**Hidden History** Brian Haughton,2007-01-15 An archaeologist explores history's most fascinating enigmas, from the ancient Druids to the mysteries of the Mayan calendar and the lost city of Atlantis. Across thousands of years of history, so-called lost civilizations still speak to us through their artifacts and architecture. In Hidden History, archaeologist Brian Haughton fills the gap between archaeology and alternative history using the latest available data and a common sense, open-minded approach. Divided into three sections, this expertly researched volume shares the secrets of Mysterious Places, Unexplained Artifacts, and Enigmatic People. Haughton introduces readers to the greatest mysteries of the ancient world, from the labyrinthine palace of Knossos on Crete to the pyramids of Egypt, the remote jungle temples of Peru, and the megalithic mystery of Stonehenge. But he also goes further to explore historical puzzles like the Coso Artifact, the possibility of ancient flight, and the Voynich Manuscript, as well as mysterious peoples from the Magi and the Druids to the Knights Templar and the Green Children. With more than 50 photographs and illustrations, this is the ideal reference work for those interested in the archaeology of these great enigmas.

Secrets of the Lost Races Rene Noorbergen,2001 An increasing number of historical and archaeological finds made around the world have been classified as out-of-place artifacts (ooparts). They have been called this because they appear unexpectedly among the ruins of the past with no evidence of a preceding period of development; their technological sophistication seems far beyond the capabilities of ancient peoples. Drawing on the literature and art of the Chaldeans, Sumerians, Babylonians and others, Rene Noorbergen's contention is that a superior race of man was responsible for these

scientific marvels that bear testimony to a civilization with technology comparable to our own.

**What the Prophet Ether Couldn't Tell Us** Jim Hendleman, 2017-12-11 This book explores some of Noah's trial as he builds the ark, survives the Great Flood, and restarts mankind in Sumeria. Following Noah's descendants into Iraq and the ill-fated Tower of Babylon, God then leads a group of travelers, who became known as the Jaredites, into the biblical Promised Land of Americas. Here, God warns them that should they ever cease their worship of him, they would be forever wiped off the face of the land. They fulfill God's promise to them that they are destined to become the greatest civilization, which lasted about 2,530 years but is totally ignored by ologists. As a result of what became known to history as Noah's Flood, the Jaredites had all of five virgin and completely empty continents and most of a sixth to colonize, as well as many other lands in between. Ultimately, the Jaredites did eventually fall away from their worship of God and, as a result, erased themselves from history through an incredibly vicious civil war.

Using the latest archaeological evidence, History's Mysteries explores: The incredible archaeological discoveries at the 11,000 year-old sanctuary of Göbekli Tepe in Turkey. The heated debate over the 47-million-year-old 'Ida Fossil'—could it be the missing link in our evolutionary history? The reality behind controversial ancient artifacts such as the Iron Pillar of Delhi, the Oak Island Treasure, and Egypt's "Dendera Lamps." What really happened to the Neanderthals? With 36 photographs and illustrations, this is the perfect reference work for those fascinated by the great mysteries of ancient history.

**Haunted Spaces, Sacred Places (EasyRead Large Bold Edition)** Brian Haughton, 2008

**Atlantis** John Michael Greer, 2007 Traces the legend of Atlantis from the original stories found in the works of Plato to the latest scientific debates and discoveries, and argues that the threat of global warming may lead modern society to the same fate.

**Lore of the Ghost** Brian Haughton, 2008-08-14 Lore of the Ghost is an original and thought-provoking exploration of the numerous categories of ghosts and hauntings throughout the world. It discusses the possible motives for each type of haunting? from phantom white ladies and spectral black dogs to haunted highways and ghostly vehicles—what they represent, why they occur, and their possible functions.

**Lost Knowledge of the Ancients** Glenn Kreisberg, 2010-08-13 Thinkers at the forefront in alternative theories on history, the origins of civilization, technology, and consciousness • With contributions by Graham Hancock, Robert Bauval, Mark Booth, Richard Hoagland, Robert Schoch, John Anthony West, and others • Topics range from quantum philosophy and paranormal phenomena to the secret history of NASA, instant polar shifts, and ancient Martian civilizations • Explores where our present time fits into the cycle of human existence A revolution of thought is under way in our world, fostered by decades of research and well-documented evidence by alternative theory pioneers such as Graham Hancock, John Anthony West, Robert Bauval, and Robert Schoch. These provocative, cutting-edge scholars now represent a direct challenge to the academic establishment as the paradigms of science and history shift and their ideas gain acceptance. Representing the latest, often controversial findings in scientific and historical research, this anthology of essays commissioned by Graham Hancock, bestselling author of *Fingerprints of the Gods*, covers the forefront in alternative theories on history, the origins of civilization, technology, and consciousness with topics ranging from quantum philosophy and paranormal phenomena to the ancient use of electromagnetism, the effect of cosmic rays on human evolution, and NASA's cover-up of ancient Martian civilizations. Recognizing that many recent discoveries are actually rediscoveries of lost knowledge from past civilizations, these authors seek to understand where, within the bigger picture of human knowledge, our present time fits into the cycle of human existence.

**Ancient Treasures** Brian Haughton, 2013-07-22 The author of *Hidden History* offers a fascinating tour through centuries of buried riches, stolen artifacts, and other true tales of treasure. The allure of treasure has captivated people for centuries. But is it purely a desire for wealth that draws us to tales of hidden riches, or is it also the romantic appeal of uncovering lost ancient artifacts? The stories behind the loss and recovery of ancient treasures often read like historical suspense fiction. In *Ancient Treasures*, readers discover the true histories of lost hoards, looted archaeological artifacts, and sunken treasures, including: The Sevso Treasure, a hoard of large silver vessels from the late Roman Empire—estimated to be worth \$200 million—looted in the 1970s and sold on the black market. The Amber Room, a chamber decoration of amber panels backed with gold leaf and mirrors, stolen by the Nazis in 1941 and brought to the castle at Königsberg in Russia, from which it disappeared. The fabulous wealth of Roman and Viking hoards buried in the ground for safekeeping, only to be unearthed centuries later by humble metal detectorists. The wrecks of the Spanish treasure fleets, whose New World plunder has been the target of elaborate salvage attempts by modern treasure hunters

*Invented Knowledge* Ronald H. Fritze, 2009-05-15 Were the Chinese the first to discover America in 1421? Did Jesus and Mary Magdalene have children together? Did extraterrestrials visit the earth during prehistory and teach humans how to build pyramids and stone structures? These are only a few of the controversial and intriguing questions that Ronald H. Fritze investigates in *Invented Knowledge*. This incredible exploration of the murky world of pseudo-history reveals the proven fact,

the informed speculation, and the pure fiction behind lost continents, ancient super-civilizations, and conspiratorial cover-ups—as well as the revisionist historical foundations behind religions such as the Nation of Islam and the Church of Jesus Christ of the Latter-day Saints. Drawing on the best scholarship available, Fritze shows that in spite of strong, mainstream historical evidence to the contrary, many of these ideas have proved durable and gained widespread acceptance. As the examples in *Invented Knowledge* reveal, pseudo-historians capitalize on and exploit anomalies in evidence to support their claims, rather than examining the preponderance of research as a whole. From Indiana Jones and the Kingdom of the Crystal Skull to 10,000 B.C., the sensationalist topics of pseudo-history captivate audiences and permeate popular culture. *Invented Knowledge* offers many entertaining and enthralling examples of spurious narratives, artificial chronologies, and ersatz theories in a book guaranteed to intrigue, open eyes, and spark conversation among readers—skeptics and believers alike.

*Atlantis and Other Lost Worlds* Frank Joseph, 2021-07-01 In a single day and night of misfortune, the island of Atlantis disappeared into the depths of the sea - Plato, 360 B.C. Ever since Plato first pondered the existence of Atlantis, the truth behind this infamous sunken city has captured the world. *Atlantis and Other Lost Worlds* is the most up-to-date and comprehensive investigation of this ancient island, written by the foremost authority on the subject Frank Joseph. Nowhere else will you find a more dramatic and convincing presentation of the evidence for its archaeological reality. The book uncovers the scientific genius of the ancients and the spiritual power of their mysterious religion. They are revealed as the inventors of a crystal technology to surpass our own, and the master builders of pyramidal monuments around the world. The cultural heritage of Atlantis in the civilizations of pharaonic Egypt, Bronze Age Europe, Maya Mexico and Inca Peru is clearly described. The doomed capital comes alive in a vivid recreation of its heyday of cultural splendor and imperial might. Inside these pages you will find the answers to many intriguing questions, including: • What is the most likely location of Atlantis? • How and when was Atlantis destroyed? • Has Japan's leading geologist found the sunken 'citadel' of Lemuria? • Have Russian oceanographers found the ruins of Atlantis? • What are the disturbing parallels between Atlantis and our time? *Atlantis and Other Lost Worlds* opens a new window on the ancient past, offering views of Atlantis and its kindred civilizations never seen before.

*Twilight of the Gods* Erich von Däniken, 2010-07-29 Bestselling author Erich von Däniken delves into the mysteries of the Mayan civilization and when the extraterrestrial will return. Includes a Foreword by Giorgio Tsoukalos. High up in the Bolivian Andes-4,000 meters above sea level-lies Puma punku, an ancient ruined city that simply could never have been constructed by its Stone Age inhabitants. Something here really stinks to high heaven, writes Erich von Daniken. In *Twilight of the Gods*, says von Daniken, I document precisely what it was that left the first visitors breathless as they stood before the mighty stone blocks some 400 years ago. I will show you what archeologists discovered hundreds of years ago and demonstrate how much has been destroyed over the centuries. Intentionally. I will also prove that Puma punku was not built

by any Stone Age people. And in December 2012, the gods will return from their long journey and appear again here on Earth. At least that is what the Mayan calendar would have us believe. The so-called gods—the extraterrestrials—will come again. We're headed for a 'god shock' of major proportions. But doesn't anyone with half a brain know that interstellar travel is simply impossible because of the sheer distances involved? And that extraterrestrials would never look like us? Well, dear readers, I destroy these preconceptions. Systematically. One bit at a time. In his own inimitable way, Erich von Daniken picks these preconceptions and prejudices apart with a clarity no other author could manage.

**Artificial Intelligence: An Illustrated History** Clifford A. Pickover, 2024-08-27 A History of the Future that's Happening Right Now Artificial Intelligence: An Illustrated History explores the historic origins and current applications of AI in such diverse fields as computing, medicine, popular culture, mythology, and philosophy. Through more than 100 entries, award-winning author Clifford A. Pickover, offers a granular, yet accessible, glimpse into the world of AI—from medieval robots and Boolean algebra to facial recognition, and artificial neural networks. First released in 2019, this updated paperback edition brings readers up to speed with coverage of technologies such as DALL-E and ChatGPT, and it explores the very real fear that AI will alter the course of humanity—forever.

*The Search for Atlantis* Stephen Kershaw, 2018-10-02 The Atlantis story remains one of the most haunting and enigmatic tales from antiquity, and one that still resonates very deeply with the modern imagination. But where did Atlantis come from, what was it like, and where did it go? Atlantis was first introduced by the Greek philosopher Plato in the fourth century BCE. As he discusses about the origins of life, the universe and humanity, the great thinker puts forward a stunning description of Atlantis—an island paradise with an ideal society. But the Atlanteans soon degenerate and become imperialist aggressors: they choose to fight against antediluvian Athens, which heroically repels their mighty forces, before a cataclysmic natural disaster destroys the warring states. Plato's tale of a great empire that sank beneath the waves has sparked thousands of years of debate over whether Atlantis really existed. But did Plato mean his tale as history—or just as a parable to help illustrate his philosophy?

**Encyclopedia of Paranormal Powers** Brian Haughton, 2010 A reference guide to mystical abilities that helps you discover the secrets of mind readers, mediums, astro projectors and many more. It offers coverage ranging from the dark world of secret programmes, to those claiming to possess particular powers, including the controversial Natalya Demkina - The Girl with X-Ray Vision.

**The Source Field Investigations** David Wilcock, 2012-07-31 Prepare yourself for a revealing tour through the most incredible scientific mysteries of the world with your guide David Wilcock, the New York Times bestselling author of *Awakening in the Dream*. More than two million people have seen David Wilcock's incredible tour of the 2012 prophecies in his Internet documentary, *The 2012 Enigma*. Now, he expands his vision with a cutting-edge investigation into alternative

sciences with deep insights into what is coming in our immediate future. A stunning synthesis of hidden science and lost prophecies, *The Source Field Investigations* exposes DNA transformation, wormholes, ancient conspiracies, the Maya calendar, and a new model of galactic energy fields triggering mental, biological, and spiritual evolution. Unlike the apocalyptic viewpoints depicted in big-budget disaster films, Wilcock believes that 2012 will be a watermark for widespread acceptance of a greater reality—and here, he lays out the blueprints for such a Golden Age.
