Old-school prospecting tactics are growing increasingly irrelevant in today's tech-savvy online business world. But new-school techniques alone have proven to not be able to provide the answers. The key to your success is to learn how to unleash a killer combination of old and new sales strategies. This textbook answers the basic questions: "What is business development?" "What does the business developer do?" and "What characterises good, structured, effective business development?" Distinguishing business development and the tasks of the business developer from traditional approaches of strategic management, entrepreneurship, and strategic marketing, this textbook will enable the market-oriented business developer to conceive, craft, and implement superior business plans. The book is divided into three modules focusing on the market-oriented business developer's mindset, on providing a state-of-the-art toolbox for careful strategic analyses and decisions, and lastly on the critical aspects of business plans and their content. The approach of the book is focused and selective in its choice of content and provides a cumulative development of the relevant topics. Each chapter includes an 'implications for the market-oriented business developer' at the end to enhance a student's learning. The content of the book is applicable to any new business venture as well as for the development and implementation of growth opportunities in mature organizations. Inherently international in its scope, the text includes numerous real world examples, taken from the author's own experience as a biotech entrepreneur, as well as from the wider global business community.

There is a silver bullet in sales its called timing when you get to highly motivated decision makers at EXACTLY the right time: after they experience a Trigger Event BUT before they call your competition. When you have the right timing the sale almost happens by itself There are few challenges getting to the prospect, understanding their dissatisfaction, presenting a solution, or closing the sale. By luck or sheer numbers youve had timing happen before, not its time to make it happen again, and again, and again. ... simple but profound truths that will help you leverage intent for immediate action and cut down the selling cycle, while creating lasting bonds with customers. "Always be closing!" —Glengarry Glen Ross, 1992 "Never Be Closing!" —a sales book title, 2014 "?????" —salespeople everywhere, 2017 For decades, sales managers, coaches, and authors talked about closing as the most essential, most difficult phase of selling. They invented pushy tricks for the final ask, from the "take delivery" close to the "now or never" close. But these tactics often alienated customers, leading to fads for the "soft" close or even abandoning the idea of closing altogether. It sounded great in theory, but the results were often mixed or poor. That left a generation of salespeople wondering how they should think about closing, and what strategies would lead to the best possible outcomes. Anthony Iannarino has a different approach geared to the new technological and social realities of our time. In *The Lost Art of Closing*, he proves that the final commitment can actually be one of the easiest parts of the sales process—if you've set it up properly with other commitments that have to happen long before the close. The key is to lead customers through a series of necessary steps designed to prevent a purchase stall. Iannarino addressed this in a chapter of *The Only Sales Guide You'll Ever Need*—which he thought would be his only book about selling. But he discovered so much hunger for guidance about closing that he's back with a new book full of proven tactics and useful examples. *The Lost Art of Closing* will help you win customer commitment at ten essential points along the purchase journey. For instance, you'll discover how to:

- Compete on value, not price, by securing a Commitment to Invest early in the process.
- Ask for a Commitment to Build Consensus within the client's organization, ensuring

that your solution has early buy-in from all stakeholders. - Prevent the possibility of the sale falling through at the last minute by proactively securing a Commitment to Resolve Concerns. The Lost Art of Closing will forever change the way you think about closing, and your clients will appreciate your ability to help them achieve real change and real results.\

Brian Tracy, one of the top professional speakers and sales trainers in the world today, found that his most important breakthrough in selling was the discovery that it is the "Psychology of Selling" that is more important than the techniques and methods of selling. Tracy's classic audio program, The Psychology of Selling, is the best-selling sales training program in history and is now available in expanded and updated book format for the first time. Salespeople will learn: "the inner game of selling" how to eliminate the fear of rejection how to build unshakeable self-confidence Salespeople, says Tracy, must learn to control their thoughts, feelings, and actions to make themselves more effective.

Search engines and social media have certainly changed how prospecting pipelines for salespeople are built today, but the vitality of the pipeline itself has not. Even today, the key to success for every salesperson is his pipeline of prospects. Top producers are still prospecting. All. The. Time. However, buyers have evolved, therefore your prospecting needs to as well. In High-Profit Prospecting, sales expert Mark Hunter shatters costly prospecting myths and eliminates confusion about what works today. Merging new strategies with proven practices that unfortunately many have given up (much to their demise), this must-have resource for salespeople in every industry will help you:

- Find better leads and qualify them quickly
- Trade cold calling for informed calling
- Tailor your timing and message
- Leave a great voicemail and craft a compelling email
- Use social media effectively
- Leverage referrals
- Get past gatekeepers and open new doors
- And more

For the salesperson, prospecting is still king. Take back control of your pipeline for success!

Selling is tougher than ever before. Potential customers are under extreme pressure to do more with less money, less time, and fewer resources, and they're wary of anyone who tries to get them to buy or change anything. Under such extreme conditions, yesterday's sales strategies no longer work. No matter how great your offering, you face the daunting task of making yourself appear credible, relevant, and valuable. Now, internationally recognized sales strategist Jill Konrath shows how to overcome these obstacles to get more appointments, speed up decisions, and win sales with these short-fused, frazzled customers. Drawing on her years of selling experience, as well as the stories of other successful sellers, she offers four SNAP Rules:

- Keep it Simple: When you make things easy and clear for your customers, they'll change from the status quo.
- Be iNvaluable: You have to stand out by being the person your customers can't live without.
- Always Align: To be relevant, make sure you're in synch with your customers' objectives, issues, and needs.
- Raise Priorities: To maintain momentum, keep

the most important decisions at the forefront of their mind. SNAP Selling is an easy-to-read, easy-to-use guide for any seller in today's increasingly frenzied environment.

Cold calling is one of the most awkward -- and unsuccessful -- ways to obtain clients in business. Now Joanne S. Black shares her proven 5-step Referral Selling system, so no businessperson ever has to make a cold call again. In this unique and practical guide, Black offers a tutorial on how to differentiate your business from your competitors, make favorable impressions on current clients so they'll refer their acquaintances, and set a "hook" that will leave them wanting more. NO MORE COLD CALLING provides selling scripts, presentation techniques, troubleshooting advice, and a host of helpful insights to increase any sales force's productivity.

There are few one-size-fits-all solutions in sales. Context matters. Complex sales are different from one-call closes. B2B is different than B2C. Prospects, territories, products, industries, companies, and sales processes are all different. There is little black and white in the sales profession. Except for objections. There is democracy in objections. Every salesperson must endure many NOs in order to get to YES. Objections don't care or consider: Who you are What you sell How you sell If you are new to sales or a veteran If your sales cycle is long or short – complex or transactional For as long as salespeople have been asking buyers to make commitments, buyers have been throwing out objections. And, for as long as buyers have been saying no, salespeople have yearned for the secrets to getting past those NOs. Following in the footsteps of his blockbuster bestsellers Fanatical Prospecting and Sales EQ, Jeb Blount's Objections is a comprehensive and contemporary guide that engages your heart and mind. In his signature right-to-the-point style, Jeb pulls no punches and slaps you in the face with the cold, hard truth about what's really holding you back from closing sales and reaching your income goals. Then he pulls you in with examples, stories, and lessons that teach powerful human-influence frameworks for getting past NO - even with the most challenging objections. What you won't find, though, is old school techniques straight out of the last century. No bait and switch schemes, no sycophantic tie-downs, no cheesy scripts, and none of the contrived closing techniques that leave you feeling like a phony, destroy relationships, and only serve to increase your buyers' resistance. Instead, you'll learn a new psychology for turning-around objections and proven techniques that work with today's more informed, in control, and skeptical buyers. Inside the pages of Objections, you'll gain deep insight into: How to get past the natural human fear of NO and become rejection proof The science of resistance and why buyers throw out objections Human influence frameworks that turn you into a master persuader The key to avoiding embarrassing red herrings that derail sales calls How to leverage the "Magical Quarter of a Second" to instantly gain control of your emotions when you get hit with difficult objections Proven objection turn-around frameworks that give you confidence and control in virtually every sales situation How to easily skip past reflex responses on cold calls and when prospecting How to move past brush-offs to get to the next step, increase pipeline velocity, and shorten the sales cycle The 5 Step Process for Turning Around Buying Commitment Objections and closing the sale Rapid Negotiation techniques that deliver better terms and higher prices As you dive into these powerful insights, and with each new chapter, you'll gain greater and greater confidence in your ability to face and effectively handle objections in any selling situation. And, with this new-found confidence, your success and income will soar.

per week on the phone, and our job is to talk to humans!). Fear is the reason we don't ask for the business more, even though our customers want to buy from us. Fear is the reason we don't offer our customers additional products and services, even though they would love to buy more from us. This book deals with that fear. You will learn exactly how to overcome this destructive fear in sales, and replace it with confidence, optimism, gratitude, joy, and proactive sales work. These are the powerful principles in the new field of positive psychology which are transforming how we work and succeed. *Selling Boldly* is the first book that leverages positive psychology to help you sell more. You'll also learn a series of fast, simple sales-growth techniques—like how to add on to existing orders; and how to close 20% more quotes and proposals instantly; and how to properly ask for and receive referrals—that will grow your sales...dramatically and quickly. Alex Goldfayn's clients grow their sales by 10-20% annually, every year, as long as they apply his simple approaches. YOU ALREADY KNOW WHAT TO DO I am not going to teach you much in this book that you don't already know. You're a professional salesperson. You do this for a living. You know, for example, that testimonials and referrals are among the best ways we have to grow sales, right? But do you ask for them enough? Most people don't. You know that calling a customer on the phone is more effective than emailing her, but you still often revert to email. You know your customers buy other products and services that you can help them with, but you don't ask them about these products. You'd like to help them, and they would like more of your help — that is why they've been with you for five or ten or twenty years — but nevertheless we don't ask them. There is a difference between knowing what to do, and actually doing it. I know you know. With *Selling Boldly*, we start to do what we already know. We will cover what keeps us from doing these things (fear), how to overcome it (by listening to your happy customers), and how to implement these simple but powerful sales growth techniques (by briefly planning them, also doing them). Because sales growth comes from doing, not knowing. Today, we start doing. And growing. These approaches are laid out in this book, in precise detail, for you to implement in your own work. Alex doesn't hold anything back in this manual for selling more. What's the secret to selling more? There is no secret. There is no magic bullet. There is only the work. There are only the mindsets, and the communications. In *Selling Boldly*, Alex teaches readers how to attain these mindsets, and how to implement these communications, so that sales have no choice but to grow!

"If we don't drop our price, we will lose the deal." That's the desperate cry from salespeople as they try to win deals in competitive marketplaces. While the easy answer is to lower the price, the company sacrifices margin--oftentimes unnecessarily. To win deals at the prices you want, the strategy needed is differentiation. Most executives think marketing is the sole source of differentiation. But what about the sales function of the company? This commonly neglected differentiation opportunity provides a multitude of ways to stand out from the competition. This groundbreaking book teaches you how to develop those strategies. In *Sales Differentiation*, sales management strategist, Lee B. Salz presents nineteen easy-to-implement concepts to help salespeople win deals while protecting margins. These concepts apply to any salesperson in any industry and are based on the foundation that "how you sell, not just what you sell, differentiates you." The strategies are presented in easy-to-understand stories and can quickly be put into practice. Divided into two sections, the "what you

sell" chapters help salespeople: Recognize that the expression "we are the best" causes differentiation to backfire. Avoid the introspective question that frustrates salespeople and ask the right question to fire them up. Understand what their true differentiators are and how to effectively position them with buyers. Find differentiators in every nook and cranny of the company using the six components of the "Sales Differentiation Universe." Create strategies to position differentiators so buyers see value in them. The "how you sell" section teaches salespeople how to provide meaningful value to buyers and differentiate themselves in every stage of the sales process. This section helps salespeople: Develop strategies to engage buyers and turn buyer objections into sales differentiation opportunities. Shape buyer decision criteria around differentiators. Turn a commoditized Request for Proposal (RFP) process into a differentiation opportunity. Use a buyer request for references as a way to stand out from the competition. Leverage the irrefutable, most powerful differentiator...themselves. Whether you've been selling for twenty years or are new to sales, the tools you learn in Sales Differentiation will help you knock-out the competition, build profitable new relationships, and win deals at the prices you want. Ever since he wrote *The Art of the Deal*, Trump has been the world's most famous negotiator—even though he didn't reveal his actual deal-making secrets. Now, George Ross explains the tactics that took Trump to the top and how you can use those same tactics and strategies in your daily negotiations. A practical, real-world negotiation playbook, this is the ultimate guide for anyone who wants to negotiate like a proven winner.

A blunt wake-up call to salespeople and sales leaders that debunks the myths of the latest miracle solutions and refocuses your sales strategy on a proven approach that will drive the results you want. Can you handle the truth? Can succeeding in sales be as simple as hooking up the latest CRM tool or perfecting your social media profiles and waiting for qualified leads to automatically show up in your inbox? Are you having trouble believing what the new self-proclaimed "experts" keep posting on LinkedIn and beginning to question their proclamation that everything in sales has changed? Welcome to the world of sales, where the one constant you can bank on is the noise from so-called experts and thought leaders who want to convince you everything has changed and that you need their latest tools, toys, or tricks to stay even or get ahead of the pack. Yet, ironically, it seems that the more of these new miracle solutions you adopt, the harder it is to get results. In *Sales Truth*, Mike Weinberg offers a blunt wake-up call to salespeople and sales leaders on how to get past the noise and nonsense, so you can start winning more New Sales. Here's the truth: Many of these so-called sales experts lack clients, credibility, and a track record of helping sellers achieve breakthrough results. The number of "likes" a sales improvement article receives is often inversely proportional to its accuracy or helpfulness to the typical seller or sales team. What has worked exceedingly well in sales and sales management for the past couple of decades is still the (not so) secret to sales success today, and you can discover these accessible, simple truths and best practices that will drive the results you want in this bold new book. Mike Weinberg, bestselling author of *New Sales. Simplified.* and *Sales Management. Simplified.*, brings sanity back to the sales effectiveness table by sharing proven strategies that he sees working firsthand across sales teams in a myriad of industries around the globe. The USA Today bestseller by the star sales speaker and author of The Sales Blog that reveals how all salespeople can attain huge sales success through strategies backed by extensive research and experience. Anthony Iannarino never set out to become a salesman, let alone a sales manager, speaker, coach, or writer of the most prominent blog about the art and science of great selling. He fell into his profession by accident, as a day job while pursuing rock-and-roll stardom. Once he realized he'd never become the next Mick Jagger, Iannarino turned his focus to a question that's been debated for at least a century: Why are a small number of salespeople in any field hugely successful, while the rest get mediocre results at best? The answer is simple: it's not about the market, the product, or the competition—it's all about the seller. And consequently, any salesperson can sell more and better, all the time. Over twenty-five years, Iannarino has boiled down everything he's learned and tested into one convenient book that explains what all successful sellers, regardless of industry or organization, share: a mind-set of powerful beliefs and a skill-set of key actions, including...

- Self-discipline: How to keep your commitments to yourself and others.
- Accountability: How to own the outcomes you sell.
- Competitiveness: How to embrace competition rather than let it intimidate you.
- Resourcefulness: How to blend your imagination, experience, and knowledge into unique solutions.
- Storytelling: How to create deeper relationships by presenting a story in which the client is the hero and you're their guide.
- Diagnosing: How to look below the surface to figure out someone else's real challenges and needs.

Once you learn Iannarino's core strategies, picking up the specific tactics for your product and customers will be that much easier. Whether you sell to big companies, small companies, or individual consumers, this is the book you'll turn to again and again for proven wisdom, strategies, and tips that really work. Guide You'll Ever Need and The Lost Art of Closing. Like it or not, sales is often a zero-sum game: Your win is someone else's loss. Most salespeople work in mature, overcrowded industries, your offerings perceived (often unfairly) as commodities. Growth requires taking market share from your competitors, while they try to do the same to you. How else can you grow 12 percent a year in an industry that's only growing by 3 percent? It's not easy for any salesperson to execute a competitive displacement--or, in other words, "eat their lunch." You might think this requires a bloodthirsty "whatever it takes" attitude, but that's the opposite of what works. If you act like a Mafia don, you only make yourself difficult to trust and impossible to see as a long-term partner. Instead, this book shows you how to find and maintain a long-term competitive advantage by taking steps like:

- ranking prospective new clients not by their size or convenience to you, but by who stands to gain the most from your solution.
- understanding the different priorities for everyone in your prospect's organization, from the CEO to the accountants, and addressing their various concerns.
- developing a systematic contact plan for all those different stakeholders so you can win over the right people at the organization in the optimal sequence. Your competitors may be tough, but with the strategies you'll discover in this book, you'll soon be eating their lunch.

"I felt like time was taunting me: 'Behind again? You'll never get it all done.' I worked harder and longer hours, sacrificing my limited personal time to stay ahead of the game. Still, it wasn't sufficient. My work just kept expanding, demanding more of me. I could never seem to call it a day. In my entire career, I'd never faced a sales problem of this magnitude." Sound familiar? If so, you're probably an overwhelmed seller. Your clients expect more, with faster turnarounds. Your quota keeps going up. You need to leverage social media, keep up-to-date on your industry, figure out how to sell new products and services, and learn all the latest technologies. The demands are never-ending. You could work nonstop around the clock and still not get it all done. It's a huge problem faced by experienced sales pros, busy entrepreneurs, and sales rookies. If you don't stay on top of your time, it's tough to make your numbers, let alone blow them away. Konrath, a globally recognized sales consultant and speaker, knew she needed help, but found that advice aimed at typical workers didn't work for her—or for others who needed to sell for a living. Salespeople need their own productivity guidelines adapted to the fast-paced, always-on sales world. So Konrath experimented relentlessly to discover the best time-savers and sales hacks in order to deliver the first productivity guide specifically for sales success. In *More Sales, Less Time*, Konrath blends cutting-edge behavioral research with her own deep knowledge of sales to teach you how to succeed in this age of distraction. You'll discover how to:

- Reclaim a minimum of one hour per day by eliminating major time sucks and changing the way you tackle e-mail and social media.
- Free up time to focus on activities that have the highest impact on your sales results, such as preparing, researching, strategizing, and connecting with customers.
- Optimize your sales processes to eliminate redundancies and wasted time.
- Transform your mind-set to effortlessly incorporate new, more productive habits; leverage your best brainpower; and stay at the top of your sales game.

Konrath helps you develop strategies specifically tailored to your life in sales, using your strengths to cut through the feeling of being overwhelmed. All salespeople have the same number of hours in a day; it's up to you to rescue your time to sell

Sales genius is a team sport. As a B2B sales leader, you know that by Murphy's Law, despite your team's best efforts, some deals will inevitably get stuck or key relationships will go sour. And too often, it's the most important ones—the last thing you need when millions of dollars are on the line. "Dealstorming" is Tim Sanders's term for a structured, scalable, repeatable process that can break through any sales deadlock. He calls it "a Swiss Army knife for today's toughest sales challenges." It fixes the broken parts of the brainstorming process and reinvigorates account management for today's increasingly complicated sales environment. Dealstorming drives sales innovation by combining the wisdom and creativity of everyone who has a stake in the sale. You may think you are applying teamwork to your challenges, but don't be so sure. There's a good chance you're operating inside a sales silo, not building a truly collaborative team across your whole company. The more disciplines you bring into the process, the more unlikely (but effective!) solutions the team can come up with. Sanders explains his seven-step Dealstorming process and shows how it has helped drive results for companies as diverse as Yahoo!, CareerBuilder, Regus, and Condé Nast. You'll learn how to get the right team on board for a new dealstorm, relative to the size of the sales opportunity and its degree of difficulty. The key is adding people from non-sales areas of your company, making them collaborators early in the process. That will help them own the execution and delivery after the deal is done. The book includes real world examples from major companies like Oracle and Skillsoft, along with problem finding exercises, innovation templates, and implementation strategies you can apply to your unique situation. It's based on Sanders' many years as a sales executive and consultant, personally leading dozens of sales collaboration projects. It also features the results of interviews with nearly two hundred B2B sales leaders at companies such as LinkedIn, Altera and Novell. The strategies laid out in Dealstorming have led to a stunning 70% average closing ratio for teams across all major industries, leading to game-changing deals and long-term B2B relationships. Now you can learn how to make dealstorming work for you.

People don't buy from people they like. No! Your buyer doesn't care about you or your product or service. It's not your job to overcome objections, it's your buyer's. Closing isn't a skill of good salespeople; it's the skill of weak salespeople. Price isn't the main reason salespeople lose the sale. Gap Selling shreds traditional and closely held sales beliefs that have been hurting salespeople for decades. For years, salespeople have embraced a myriad of sales tactics and belief systems that have unknowingly created many of the issues they have been trying to avoid such as: long sales cycles, price objections, no decision, prospects going dark, last minute feature requests, and more. Success at sales requires more than a set of tactics.

Salespeople need to understand the game of sales, how sales works, and what the buyer is going through in order to make the decision to buy (change) or not to buy (not change). Gap Selling is a game-changing book designed to raise the sales IQ of selling organizations around the world. In his unapologetic and irreverent style, Keenan breaks down the tired old sales myths causing today's frustrating sales issues, to highlight a deceptively powerful new way to connect with buyers. Today's sales world is littered with glorified order takers, beholden to a frustrated buyer, unable to influence the sale and create value. Gap Selling flips the script and creates salespeople with immense influence at every stage of the buying process, capable of impacting the sales metrics that matter: Shorter Sales Cycles Increased Revenue Elevated Deal Values Higher Win Rates Fewer No Decisions More Leads And Happier Buyers Gap Selling elevates the sales world's selling IQ and turns sales order takers into sales influencers. Customers today are overloaded with information and overwhelmed by options. The truth is, product value is so high across the competition that any kind of meaningful product differentiation--at least in the customers' eyes--has all but disappeared. Therefore, between not recognizing product differences, combined with not having any time to spare to investigate what they don't know, the difference maker for many decision makers . . . is you! The salesperson who is always responsive and completely focused on value will, more times than not, be the one who will stand out from the crowd and get the sale. Combining leading-edge
