Shortlisted for the 2021 Booker Prize Longlisted for the 2021 National Book Award for Fiction A heartrending new novel from the Pulitzer Prize–winning and #1 New York Times best-selling author of *The Overstory*. Named one of the Most Anticipated Books of 2021 by *Newsweek*, *Los Angeles Times*, *New York Magazine*, *Chicago Tribune*, *BuzzFeed*, *BookPage*, *Goodreads*, *Literary Hub*, *The Millions*, *New Statesman*, and *Times of London* The astrophysicist Theo Byrne searches for life throughout the cosmos while single-handedly raising his unusual nine-year-old, Robin, following the death of his wife. Robin is a warm, kind boy who spends hours painting elaborate pictures of endangered animals. He's also about to be expelled from third grade for smashing his friend in the face. As his son grows more troubled, Theo hopes to keep him off psychoactive drugs. He learns of an experimental neurofeedback treatment to bolster Robin's emotional control, one that involves training the boy on the recorded patterns of his mother's brain... With its soaring descriptions of the natural world, its tantalizing vision of life beyond, and its account of a father and son's ferocious love, *Bewilderment* marks Richard Powers's most intimate and moving novel. At its heart lies the question: How can we tell our children the truth about this beautiful, imperiled planet?

The instant Wall Street Journal, USA Today, and international bestseller “While the history books are filled with tales of obsessive visionary geniuses who remade the world in their image with sheer, almost irrational force, I’ve found that history is also made by individuals who fought their egos at every turn, who eschewed the spotlight, and who put their higher goals above their desire for recognition.” —from the prologue Many of us insist the main impediment to a full, successful life is the outside world. In fact, the most common enemy lies within: our ego. Early in our careers, it impedes learning and the cultivation of talent. With success, it can blind us to our faults and sow future problems. In failure, it magnifies each blow and makes recovery more difficult. At every stage, ego holds us back. *Ego Is the Enemy* draws on a vast array of stories and examples, from literature to philosophy to history. We meet fascinating figures such as George Marshall, Jackie Robinson, Katharine Graham, Bill Belichick, and Eleanor Roosevelt, who all reached the highest levels of power and success by conquering their own egos. Their strategies and tactics can be ours as well. In an era that glorifies social media, reality TV, and other forms of shameless self-promotion, the battle against ego must be fought on many fronts. Armed with the lessons in this book, as Holiday writes, “you will be less invested in the story you tell about your own specialness, and as a result, you will be liberated to accomplish the world-changing work you’ve set out to achieve.”

INSTANT NEW YORK TIMES BESTSELLER A Good Morning America, Esquire, and Read with Marie Claire

Book Club Pick and a People Best Book of Summer Named a Most Anticipated Book of 2021 by Time, The Washington Post, Harper's Bazaar, Entertainment Weekly, Marie Claire, Bustle, BuzzFeed, Parade, Goodreads, Fortune, and BBC ??Urgent, propulsive, and sharp as a knife, *The Other Black Girl* is an electric debut about the tension that unfurls when two young Black women meet against the starkly white backdrop of New York City book publishing. Twenty-six-year-old editorial assistant Nella Rogers is tired of being the only Black employee at Wagner Books. Fed up with the isolation and microaggressions, she's thrilled when Harlem-born and bred Hazel starts working in the cubicle beside hers. They've only just started comparing natural hair care regimens, though, when a string of uncomfortable events elevates Hazel to Office Darling, and Nella is left in the dust. Then the notes begin to appear on Nella's desk: LEAVE WAGNER. NOW. It's hard to believe Hazel is behind these hostile messages. But as Nella starts to spiral and obsess over the sinister forces at play, she soon realizes that there's a lot more at stake than just her career. A whip-smart and dynamic thriller and sly social commentary that is perfect for anyone who has ever felt manipulated, threatened, or overlooked in the workplace, *The Other Black Girl* will keep you on the edge of your seat until the very last twist.

"Blazingly original, wry, and perfectly attuned to the oddness—and the profundity—of life" (Cristina Henríquez), Claire Luchette's debut, *Agatha of Little Neon*, is a novel about yearning and sisterhood, figuring out how you fit in (or don't), and the unexpected friends who help you find

your truest self Agatha has lived every day of the last nine years with her sisters: they work together, laugh together, pray together. Their world is contained within the little house they share. The four of them are devoted to Mother Roberta and to their quiet, purposeful life. But when the parish goes broke, the sisters are forced to move. They land in Woonsocket, a former mill town now dotted with wind turbines. They take over the care of a halfway house, where they live alongside their charges, such as the jawless Tim Gary and the headstrong Lawnmower Jill. Agatha is forced to venture out into the world alone to teach math at a local all-girls high school, where for the first time in years she has to reckon all on her own with what she sees and feels. Who will she be if she isn't with her sisters? These women, the church, have been her home. Or has she just been hiding? Disarming, delightfully deadpan, and full of searching, Claire Luchette's *Agatha of Little Neon* offers a view into the lives of women and the choices they make.

“A good read for anyone who wants to understand what actually determines whether a developing economy will succeed” (Bill Gates, “Top 5 Books of the Year”). An Economist Best Book of the Year from a reporter who has spent two decades in the region, and who The Financial Times said “should be named chief myth-buster for Asian business.” In *How Asia Works*, Joe Studwell distills his extensive research into the economies of nine countries—Japan, South Korea, Taiwan, Indonesia, Malaysia, Thailand, the Philippines, Vietnam, and China—into an accessible, readable narrative that debunks Western misconceptions, shows what really happened in Asia and why, and for once makes clear why some countries have boomed while others have languished. Studwell’s in-depth analysis focuses on three main areas: land policy, manufacturing, and finance. Land reform has been essential to the success of Asian economies, giving a kick-start to development by utilizing a large workforce and providing capital for growth. With manufacturing, industrial development alone is not sufficient, Studwell argues. Instead, countries need “export discipline,” a

government that forces companies to compete on the global scale. And in finance, effective regulation is essential for fostering, and sustaining growth. To explore all of these subjects, Studwell journeys far and wide, drawing on fascinating examples from a Philippine sugar baron's stifling of reform to the explosive growth at a Korean steel mill. "Provocative . . . How Asia Works is a striking and enlightening book . . . A lively mix of scholarship, reporting and polemic." —The Economist

Moving backward in time, Dorris's critically acclaimed debut novel is a lyrical saga of three generations of Native American women beset by hardship and torn by angry secrets.

#1 New York Times Bestseller Over 1 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For

decades, we've been told that positive thinking is the key to a happy, rich life. "F\*\*k positivity," Mark Manson says. "Let's be honest, shit is f\*\*ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The *Subtle Art of Not Giving a F\*\*k* is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f\*\*k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-

needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F\*\*k* is a refreshing slap for a generation to help them lead contented, grounded lives.

A fat little, round little, yellow little pumpkin dreams of growing up to be fierce and frightening, just like the scarecrow in the field. Then one day in autumn, he unexpectedly gets the chance for his dream to come true, and the fierce yellow pumpkin becomes terrific and terrible! An enchanting tale from the author of *Goodnight Moon*.

Originally written as a gift from a father to a son, the book's simple message--to be understanding, thoughtful, and appreciative--has been enjoyed by men and women of all ages. This edition with all three volumes has been redesigned for a new generation.

Voted America's Best-Loved Novel in PBS's *The Great American Read* Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, *To Kill a Mockingbird* has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth

century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

From the Academy Award®-winning actor, an unconventional memoir filled with raucous stories, outlaw wisdom, and lessons learned the hard way about living with greater satisfaction “Unflinchingly honest and remarkably candid, Matthew McConaughey’s book invites us to grapple with the lessons of his life as he did—and to see that the point was never to win, but to understand.”—Mark Manson, author of *The Subtle Art of Not Giving a F\*ck* I’ve been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what

matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life's challenges—how to get relative with the inevitable—you can enjoy a state of success I call “catching greenlights.” So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seems, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it's medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot's license, going to church without having to be born again, and laughing through the tears. It's a love letter. To life. It's also a guide to catching more greenlights—and to realizing that the yellows and reds eventually turn green too. Good luck.

**NEW YORK TIMES BESTSELLER** • From the bestselling author of *Before We Were Yours* comes a new historical novel: the dramatic story of three young women searching for family amid the destruction of the post-Civil War South, and of a modern-day teacher who learns of their story and its vital connection to her students' lives. Bestselling author Lisa Wingate brings to life startling stories

from actual “Lost Friends” advertisements that appeared in Southern newspapers after the Civil War, as newly freed slaves desperately searched for loved ones who had been sold away. Louisiana, 1875: In the tumultuous era of Reconstruction, three young women set off as unwilling companions on a perilous quest: Hannie, a freed slave; Lavinia, the pampered heir to a now destitute plantation; and Juneau Jane, Lavinia’s Creole half sister. Each carries private wounds and powerful secrets as they head for Texas, following roads rife with vigilantes and soldiers still fighting a war lost a decade before. For Lavinia and Juneau Jane, the journey is one of stolen inheritance and financial desperation, but for Hannie, torn from her mother and siblings before slavery’s end, the pilgrimage west reignites an agonizing question: Could her long-lost family still be out there? Beyond the swamps lie the limitless frontiers of Texas and, improbably, hope. Louisiana, 1987: For first-year teacher Benedetta Silva, a subsidized job at a poor rural school seems like the ticket to canceling her hefty student debt—until she lands in a tiny, out-of-step Mississippi River town. Augustine, Louisiana, is suspicious of new ideas and new people, and Benny can scarcely comprehend the lives of her poverty-stricken students. But amid the gnarled live oaks and run-down plantation homes lie the century-old history of three young women, a long-ago journey, and a hidden book that could

change everything.

A blue backpack. Una mochila azul. Empty! A brother and sister, un hermano y una hermana, and their little bear, un osito. Sleepy! But there are so many things to gather -- and so much to be done! Come join the fun -- in English and Spanish -- and make an ordinary afternoon extraordinary. Mark Twain observed, "I'm in favour of progress; it's change I don't like." Coal dominates Indian energy because it's available domestically and cheap (especially without a carbon tax). If the global focus is on the energy transition, how does India ensure a just transition? Managing winners and losers will be the single largest challenge for India's energy policy. Coal is entrenched in a complex ecosystem. In some states, it's amongst the largest contributors to state budgets. The Indian Railways, India's largest civilian employer, is afloat because it overcharges coal to offset under-recovery from passengers. Coal India Limited, the public sector miner that

produces 85% of domestic coal, is the world's largest coal miner. But despite enormous reserves, India imports about a quarter of consumption. On the flip side, coal faces inevitable pressure from renewable energy, which is the cheapest option for new builds. However, there is significant coal-based power capacity already in place, some of which is underutilized, or even stranded. Low per-capita energy consumption means India must still grow its energy supply. Before India can phase out coal, it must first achieve a plateau of coal. How this happens cost-effectively and with least resistance isn't just a technical or economic question, it depends on the political economy of coal and its alternatives. Some stakeholders want to kill coal. A wiser option may be to first clean it up, instead of wishing it away. Across 18 chapters, drawing from leading experts in the field, we examine all aspects of coal's future in India. We find no easy answers, but attempt to combine the big picture with details, bringing them together to offer a range of policy options. Why should we care about heaven? -- What is heaven like? -- When does a person go to heaven? -- Where is heaven? -- Who goes to heaven?

Henri Lefebvre's three-volume *Critique of Everyday Life* is perhaps the richest, most prescient work by one of the twentieth century's greatest philosophers. The first volume presented an introduction to the concept of everyday life. Written twenty years later, this second volume attempts to establish the necessary formal instruments for analysis, and outlines a series of theoretical categories within everyday life such as the theory of the semantic field and the theory of moments. The moment at which the book appeared—1961—was significant both for France and for Lefebvre himself: he was just beginning his career as a lecturer in sociology at Strasbourg, and then at Nanterre, and many of the ideas which were influential in the events leading

up to 1968 are to be found in this critique. In its impetuous, often undisciplined prose, the reader may catch a glimpse of how charismatic a lecturer Lefebvre must have been.

In her attempts to juggle work and family life, Brigid Schulte has baked cakes until 2 a.m., frantically (but surreptitiously) sent important emails during school trips and then worked long into the night after her children were in bed. Realising she had become someone who constantly burst in late, trailing shoes and schoolbooks and biscuit crumbs, she began to question, like so many of us, whether it is possible to be anything you want to be, have a family and still have time to breathe. So when Schulte met an eminent sociologist who studies time and he told her she enjoyed thirty hours of leisure each week, she thought her head was going to pop off. What followed was a trip down the rabbit hole of busyness, a journey to discover why so many of us find it nearly impossible to press the 'pause' button on life and what got us here in the first place. Overwhelmed maps the individual, historical, biological and societal stresses that have ripped working mothers' and fathers' leisure to shreds, and asks how it might be possible for us to put the pieces back together. Seeking insights, answers and inspiration, Schulte explores everything from the wiring of the brain and why workplaces are becoming increasingly demanding, to worldwide differences in family policy, how cultural norms shape our experiences at work, our unequal division of labour at home and why it's so hard for everyone – but women especially – to feel they deserve an elusive moment of peace.

**A NEW YORK TIMES BESTSELLER WINNER OF THE 2019 NATIONAL BOOK AWARD FOR NONFICTION** A brilliant, haunting and unforgettable memoir from a stunning new talent about the inexorable pull of home and family, set in a shotgun house in New Orleans East. In 1961, Sarah M. Broom's mother Ivory Mae bought a shotgun house in the then-promising neighborhood of New Orleans East and built her world inside of it. It was the height of the Space Race and the neighborhood was home to a major NASA plant—the postwar optimism seemed assured. Widowed, Ivory Mae remarried Sarah's father Simon Broom; their combined family would eventually number twelve children. But after

Simon died, six months after Sarah's birth, the Yellow House would become Ivory Mae's thirteenth and most unruly child. A book of great ambition, Sarah M. Broom's *The Yellow House* tells a hundred years of her family and their relationship to home in a neglected area of one of America's most mythologized cities. This is the story of a mother's struggle against a house's entropy, and that of a prodigal daughter who left home only to reckon with the pull that home exerts, even after the Yellow House was wiped off the map after Hurricane Katrina. *The Yellow House* expands the map of New Orleans to include the stories of its lesser known natives, guided deftly by one of its native daughters, to demonstrate how enduring drives of clan, pride, and familial love resist and defy erasure. Located in the gap between the "Big Easy" of tourist guides and the New Orleans in which Broom was raised, *The Yellow House* is a brilliant memoir of place, class, race, the seeping rot of inequality, and the internalized shame that often follows. It is a transformative, deeply moving story from an unparalleled new voice of startling clarity, authority, and power.

*Her Favorite Color Was Yellow* is Edgar Holmes' debut collection of poetry. It is an ode to his muse, his all-consuming love, his everything- how it feels to find love, lose it, and get it back. Pour yourself some coffee and curl up with this book to let yourself feel
