she plans to trace the fetus's DNA back to likely male relatives in the hopes of identifying the mystery father. But when Kera's closest friend and fellow social worker is murdered, the need for answers becomes even more urgent. Because someone out there clearly doesn't want Kera's secrets to come to light . . . and if Aria gets any closer to the truth, she and Laurie might find themselves a killer's next targets.

From New York Times culture reporter Dave Izkoff, the definitive biography of Robin Williams – a compelling portrait of one of America's most beloved and misunderstood entertainers. From his rapid-fire stand-up comedy riffs to his breakout role in *Mork & Mindy* and his Academy Award-winning performance in *Good Will Hunting*, Robin Williams

was a singularly innovative and beloved entertainer. He often came across as a man possessed, holding forth on culture and politics while mixing in personal revelations – all with mercurial, tongue-twisting intensity as he inhabited and shed one character after another with lightning speed. But as Dave Itzkoff shows in this revelatory biography, Williams's comic brilliance masked a deep well of conflicting emotions and self-doubt, which he drew upon in his comedy and in celebrated films like *Dead Poets Society*; *Good Morning, Vietnam*; *The Fisher King*; *Aladdin*; and *Mrs. Doubtfire*, where he showcased his limitless gift for improvisation to bring to life a wide range of characters. And in *Good Will Hunting* he gave an intense and controlled performance that revealed the true range of his talent. Itzkoff also shows how Williams struggled mightily with addiction and depression – topics he discussed openly while performing and during interviews – and with a debilitating condition at the end of his life that affected him in ways his fans never knew. Drawing on more than a hundred original interviews with family, friends, and colleagues, as well as extensive archival research, *Robin* is a fresh and original look at a man whose work touched so many lives.

'Hey For Old Robin!' was the cry of the Earl of Essex's army during the First Civil War as, contrary to modern popular belief, Robert Devereux was well-liked by the men he led. This book fills a gap in the literature of the Civil Wars, taking up the challenge to write a new history of Essex and his Army and examining the often-repeated view that he was a cautious dullard with little military skill. The two authors Christopher Scott and Alan Turton, both well known published military historians, present a more balanced view of Parliament's first Lord General, bringing him out of the shadow of Cromwell. In doing so they are not afraid to bite the bullet of period and modern criticism of Essex as a strategist and tactician, as well as his reported failings as a man. Based on primary research, including site visits to scenes of his triumphs and disasters, they trace the story of the early campaigns, beginning with Edgehill, then Brentford and Turnham Green, the relief of Gloucester and the retreat to Newbury, the Siege of Reading, the Thames Valley Campaign, the disaster of Lostwithiel and the rebuilding of the army for Second Newbury. Whilst they leave the detailed examination of the various battles fought by Essex and his men to more specialist books, they tell the story of each of the campaigns and share their thoughts on Essex's problems and his decisions and actions. They also examine how the armies were constituted, officered, recruited and maintained, as well as its reductions and transfers. In separate chapters they describe Essex's Foot, the Horse, the Dragoons, The Artillery and The Train, dealing with what the army wore, what it was paid, what weapons it used, the flags it carried and how it was organised, operated and fought. All this is set within a sound understanding and appreciation of the background of the seventeenth century and Essex's place in the socio-political zeitgeist as well as period military thinking and practice. Illustrated with a wealth of seldom-seen contemporary engravings of Essex's officers and friends and newly commissioned maps, as well as uniform and cornets & colours plates, this work is of great use to anyone with an interest in our civil wars including academics, local historians, re-enactors and wargamers.

In 1955, eighteen-year-old Janet Jones keeps the love she shares with her best friend Marie a secret. It's not easy being gay in Washington, DC, in the age of McCarthyism, but when she discovers a series of books about women falling in love with other women, it awakens something in Janet. As she juggles a romance she must keep hidden and a newfound ambition to write and publish her own story, she risks exposing herself—and Marie—to a danger all too real. Sixty-two years later, Abby Zimet can't stop thinking about her senior project and its subject—classic 1950s lesbian pulp fiction. Between the pages of her favorite book, the stresses of Abby's own life are lost to the fictional hopes, desires and tragedies of the characters she's reading about. She feels especially connected to one author, a woman who wrote under the pseudonym "Marian Love," and becomes determined to track her down and discover her true identity. In this novel told in dual narratives, New York Times bestselling author Robin Talley weaves together the lives of two young women connected across generations through the power of words. A stunning story of bravery, love, how far we've come and how much farther we have to go.

Through her grief and anger, she surrenders to God and trusts that His plans for her are good. Book 3 in The Erodium Trilogy by Kenneth Zink

'The book has a freshness of viewpoint which makes most enjoyable reading.' - Joan Thirsk As the country's largest city, the focus of its trade and cultural life and the possessor of sizeable militia forces and the national capital, London's influence on the country's history has always been very important. In particular its adherence to the parliamentary cause was crucial to the outcome of the first Civil War and its aloofness from the second Civil War was no less significant. The essays in this volume examine the background to its choice of allegiance, the way in which it was secured for the parliamentary cause in 1642, its contribution to the war effort, the royalists' reaction to its recalcitrance, the impact of the war upon the capital and its importance as the centre of politically inspired ceremonial.

This paperback edition of this seminal new study of a key battle of the Civil Wars re-examines one of England's most mysterious battlefields at Edgehill, and it combines the work of three outstanding military historians. Each is an expert in the areas of battlefield interpretation, military equipment and organization, and battle casualties and care. Their unique blend of knowledge gives a fascinating insight into one of the most famous and often misunderstood engagements of the conflict. It also introduces an exciting and innovative approach to understanding the battle and the battlefield.

There are two kinds of families: the ones we are born into and the ones we create. Walk has never left the coastal California town where he grew up. He may have become the chief of police,

but he's still trying to heal the old wound of having given the testimony that sent his best friend, Vincent King, to prison decades before. Now, thirty years later, Vincent is being released. Duchess is a thirteen-year-old self-proclaimed outlaw. Her mother, Star, grew up with Walk and Vincent. Walk is in overdrive trying to protect them, but Vincent and Star seem bent on sliding deeper into self-destruction. Star always burned bright, but recently that light has dimmed, leaving Duchess to parent not only her mother but her five-year-old brother. At school the other kids make fun of Duchess—her clothes are torn, her hair a mess. But let them throw their sticks, because she'll throw stones. Rules are for other people. She's just trying to survive and keep her family together. A fortysomething-year-old sheriff and a thirteen-year-old girl may not seem to have a lot in common. But they both have come to expect that people will disappoint you, loved ones will leave you, and if you open your heart it will be broken. So when trouble arrives with Vincent King, Walk and Duchess find they will be unable to do anything but usher it in, arms wide closed. Chris Whitaker has written an extraordinary novel about people who deserve so much more than life serves them. At times devastating, with flashes of humor and hope throughout, it is ultimately an inspiring tale of how the human spirit prevails and how, in the end, love—in all its different guises—wins.
